Contents

1 The Beautiful Structures of BAFF, APRIL, and Their Receptors ........................................ 1
   Pascal Schneider

2 BAFF Receptor Regulation of Peripheral B-Lymphocyte Survival and Development .................. 19
   Wasif N. Khan, Nicholas P. Shinners, Iris Castro, and Kristen L. Hoek

3 Regulation of B-Cell Self-Tolerance By BAFF and the Molecular Basis of Its Action ............ 43
   Sandra Gardam and Robert Brink

4 Role of BAFF and APRIL in Antibody Production and Diversification ................................. 65
   Andrea Cerutti and Kang Chen

5 Signal Transduction by Receptors for BAFF and APRIL .................................................... 93
   Joanne M. Hildebrand, Ping Xie, and Gail A. Bishop

6 TACI Signaling and Its Role in Immunity ............................................................................. 115
   Richard J. Bram

7 The BAFF/APRIL System in Autoimmunity ........................................................................... 125
   Fabienne Mackay, William A. Figgett, Pali Verma, and Xavier Mariette

8 Systemic Immune-Based Rheumatic Diseases: Blissless States of BLySfulness .................... 161
   William Stohl

9 The Role of BAFF and APRIL in Regulating Human B-Cell Behaviour: Implications for Disease Pathogenesis .......................................................... 195
   Stuart G. Tangye and David A Fulcher
10 Translation of BAFF Inhibition from Mouse to Non-human Primate and Human .......... 221
Lachy McLean, Dhaya Seshasayee, Susan L. Kalled, and Flavius Martin

11 BLyS/BR3 Receptor Signaling in the Biology and Pathophysiology of Aggressive B-Cell Lymphomas ........ 245
Lingchen Fu, Lan V. Pham, Yen-chiu Lin-Lee, Archito T. Tamayo, and Richard J. Ford

12 Tipping the Scales of Survival: The Role of BLyS in B-Cell Malignancies ........... 265
Anne J. Novak and Stephen M. Ansell

Index ......................................................... 283
BlyS Ligands and Receptors
Cancro, M.P. (Ed.)
2010, XI, 284 p. 40 illus., 21 illus. in color., Hardcover
ISBN: 978-1-60327-012-0
