## Part I Mass Customization Contexts

<b>1</b>	<b>Designing and Planning for Mass Customization in a Large Scale Global Production System</b> .....	3
	Roberto F. Lu and Richard L. Storch	
1.1	Introduction .....	4
1.2	Literature Background.....	5
1.3	Methods and Analysis .....	8
1.4	Case Study.....	20
1.5	Conclusion.....	22
	References.....	23
<b>2</b>	<b>Process Typology of Mass Customizers</b> .....	29
	Rebecca Duray	
2.1	Introduction .....	29
2.2	Mass Customization and the Product Process Matrix.....	30
2.2.1	Defining the Product Process Matrix .....	30
2.2.2	Strategy of the Diagonal .....	33
2.2.3	Defining Made-to-order .....	34
2.2.4	The Paradox of Mass Customization .....	35
2.3	Defining Mass Customization .....	35
2.4	Developing the New Model – Volume, Variety, and Variation ...	37
2.4.1	Volume and Variety .....	37
2.4.2	The Third Dimension – Variation .....	39
2.5	Future Directions.....	42
2.6	Conclusion.....	43
	References.....	43

**3 Service Customization Through Dramaturgy** ..... 45  
 Ian P. McCarthy, Leyland Pitt, and Pierre Berthon

3.1 Introduction ..... 46

3.2 Background ..... 47

    3.2.1 Customization of Service Operations..... 48

    3.2.2 Typology Dimensions: Time Pressure to Customize  
           and Level of Customization Required..... 49

    3.2.3 Dramaturgy ..... 50

    3.2.4 The Service Performance: Scripts and Improvisation ..... 52

3.3 A Typology of Service Customization Configurations ..... 54

    3.3.1 Embellished Customization ..... 55

    3.3.2 Predetermined Customization ..... 56

    3.3.3 Prompt Customization..... 57

    3.3.4 Intuitive Customization..... 57

3.4 Discussion and Implications ..... 59

    3.4.1 Configuration Fit..... 59

    3.4.2 The Lure of the Diagonal ..... 60

    3.4.3 Global Services and Customizing the Performance ..... 60

3.5 Conclusion..... 61

References..... 62

**Part II Engineering and Management of Mass Customized Products**

**4 NPD-SCM Alignment in Mass Customization** ..... 69  
 Nizar Abdelkafi, Margherita Pero, Thorsten Blecker,  
 and Andrea Sianesi

4.1 Introduction ..... 71

4.2 Literature Background..... 72

    4.2.1 NPD-SCM Alignment..... 72

    4.2.2 Mass Customization ..... 73

4.3 Aligning NPD and SCM in Mass Customization ..... 75

    4.3.1 Innovativeness and Dynamic Variety ..... 77

    4.3.2 Supply Chain Configuration, Collaboration,  
           and Coordination Complexity ..... 78

    4.3.3 Supply Chain Performance ..... 78

    4.3.4 Alignment Framework and Propositions..... 79

4.4 Conclusions ..... 83

References..... 84

**5 Managing Technological Innovations Affecting Product Complexity, Modularity, and Supply Chain Structure** ..... 87  
 Adrian E. Coronado Mondragon and Christian E. Coronado Mondragon

5.1 Introduction ..... 88

5.2 Modularization, Customization, and Technological Innovations in the Automotive Industry ..... 91

5.3 Modularity and Mass Customization in Motor Coaches and Transit Buses ..... 93

5.4 Methodology ..... 95

5.5 Modular Systems Development for Motor Coaches/ Transit Buses (Heavy Duty Vehicles) ..... 97

5.6 Findings ..... 98

    5.6.1 Control of Product Architecture ..... 98

    5.6.2 Autonomy of Suppliers ..... 98

    5.6.3 Sources of Innovation ..... 99

5.7 Conclusions ..... 101

Appendix ..... 102

References ..... 103

**6 The Platform Formation Problem** ..... 105  
 David Ben-Arieh

6.1 Introduction ..... 106

6.2 Background ..... 107

6.3 Problem Description ..... 109

    6.3.1 The Single Platform Design Formulation ..... 112

    6.3.2 The Multiple Platform Problem ..... 112

    6.3.3 Single Platform Design under Stochastic Demand Problem ..... 114

6.4 An Illustrative Example ..... 117

6.5 Conclusion and Recommendations for Future Research ..... 121

References ..... 122

**7 Shape Commonalization to Develop Common Platforms for Mass Customization** ..... 125  
 Sagar Chowdhury and Zahed Siddique

