# Contents

*Preface* ............................................................... v
*Contributors* ........................................................ ix

1 Interfollicular Epidermal Stem Cells: Boosting and Rescuing from Adult Skin ............................... 1
   *Mariana T. Cerqueira, Ana M. Frias, Rui L. Reis, and Alexandra P. Marques*

2 Isolation and Cultivation of Human Scalp Interfollicular Epidermal Stem Cells ............................... 11
   *Longmei Zhao and Basil M. Hantash*

3 Isolation of Hair Follicle Bulge Stem Cells from YFP-Expressing Reporter Mice ............................... 21
   *Kerry-Ann Nakrieko, Timothy S. Irvine, and Lina Dagnino*

4 Analysis of Bulge Stem Cells from the Epidermis Using Flow Cytometry ........................................... 33
   *Rehan M. Villani, Mehmet Deniz Akyuz, Michaela T. Niessen, and Carien M. Niessen*

5 Lineage Tracing of Hair Follicle Stem Cells in Epidermal Whole Mounts .......................................... 45
   *Monika Petersson, Daniela Frances, and Catherin Niemann*

6 Isolation and Characterization of Cutaneous Epithelial Stem Cells ............................................... 61
   *Uffe B. Jensen, Soosan Ghazizadeh, and David M. Owens*

7 Identification and Analysis of Epidermal Stem Cells from Primary Mouse Keratinocytes ....................... 71
   *Youliang Wang and Xiao Yang*

8 Monitoring the Cycling Activity of Cultured Human Keratinocytes Using a CFSE-Based Dye Tracking Approach ................................................................. 83
   *Loubna Chadli, Emmanuelle Cadio, Pierre Vaigot, Michèle T. Martin, and Nicolas O. Fortunel*

9 Quantification of Cyclobutane Pyrimidine Dimers in Human Epidermal Stem Cells ............................ 99
   *M. Ruetze, S. Gallinat, H. Wenck, and A. Knott*

10 Analysis of Gene Expression in Skin Using Laser Capture Microdissection ...................................... 109
    *Briana Lee, Mikhail Geyfman, Bogi Andersen, and Xing Dai*

11 Qualitatively Monitoring Binding and Expression of the Transcription Factor Sp1 as a Useful Tool to Evaluate the Reliability of Primary Cultured Epithelial Stem Cells in Tissue Reconstruction ......................................................... 119
    *Manon Gaudreault, Danielle Larouche, Lucie Germain, and Sylvain L. Guérin*
12 Genetic Manipulation of Keratinocyte Stem Cells
   with Lentiviral Vectors .................................................. 143
   Masahito Yasuda, David J. Claypool, Erika Guevara,
   Dennis R. Roop, and Jiang Chen
13 Using 3D Culture to Investigate the Role of Mechanical Signaling
   in Keratinocyte Stem Cells .............................................. 153
   Lee Wallace and Julia Reichelt
14 In Vivo Transplantation Assay at Limiting Dilution to Identify
   the Intrinsic Tissue Reconstitutive Capacity of Keratinocyte
   Stem Cells and Their Progeny ........................................... 165
   Holger Schlüter and Pritinder Kaur
15 Melanoblasts as Multipotent Cells in Murine Skin ................. 183
   Tsutomu Motohashi and Takabiro Kunisada
16 Generation of Human Melanocytes from Induced
   Pluripotent Stem Cells .................................................. 193
   Shigeki Ohta, Yoichi Imaizumi, Wado Akamatsu,
   Hideyuki Okano, and Yutaka Kawakami
17 Cellular Populations Isolated from Newborn Mouse Skin
   Including Mesenchymal Stem Cells .................................. 217
   Lauren Kimlin and Victoria Virador
18 Isolation, Characterization, and Differentiation
   of Human Multipotent Dermal Stem Cells ........................... 235
   Ling Li, Mizuho Fukunaga-Kalabis, and Meenhard Herlyn
19 Isolation and Differentiation of Hair Follicle-Derived
   Dermal Precursors ....................................................... 247
   Andrew Hagner and Jeff Biernaskie
20 Isolation of Mesenchymal Stem Cells from Human Dermis .......... 265
   Tsutomu Soma, Jiro Kishimoto, and David Fisher
21 Skin-Derived Mesenchymal Stem Cells: Isolation,
   Culture, and Characterization ......................................... 275
   M. Orciani and R. Di Primio
22 Isolation and Establishment of Hair Follicle
   Dermal Papilla Cell Cultures ........................................... 285
   Karl Gledhill, Aaron Gardner, and Colin A.B. Jahoda
23 Enrichment of Oral Mucosa and Skin Keratinocyte
   Progenitor/Stem Cells .................................................. 293
   Kenji Izumi, Cynthia L. Marcelo, and Stephen E. Feinberg
24 Skin Stem Cells ........................................................... 305
   Keita Inoue and Kotaro Yoshimura

Index ................................................................. 315
Skin Stem Cells
Methods and Protocols
Turksen, K. (Ed.)
2013, XII, 321 p. 56 illus., 43 illus. in color., Hardcover
A product of Humana Press
