Contents

Preface ................................................................. v
Contributors ........................................................... ix

PART I: DETECTION OF APOPTOSIS

1 Analysing Caspase Activation and Caspase Activity in Apoptotic Cells ............ 3
   Sharad Kumar and Loretta Dorstyn

2 Flow Cytometry-Based Apoptosis Detection .............................................. 19
   Donald Wlodkowic, Joanna Skommer, and Zbigniew Darzynkiewicz

3 Live to Dead Cell Imaging ......................................................................... 33
   Stephen W.G. Tait, Lisa Bouchier-Hayes, Andrew Oberst,
   Samuel Connell, and Douglas R. Green

4 Detection of Apoptosis in Tissue Sections ............................................... 49
   Eva Csizmadia and Vilmos Csizmadia

5 Detection of Apoptosis in Cell-Free Systems ........................................... 65
   Dhyan Chandra and Dean G. Tang

PART II: DETECTION OF NON-APOPTOTIC CELL DEATH

6 Methods to Analyze Cellular Necroptosis ............................................... 79
   Benchun Miao and Alexei Degterev

7 Detection of Cell Death by Autophagy ...................................................... 95
   Narasimman Gurusamy and Dipak K. Das

PART III: MODIFICATIONS OF APOPTOTIC PROTEINS DURING APOPTOSIS

8 Methods to Analyze Transglutamination of Proteins Involved in Apoptosis ...... 107
   Zoltán Nemes and László Fésüs

9 Methods to Analyze S-nitrosylation of Proteins Involved in Apoptosis .......... 117
   Neelam Azad, Anand Krishnan V. Iyer, and Yon Rojanasakul

10 Application of In Vivo EPR for Tissue pO₂ and Redox Measurements ........ 131
    Nadeem Khan and Dipak K. Das

PART IV: ANALYSIS OF THE FUNCTION OF MAJOR REGULATORS
          OF APOPTOSIS/CELL SURVIVAL

11 Assays to Measure p53-Dependent and -Independent Apoptosis ................ 143
    Darren C. Phillips, Sean P. Garrison, John R. Jeffers,
    and Gerard P. Zambetti

12 Measurement of Changes in Cdk2 and Cyclin O-Associated
    Kinase Activity in Apoptosis ........................................................... 161
    Ramon Roset and Gabriel Gil-Gómez
Contents

13 Fluorometric Methods for Detection of Mitochondrial Membrane Permeabilization in Apoptosis ......................................................... 173
Soumya Sinha Roy and György Hajnóczky

14 Regulation of Apoptosis by the Unfolded Protein Response .................. 191
Andrew Fribley, Kezhong Zhang, and Randal J. Kaufman

15 Detection of Uncoupling Protein-2 (UCP2) As a Mitochondrial Modulator of Apoptosis ................................................................. 205
Zoltan Derdak, Tamako A. Garcia, and Gyorgy Baffy

16 Multiple Approach to Analyzing the Role of MicroRNAs in Apoptosis .... 219
Riccardo Spizzo and George A. Calin

17 Assessment of Apoptotic Cell Phagocytosis by Macrophages ............. 247
Kathleen A. McPhillips and Lars-Peter Erwig

PART V: ANALYSIS OF APOPTOSIS IN DIFFERENT ORGANS

18 Detection of Apoptosis in Mammalian Development .......................... 259
Lin Lin, Carlos Penaloza, Yixia Ye, Richard A. Lockshin, and Zahra Zakeri

19 Detection of Apoptosis in the Central Nervous System ....................... 273
Youngsoo Lee and Peter J. McKinnon

20 Genetic Mapping of Anti-Apoptosis Pathways in Myeloid Progenitor Cells ... 283
Dan Liu and Zhou Songyang

21 Analysis of Apoptosis in Isolated Primary Cardiac Myocytes ............... 293
Adel Mandl, Ambrus Toth, and Peter Erhardt

22 Cell Death in Myoblasts and Muscles ............................................. 313
Lawrence M. Schwartz, Zhengliang Gao, Christine Brown, Sangram S. Parelkar, and Honor Glenn

PART VI: ANALYSIS OF APOPTOSIS IN MODEL ORGANISMS

23 Reliable Method for Detection of Programmed Cell Death in Yeast .......... 335
Xinchen Teng and J. Marie Hardwick

24 Detection of Cell Death in Drosophila ............................................. 343
Kimberly McCall, Jeanne S. Peterson, and Tracy L. Pritchett

25 Detecting Apoptotic Cells and Monitoring Their Clearance in the Nematode Caenorhabditis elegans ................................................. 357
Nan Lu, Xiaomeng Yu, Xiangwei He, and Zheng Zhou

26 Detection of Herpes Simplex Virus Dependent Apoptosis ..................... 371
Christopher R. Cotter and John A. Blaho

Index ........................................................................................................ 389
Apoptosis
Methods and Protocols, Second Edition
Erhard, P.; Toth, A. (Eds.)
2009, XII, 400 p. 55 illus., 8 illus. in color., Hardcover
A product of Humana Press
