PART I. THE BACTERIA

1	Detection of Hemolysins in <i>Aeromonas</i> spp. Isolates From Food Sources: <i>PCR Analysis and Biological Activity</i> Rosabel Falcón, Tatiana d'Albuquerque e Castro, Maria das Graças de Luna, Angela Corrêa de Freitas-Almeida, and Tomomasa Yano	3
2	Detection and Purification of <i>Bacillus cereus</i> Enterotoxins Toril Lindbäck and Per Einar Granum	15
3	Campylobacter: <i>Isolation, Identification, and Preservation</i> Rachel Gorman and Catherine C. Adley	27
4	Detection of <i>Clostridium botulinum</i> by Multiplex PCR in Foods and Feces Miia Lindström, Mari Nevas, and Hannu Korkeala	37
5	Multiplex PCR for Specific Identification of Enterohemorrhagic <i>Escherichia coli</i> Strains in the O157:H7 Complex Peter C. H. Feng and Steven R. Monday	47
6	PulseNet's Step-by-Step Laboratory Protocol for Molecular Subtyping of <i>Listeria monocytogenes</i> by Macrorestriction and Pulsed-Field Gel Electrophoresis Lewis M. Graves and Balasubramanian Swaminathan	57
7	<i>Plesiomonas shigelloides</i> : <i>Detection by PCR</i> Ivan Ciznar, Carlos González-Rey, Karel Krovacek, and Anna Hostacka	73
8	Pulsed-Field Gel Electrophoresis As a Molecular Technique in <i>Salmonella</i> Epidemiological Studies Rachel Gorman and Catherine C. Adley	81
9	Kits for Detection of Food Poisoning Toxins Produced by <i>Bacillus cereus</i> and <i>Staphylococcus aureus</i> Moira M. Brett	91
10	Microbiological and Molecular Methods to Identify and Characterize Toxigenic <i>Vibrio cholerae</i> From Food Samples Keya De, Ranjan K. Nandy, and G. Balakrish Nair	99

11	HPLC Measurement of Aflatoxin B ₁ and Metabolites in Isolated Rat Hepatocytes <i>Jennifer Colford</i>	125
PART II. THE VIRUSES		
12	Detection of Noroviruses of Genogroups I and II in Drinking Water by Real-Time One-Step RT-PCR <i>Christian M. Beuret</i>	135
13	Detection of Enteroviruses <i>Miguel-Angel Jiménez-Clavero, Victoria Ley, Nuria Gómez, and Juan-Carlos Sáiz</i>	153
14	Detection of Hepatitis A Virus and Rotavirus Using Nucleic Acid Sequence-Based Amplification <i>Julie Jean and Ismail Fliss</i>	171
PART III. THE PARASITES		
15	Isolation and Characterization of Cathepsin-L1 Protease From <i>Fasciola hepatica</i> Excretory-Secretory Products for Serodiagnosis of Human Fasciolosis <i>Sandra M. O'Neill, Grace Mulcahy, and John P. Dalton</i>	191
16	Molecular Biology Methods for Detection and Identification of <i>Cryptosporidium</i> Species in Feces, Water, and Shellfish <i>Colm J. Lowery, L. Xiao, U. M. Ryan, James S. G. Dooley, B. Cherie Millar, and John E. Moore</i>	203
17	Molecular Identification of Nematode Worms From Seafood (<i>Anisakis</i> spp. and <i>Pseudoterranova</i> spp.) and Meat (<i>Trichinella</i> spp.) <i>Giuseppe La Rosa, Stefano D'Amelio, and Edoardo Pozio</i>	217
PART IV. PARALLEL STUDIES TO THE ANALYSIS OF FOOD-BORNE PATHOGENS		
18	Approaches to Developing Quantitative Risk Assessment Models <i>Enda J. Cummins</i>	235
19	A Review of Surveillance Networks of Food-Borne Diseases <i>Camelia Molnar, Rita Wels, and Catherine C. Adley</i>	251
	Index	259
