## Contents

*Series Preface* ....................................................... vi
*Preface* ............................................................ vii
*Series Contributors* ................................................ xi

1. An Overview of Drug Delivery to the CNS. ........................................ 1  
   *Kewal K. Jain*

2. Receptor-Mediated Transport of Drugs Across the BBB ..................... 15  
   *Ji-Ming Feng, Philip C.W. Lui, and Jian Yi Li*

3. Disruption of Blood–Brain Barrier by Focused Ultrasound for Targeted Drug Delivery to the Brain. .................................................. 35  
   *Natalia Vykhodtseva*

4. Prediction of Blood–Brain Barrier Penetration by Drugs ................... 63  
   *Kiril Lanevskij, Pranas Japertas, Remigijus Didziapetris and Alanas Petrauskas*

5. Intraparenchymal Delivery and Its Discontents. ............................... 85  
   *Raghu Raghavan*

6. Intrathecal Drug Delivery by Implanted Pumps .................................. 137  
   *Shawn Belverud, Alon Mogilner, and Michael Schulder*

7. Intracarotid Drug Delivery: Revisiting the Past or Looking into the Future .... 155  
   *Shailendra Joshi*

8. Vesicular Systems for Intranasal Drug Delivery. .................................. 175  
   *Ibrahim A. Alsarra, Amel Y. Hamed, Fars K. Alanazi and Gamal M. El Maghraby*

   *Yael Mardor and Zvi Ram*

10. Intrathecal Delivery of Stem Cells to the Spinal Cord .......................... 219  
    *Birgit Neuhuber and Itzhak Fischer*

11. CNS Delivery of Peptides Across the BBB Using the Dual-Artery In Situ Brain Perfusion Model .............................................. 233  
    *Ken A. Witt, Patrick T. Ronaldson, Karin E. Sandoval and Thomas P. Davis*

12. An Engineered Peptide Compound Platform Technology Incorporating Angiopep for Crossing the BBB ........................................ 249  
    *Reinhard Gabathuler*

13. Adeno-Associated Virus Mediated Gene Therapy in Ischemic Stroke ........ 261  
    *Yongting Wang, Falei Yuan, and Guo-Yuan Yang*

14. Use of Mesenchymal Stem Cells for Gene Delivery to Intracranial Glioma .... 277  
    *Sin-Soo Jeun, Seong Muk Kim, Jung Teon Lim, and Chung Heon Ryu*
15. Convection-Enhanced Drug Delivery to the Brain ................................. 291
   Dale Ding, Charles W. Kanaly, Martin L. Brady, Stephan Mittermeyer,
   Raghu Raghavan, and John H. Sampson

Subject Index .......................................................... 319
Drug Delivery to the Central Nervous System
Jain, K.K. (Ed.)
2010, XII, 321 p., Hardcover
ISBN: 978-1-60761-528-6
