Contents

Preface ............................................................................................................................. v
Contributors .................................................................................................................... ix

1 Reflecting on Confocal Microscopy: A Personal Perspective .............................. 1
   John White

2 Laser Scanning Confocal Microscopy: History, Applications, 
   and Related Optical Sectioning Techniques ...................................................... 9
   Stephen W. Paddock and Kevin W. Eliceiri

3 Confocal Microscopy on the Internet ..................................................................... 49
   Kristin L. Hazelwood, Christopher S. Murphy, Zachary C. Cunningham, 
   Matthew J. Parry-Hill, Richard L. Ludlow, Ericka B. Ramko, 
   Anna P. Ozarowska, Adam M. Rainey, and Michael W. Davidson

4 Using Photoshop with Images Created by a Confocal System ......................... 97
   Jerry Sedgewick

5 Clearing Up the Signal: Spectral Imaging and Linear Unmixing 
   in Fluorescence Microscopy ........................................................................ 129
   Timo Zimmermann, Joanne Marrison, Karen Hogg, 
   and Peter O’Toole

6 Low Magnification Confocal Microscopy 
   of Tumor Angiogenesis .................................................................................... 149
   George McNamara, Anna Yanai, Vazgen Khankaldyyan, 
   Walter E. Laug, Jeff Boden, Keith Webster, Yiwen Li, and Rong Wen

7 Confocal Imaging of Butterfly Tissue ................................................................ 177
   Craig R. Brunetti

8 Confocal Microscopy of Cardiac Myocytes ....................................................... 185
   Robert L. Price, Stephen T. Haley, Tara Bullard, Jeffrey Davis, 
   Thomas K. Borg, and Louis Terracio

9 Confocal Imaging of Fluorescently Labeled Proteins 
   in the Drosophila Larval Neuromuscular Junction ............................................. 201
   Ian P. Coyle

10 Confocal Imaging and Three-Dimensional Visualization 
   of Thick Autofluorescent Specimens .................................................................. 213
   Angela V. Klaus, Valerie Schawaroch, and Kevin J. Frischmann

11 Vital Imaging of Multicellular Spheroids .......................................................... 227
   Paulo J. Oliveira, Edward L. Perkins, and Jon Holy

12 Live Confocal Analysis of Mutant- and Drug-Treated 
   Drosophila Embryos ......................................................................................... 243
   Barbara Fasulo and William Sullivan
13 Confocal Imaging of the Microtubule Cytoskeleton  
in C. elegans Embryos and Germ Cells .................................................. 257  
Kevin F. O’Connell and Andy Golden

14 Measurement in the Confocal Microscope .................................................. 273  
Guy Cox

15 A Method for Quantifying Blood Flow Distribution  
Among the Alveoli of the Lung .................................................................. 297  
Robert L. Conhaim, Dennis M. Heisey, and Glen E. Leverson

16 Imaging Tools for Analysis of the Ureteric Tree  
in the Developing Mouse Kidney ............................................................... 305  
Luise A. Cullen-McEwen, Richard J. Young, Gabriel Fricout,  
Dominique Jeulin, Ian S. Harper, Frank Costantini,  
and John F. Bertram

17 Evaluating Confocal Microscopy System Performance ................................ 321  
Robert M. Zucker

Index .................................................................................................................. 375
Confocal Microscopy
Methods and Protocols
Paddock, S.W. (Ed.)
2014, XI, 381 p. 130 illus., 51 illus. in color., Hardcover
ISBN: 978-1-58829-351-0