7.1 Introduction and Background ..... 126

7.2 Literature Review ..... 127

    7.2.1 Product Platform ..... 127

    7.2.2 Similarity Measurements ..... 128

7.3 Method ..... 130

    7.3.1 Step 1: Extraction of Information from 3D Models ..... 131

    7.3.2 Step 2: Common Platform Development ..... 133

7.4	Case Studies .....	141
7.4.1	Case Study 1 – Cell Phone Casings Product Platform .....	141
7.4.2	Case Study 2 – Coffeemaker Product Platform.....	144
7.5	Concluding Remarks .....	148
	References.....	149
<b>8</b>	<b>A Platform Identification Method for Service Family Design Using a Process Model and a Clustering Method .....</b>	<b>151</b>
	Seung Ki Moon, Timothy W. Simpson, Jun Shu, and Soundar R.T. Kumara	
8.1	Introduction and Background .....	153
8.2	Method for Service Module and Platform Identification.....	154
8.2.1	Phase 1: Service Analysis and Model .....	155
8.2.2	Phase 2: Service Ontology .....	158
8.2.3	Phase 3: Module and Platform Identification.....	160
8.3	Case Study.....	162
8.3.1	Phase 1: Service Process Model.....	163
8.3.2	Phase 2: Service Ontology .....	164
8.3.3	Phase 3: Module and Platform Identification.....	167
8.4	Closing Remarks and Future Work .....	169
	References.....	169
<b>9</b>	<b>A STEP-compliant Online Product Digital Library for Customized Products.....</b>	<b>171</b>
	S.Q. Xie	
9.1	Introduction .....	172
9.2	Literature Review .....	173
9.3	System Architecture .....	175
9.4	STEP-compliant Product Digital Library .....	177
9.4.1	Product Knowledge Model .....	178
9.4.2	Product Data Object .....	179
9.5	Case Study.....	180
9.5.1	Modeling Product Inspection Information .....	181
9.5.2	Online Product Digital Library .....	183
9.5.3	Modeling Product Manufacturing Process Data .....	186
9.5.4	Modeling Product Assembly Information Data .....	187
9.5.5	Discussion .....	189
9.6	Conclusion and Future Work.....	190
	References.....	191

**Part III Engineering and Management of Processes  
for Mass Customization**

**10 Production Planning and Control for Mass Customization –  
A Review of Enabling Technologies** ..... 195  
 Mitchell M. Tseng and Andreas M. Radke

10.1 Introduction ..... 196

10.2 Enabling Framework for MC Production Planning and Control ... 200

10.3 Enablers for Mass Customization ..... 202

    10.3.1 Strategic Enablers in Product Design ..... 203

    10.3.2 Strategic Enablers in Sales and Purchases ..... 205

    10.3.3 Tactical Enablers in Product Design, Sales,  
            and Purchases ..... 207

    10.3.4 Strategic Enablers in Manufacturing ..... 209

    10.3.5 Tactical Manufacturing Enablers ..... 211

10.4 Conclusion ..... 213

References ..... 214

**11 Designing and Planning of Material Handling Systems  
for Mass Customization** ..... 219  
 Neville K.S. Lee and James B. Dai

11.1 Introduction ..... 221

11.2 Designing and Planning Considerations on Material Handling  
    Systems for Mass Customization ..... 222

    11.2.1 Different Flexible Material Handling Systems ..... 222

    11.2.2 The Designing and Planning of Flexible Material  
        Handling Systems ..... 223

11.3 Industrial Application for the Apparel Industry ..... 229

    11.3.1 Existing Material Handling Systems  
        for the Apparel Industry ..... 229

    11.3.2 System Layout Design ..... 232

    11.3.3 Potential Advantages of the Free-ranging Material  
        Handling System ..... 233

    11.3.4 Economical Feasibility Analysis on Free-ranging  
        MHS ..... 237

    11.3.5 Sensitivity Analysis on Adopting Automatic MHSs ..... 242

11.4 Conclusion ..... 243

References ..... 244

**12 Design for Changeover (DFC): Enabling Flexible  
and Highly Responsive Manufacturing** ..... 247  
 G.W. Owen, J. Matthews, R.I. McIntosh and S.J. Culley

