## Contents

### Part I  Overview and General Nutrition During Alcohol Use

1. **Alcohol and Nutrition: An Overview** ................................................................. 3  
   Francisco Santolaria and Emilio González-Reimers

2. **Genetics of Alcohol Metabolism** ................................................................. 15  
   Vijay A. Ramchandani

3. **Laboratory Models Available to Study Alcohol and Nutrition** ...................... 27  
   Nympha B. D’Souza EL-Guindy

4. **Ethanol-Induced Lipid Peroxidation and Apoptosis in Embryopathy** .......... 35  
   Robert R. Miller Jr.

5. **Alcohol Use During Lactation: Effects on the Mother-Infant Dyad** ............. 63  
   Julie A. Mennella

### Part II  Nutrients and Foods as Modified by Alcohol

6. **Moderate Alcohol Administration: Oxidative Stress and Nutritional Status** .... 83  
   Lorenzo Leggio, Anna Ferrulli, and Giovanni Addolorato

7. **Alcohol Use and Abuse: Effects on Body Weight and Body Composition** ....... 89  
   Stefan Gazdzinski and Timothy C. Durazzo

8. **Alcohol: Nutrition and Health Inequalities** ............................................... 97  
   Adrian Bonner and Margherita Grotzkij-Giorgi

9. **The Effect of Diet on Protein Modification by Ethanol Metabolites** ............. 111  
   Simon Worrall

10. **Vitamin B12 Deficiency in Alcoholics** .................................................... 131  
    Alberto Fragasso

11. **American Indians/Alaskan Natives and Alcohol: Biology, Nutrition, and Positive Programs** ................................................................................................................. 135  
    Felina M. Cordova, Michael H. Trujillo, and Roger Dale Walker

### Part III  Nutrient Effects on Alcohol Metabolism

12. **Metabolism of Ethanol to Acetaldehyde in the Rat Mammary Tissue: Inhibitory Effects of Plant Polyphenols and Folic Acid** ............................................ 145  
    Gerardo Daniel Castro and José Alberto Castro
13 Dietary Zinc Supplementation and Prenatal Ethanol Exposure ................................... 155
   Peter Coyle, Brooke Summers-Pearce, Carina J. Cowley, and Allan M. Rofe

14 Tocotrienol and Cognitive Dysfunction Induced by Alcohol .......................................... 181
   Kanwaljit Chopra and Vinod Tiwari

15 Soy Products Affecting Alcohol Absorption and Metabolism ........................................ 203
   Mitsuyoshi Kano and Norihiro Kubota

16 Oats Supplementation and Alcohol-Induced Oxidative Tissue Damage ....................... 215
   Christopher B. Forsyth, Yueming Tang, Robin M. Voigt, Turan Rai, and Ali Keshavarzian

17 Fish Oil n-3 Fatty Acids to Prevent Hippocampus and Cognitive Dysfunction in Experimental Alcoholism ............................................................... 227
   Nataliya A. Babenko

18 Alcohol in HIV and Possible Interactions with Antiretroviral Medications ..................... 241
   Marianna K. Baum, Sabrina Sales-Martinez, and Adriana Campa

Part IV Alcohol Interactions with Foods

19 Popular Energy Drinks and Alcohol ................................................................................. 255
   Erin C. Duchan

20 The Psychological Synergistic Effects of Alcohol and Caffeine ....................................... 265
   Ambereen Ameer and Ronald Ross Watson

21 Alcohol and Smoking: A Correlation of Use in Youth? ................................................... 271
   Meghan Denning and Ronald Ross Watson

22 Are There Physiological Correlations Between Alcohol and Tobacco Use in Adults? ........................................................................................................ 279
   Cynthia Lee and Ronald Ross Watson

23 Alcohol, HIV/AIDS, and Liver Disease ............................................................................. 287
   Tamsin A. Knox, Logan Jerger, and Alice M. Tang

Part V Alcohol and Chronic Diseases

24 Nutritional Status, Socioeconomic Factors, Alcohol, and Cataracts .............................. 307
   Vaishali Agte and Kirtan V. Tarwadi

25 Alcohol Intake and High Blood Pressure ......................................................................... 321
   Amy Z. Fan and Yueren Zhou

26 Alcohol and Dyslipidemia .................................................................................................. 329
   Indrajit Chowdhury

27 Dietary Antioxidants in Chronic Alcoholic Pancreatitis ................................................. 341
   Miroslaw Jarosz and Ewa Rychlik

28 Alcohol Consumption, Lifestyle Factors, and Type 2 Diabetes ..................................... 357
   Martin D. Stricker, Henk F.J. Hendriks, and Joline W.J. Beulens

29 Alcohol, Overweight and Obesity ..................................................................................... 371
   Sasiwarang Goya Wannamethee
30 Nutrition: Alcohol and Anorectic and Bulimic Adolescents ........................................... 383
   Konstantina Magklara

31 Viral Infections and Cancer During Alcohol Use ............................................................. 397
   Malgorzata Schlegel-Zawadzka

Part VI Cancer as Modified and Induced by Alcohol

32 Ethanol and Hepatocarcinogenesis ................................................................................... 411
   Helmut K. Seitz and Felix Stickel

33 Alcohol, Diet, and Their Interaction in Colorectal and Urinary Tract Tumors ...................... 429
   María Marta Andreatta, Aldo R. Eynard, and Alicia Navarro

34 Alcohol, Acetaldehyde, and Digestive Tract Cancer ........................................................ 439
   Satu Väkeväinen and Mikko Salaspuro

35 Alcohol Intake and Esophageal Cancer: Epidemiologic Evidence ..................................... 459
   Jill Layton and Jianjun Zhang

Part VII Alcohol and Liver Diseases

36 A Nutritional Approach to Prevent Alcoholic Liver Disease ........................................... 473
   Samuel William French

37 Nutraceutical Potential of Indigenous Plant Foods and Herbs for Treatment of Alcohol-Related Liver Damage ................................................................. 483
   Vaishali Agte and Upendra Raghunath Gumaste

38 Alcohol and Nutrition as Risk Factors for Chronic Liver Disease .................................... 497
   Stefano Bellentani, Claudio Tiribelli, and Giorgio Bedogni

39 Alcohol-Related Liver Disease: Roles of Insulin Resistance, Lipotoxic Ceramide Accumulation, and Endoplasmic Reticulum Stress ........................................ 507
   Suzanne M. de la Monte

40 Nutrition and Alcoholic and Nonalcoholic Fatty Liver Disease: The Significance of Cholesterol ............................................................................................................. 523
   Munechika Enjoji, Kenichiro Yasutake, Motoyuki Kohjima, and Makoto Nakamuta

41 Dietary Fatty Acids and Alcoholic Liver Disease .............................................................. 533
   Takayo Kawakami, Yasuko Murakami, and Misako Okita

42 Nutrition in Alcoholic Steatohepatitis .............................................................................. 545
   Juan Caballeria, Javier Michelen, and Jose Altamirano

43 Alcoholic and Nonalcoholic Fatty Liver Disease and Vitamin A ........................................ 553
   Gabriela Villaça Chaves and Wilza Arantes Ferreira Peres

Index ............................................................................................................................................ 563

About the Series Editor .............................................................................................................. 575

About the Editors ....................................................................................................................... 577
Alcohol, Nutrition, and Health Consequences
Watson, R.R.; Preedy, V.R.; Zibadi, S. (Eds.)
2013, XXI, 578 p., Hardcover
A product of Humana Press
