Contents

Series Preface ................................................................. v
Preface .............................................................................. vii
Series Contributors ........................................................ xi
1. An Overview of Drug Delivery to the CNS. ......................... 1
   Kewal K. Jain
2. Receptor-Mediated Transport of Drugs Across the BBB .......... 15
   Ji-Ming Feng, Philip C.W. Lui, and Jian Yi Li
3. Disruption of Blood–Brain Barrier by Focused Ultrasound for Targeted Drug
   Delivery to the Brain. ......................................................... 35
   Natalia Vykhodtseva
4. Prediction of Blood–Brain Barrier Penetration by Drugs .......... 63
   Kiril Lanevskij, Pranas Japertas, Remigijus Didziapetris
   and Alanas Petrauskas
5. Intraparenchymal Delivery and Its Discontents. .................. 85
   Raghu Raghavan
6. Intrathecal Drug Delivery by Implanted Pumps .................... 137
   Shawn Belverud, Alon Mogilner, and Michael Schulder
7. Intracarotid Drug Delivery: Revisiting the Past or Looking into the Future .................. 155
   Shailendra Joshi
8. Vesicular Systems for Intranasal Drug Delivery. .................. 175
   Ibrahim A. Alsarra, Amel Y. Hamed, Fars K. Alanazi
   and Gamal M. El Maghraby
9. Convection-Enhanced Drug Delivery and Monitoring in a Rat Model. .... 205
   Yael Mardor and Zvi Ram
10. Intrathecal Delivery of Stem Cells to the Spinal Cord. .......... 219
    Birgit Neuhuber and Itzhak Fischer
11. CNS Delivery of Peptides Across the BBB Using the Dual-Artery In Situ
    Brain Perfusion Model .................................................... 233
    Ken A. Witt, Patrick T. Ronaldson, Karin E. Sandoval
    and Thomas P. Davis
12. An Engineered Peptide Compound Platform Technology Incorporating
    Angiopep for Crossing the BBB ...................................... 249
    Reinhard Gabathuler
13. Adeno-Associated Virus Mediated Gene Therapy in Ischemic Stroke .... 261
    Yongting Wang, Falei Yuan, and Guo-Yuan Yang
14. Use of Mesenchymal Stem Cells for Gene Delivery to Intracranial Glioma. .... 277
    Sin-Soo Jeun, Seong Muk Kim, Jung Teon Lim, and Chung Heon Ryu

ix
15. Convection-Enhanced Drug Delivery to the Brain

Dale Ding, Charles W. Kanaly, Martin L. Brady, Stephan Mittermeyer, Raghu Raghavan, and John H. Sampson

Subject Index
Drug Delivery to the Central Nervous System
Jain, K.K. (Ed.)
2010, XII, 324 p. 98 illus., 4 illus. in color., Hardcover
ISBN: 978-1-60761-528-6
