Contents

Part I  General and Medical Considerations

Physiology of Laparoscopy and Pneumoperitoneum .......................... 3
Steve W. Waxman and Howard N. Winfield

Anesthesia and Management of Anesthetic Complications of Laparoscopic Urological Surgery .................. 7
Philip Lebowitz, Mahesan Richards, and Christopher Bryan-Brown

Metabolic and Renal Complications and Immunologic Implications of Laparoscopic Urologic Surgery ............ 19
Steve K. Williams and David M. Hoenig

Positional and Neuromuscular Complications of Laparoscopic and Robotic Urologic Surgery ............ 35
Ricardo A. Natalin and Jaime Landman

Part II  Surgical Complications

Vascular Complications in Laparoscopic and Robotic Urologic Surgery ................................................. 45
Daniel Tare, Pedro Maria, and Reza Ghavamian

Urinary and Urologic Complications of Laparoscopic and Robotic Urologic Procedures ..................... 59
Abraham Ari Hakimi and Reza Ghavamian

Visceral and Gastrointestinal Complications of Laparoscopic and Robotic Urologic Surgery ............... 73
S. Scott Putman and Jay T. Bishoff

Complications of Robotic-Assisted Laparoscopic Surgery: Iatrogenic and Doulogenic ......................... 91
John L. Phillips, Erin C. Grantham, and Bobby S. Alexander

Part III  Procedure-Specific Complications

Complications of Laparoscopic and Robotic Adrenal Surgery ........... 103
Jayant Uberoi and Ravi Munver
Contents

Complications of Laparoscopic Radical Nephrectomy and Nephroureterectomy ............................... 113
David A. Green and Michael Grasso III

Complications of Laparoscopic Donor Nephrectomy .......................................................... 127
Alexei Wedmid and Michael A. Palese

Complications of Laparoscopic Partial Nephrectomy ......................................................... 143
Ahmed Ghazi, Reinhold Zimmermann, and Gunter Janetschek

Complications of Robotic Partial Nephrectomy ................................................................. 159
Matthew Sand, Elias Hyams, and Michael Stifelman

Complications of Laparoscopic Retroperitoneal Lymph Node Dissection .............................................. 171
Mohamed A. Atalla, Eboni J. Woodard, and Louis R. Kavoussi

Complications of Laparoscopic and Robotic Pyeloplasty .................................................. 177
Elias Hyams and Michael Stifelman

Complications of Laparoscopic and Robotic Ureteral Surgery ........................................ 187
Ugur Boylu and Raju Thomas

Complications of Robotic Prostatectomy ........................................................................... 197
Akshay Bhandari and Mani Menon

Methods and Maneuvers for Improving Functional Outcomes During Robotic Radical Prostatectomy .......................................................... 211
Gerald Y. Tan, Philip J. Dorsey, Jr, and Ashutosh K. Tewari

Complications of Laparoscopic and Robotic-Assisted Radical Cystectomy ................................................. 233
Ahmed M. Mansour, James O. Peabody, and Khurshid A. Guru

Complications of Laparoscopic and Robotic Reconstructive Procedures for Urinary Incontinence and Pelvic Organ Prolapse ................................................. 247
Alvaro Lucioni and Kathleen C. Kobashi

Complications of Single Port Laparoscopic andRobotic Surgery ........................................ 261
Wesley M. White, Raj K. Goel, and Jihad H. Kaouk

Complications of Ablative Renal Procedures ........................................................................ 267
Chad R. Tracy and Jeffrey A. Cadeddu

Complications of Laparoscopic and Robotic Pediatric Urologic Surgery ........................................ 277
Sean T. Corbett

Medicolegal Aspects of Minimally Invasive Urologic Surgery ........................................ 293
Maxwell V. Meng and Michael H. Hsieh

Subject Index .................................................................................................................... 307
Complications of Laparoscopic and Robotic Urologic Surgery
Ghavamian, R. (Ed.)
2010, XIV, 327 p. With 8 page color insert., Hardcover
ISBN: 978-1-60761-675-7
