Preface ........................................................................................................................................... v
Preface to *Pediatric Critical Care Medicine: Basic Science and Clinical Evidence* ........ vii
Contributors .................................................................................................................................... xi

1 Development of Pediatric Critical Care Medicine—How Did We Get Here and Why? . 1
   *John J. Downes*

2 Epidemiology of Critical Illness ................................................................. 29
   *R. Scott Watson and Mary E. Hartman*

3 Ethics in the Pediatric Intensive Care Unit ...................................... 35
   *K. Sarah Hoehn and Robert M. Nelson*

4 The Patient’s Family in the Pediatric Intensive Care Unit .......... 43
   *Sol J. Goldstein and I. David Todres*

5 Scoring Systems in Critical Care .......................................................... 51
   *Thomas J. Cholis III and Murray M. Pollack*

6 Outcomes and Quality: Definitions, Assessment, and Analysis .............. 55
   *Susan L. Bratton and James P. Marcin*

7 Pediatric Intensive Care Unit Administration ........................................ 63
   *Lorry R. Frankel*

8 Nursing Care in the Pediatric Intensive Care Unit ........................... 69
   *Franco A. Carnevale*

9 The Physician–Scientist in the Pediatric Intensive Care Unit .............. 73
   *Thomas P. Shanley*

10 Resident and Nurse Education in the Pediatric Intensive Care Unit ........ 79
    *Girish G. Deshpande, Gwen Lombard, and Adalberto Torres, Jr.*

11 Evidence-Based Medicine in the Pediatric Intensive Care Unit ........... 85
    *Adrienne G. Randolph*

12 Patient Safety in the Pediatric Intensive Care Unit ......................... 91
    *David C. Stockwell and Anthony D. Slonim*

13 Pediatric Critical Care in Developing Countries ............................. 97
    *Gregory L. Stidham and William M. Novick*

14 The Pediatric Intensive Care Unit of the Future: Technological Advances in
    Pediatric Critical Care Medicine ................................................................. 105
    *Kenneth Tegtmeyer*

15 Molecular Biology in the Pediatric Intensive Care Unit ................... 113
    *Lesley A. Doughty*

16 Genetic Polymorphisms in Critical Care and Illness ......................... 137
    *Mary K. Dahmer and Michael W. Quasney*
