## Contents

*Preface* .................................................................................................................. v

*Contributors* ........................................................................................................... ix

1. The Concept of Prenatal Gene Therapy ............................................................. 1  
   *Charles Coutelle and Simon N. Waddington*

2. Candidate Diseases for Prenatal Gene Therapy ............................................. 9  
   *Anna L. David and Simon N. Waddington*

3. Vector Systems for Prenatal Gene Therapy: Choosing Vectors for Different Applications ................................................................. 41  
   *Charles Coutelle and Simon N. Waddington*

   *Raul Alba, Andrew H. Baker, and Stuart A. Nicklin*

   *Steven J. Howe and Anil Chandrashekran*

   *Christopher J. Binny and Amit C. Nathwani*

   *Suet Ping Wong, Orestis Argyros, and Richard P. Harbottle*

8. Use of Manipulated Stem Cells for Prenatal Therapy ...................................... 169  
   *Jessica L. Roybal, Pablo Laje, Jesse D. Vrecenak, and Alan W. Flake*

   *Vedanta Mehta, Donald Peebles, and Anna L. David*

    *Jessica L. Roybal, Masayuki Endo, Suzanne M.K. Buckley, Bronwen R. Herbert, Simon N. Waddington, and Alan W. Flake*

    *Khalil N. Abi-Nader, Michael Boyd, Alan W. Flake, Vedanta Mehta, Donald Peebles, and Anna L. David*

    *Citra N. Mattar, Arjit Biswas, Mahesh Choolani, and Jerry K.Y. Chan*

13. Choice of Surrogate and Physiological Markers for Prenatal Gene Therapy 273  
    *Juliette M.K.M. Delhove, Ahad A. Rahim, Tristan R. McKay, Simon N. Waddington, and Suzanne M.K. Buckley*