12.1 Introduction ..... 248

    12.1.1 Change Drivers: Forces to Change  
        Manufacturing Systems ..... 249

12.1.2	The Nature of Uncertainty .....	249
12.1.3	Changeover Assisting Business Response to Uncertainty.....	250
12.2	Modern Manufacturing Paradigms .....	251
12.3	DFC: Problem Definition and Background .....	254
12.4	An Outline of the University of Bath DFC Methodology .....	255
12.4.1	A Deliberate Avoidance of the Identification of Individual Changeover Tasks .....	257
12.4.2	The Concepts of Resources and Change Elements .....	257
12.4.3	The Concept of Interfaces .....	258
12.4.4	Further Description of Change Elements .....	258
12.4.5	DFC Indices and DFC Design Rules .....	259
12.4.6	The Design Infringement Matrix .....	260
12.4.7	The Concept of a Complexity Quotient .....	261
12.4.8	Change Drivers .....	262
12.4.9	Design Improvement Opportunities .....	262
12.4.10	Mapping the DFC Indices and the DFC Design Rules.....	263
12.4.11	Presenting Summary Information to the Designer .....	264
12.5	Industrial Validation: A Case of Study.....	265
12.5.1	A Brief Description of the Game .....	265
12.5.2	Value Adding Stages.....	266
12.5.3	Target Indices to Achieve .....	266
12.5.4	Raising the Capability Index .....	266
12.5.5	Resource Restrictions – Raising Merit Index 3.....	267
12.5.6	Change Element Restrictions – Raising Merit Index 4.....	268
12.5.7	Altered Sequence Restrictions – Raising Merit Index 5 .....	269
12.5.8	Further Industrial Validation.....	269
12.6	Discussion .....	269
12.7	Conclusions .....	270
	References.....	271
<b>13</b>	<b>Additive Manufacturing for Mass Customization .....</b>	<b>275</b>
	Phil Reeves, Chris Tuck and Richard Hague	
13.1	Introduction and Background .....	276
13.2	AM and the Realization of Mass Customized Internet Content ...	279
13.3	The Integration of Additive Manufacturing with Computer Games.....	281
13.4	Poachers and Gamekeepers .....	284
13.5	The Future .....	285
13.6	Implications of AM for MC Businesses and Future Research.....	287
13.7	Summing Up.....	287
	References.....	288

**14 Selecting Relevant Clustering Variables in Mass Customization Scenarios Characterized by Workers’ Learning** ..... 291  
 Michel J. Anzanello

14.1 Introduction and Background ..... 292  
 14.1.1 Learning Curves ..... 293  
 14.1.2 Clustering Analysis and the Silhouette Index ..... 294

14.2 Method ..... 296  
 14.2.1 Step 1 ..... 296  
 14.2.2 Step 2 ..... 297

14.3 Numerical Case ..... 298

14.4 Conclusion ..... 302

References ..... 303

**15 Re-examining Postponement Benefits: An Integrated Production-inventory and Marketing Perspective** ..... 305  
 Hartanto Wong and Mohamed Naim

15.1 Introduction ..... 306

15.2 Literature Background ..... 309  
 15.2.1 Postponement to Accommodate Mass Customisation ..... 309  
 15.2.2 Production-inventory and Marketing Coordination ..... 310

15.3 The Models ..... 311  
 15.3.1 Description of Manufacturing Configurations ..... 311  
 15.3.2 The Marketing Model ..... 314  
 15.3.3 The Production-inventory Model ..... 317  
 15.3.4 The Integrated Model ..... 318

15.4 Analyses ..... 319  
 15.4.1 Cost Minimisation Versus Profit Maximisation ..... 320  
 15.4.2 The Impact of Postponement on Profitability ..... 322

15.5 Conclusions ..... 326

References ..... 329

**Part IV Mass Customization: Case Studies**

**16 User Participation Within Virtual Worlds** ..... 333  
 Andreas M. Kaplan

16.1 Introduction: From Traditional *via* Electronic to Virtual Mass Customization ..... 334

16.2 Literature Background: About Virtual Worlds and Virtual Mass Customization ..... 335  
 16.2.1 Virtual Worlds Are a Special Type of Social Media ..... 335  
 16.2.2 Virtual World Does Not Equal Virtual World ..... 336  
 16.2.3 Second Life Is the Most Prominent Virtual World ..... 337

- 16.2.4 Second Life Is Not a Game but an Extension of Real Life ..... 338
- 16.2.5 Second Life Offers Several Opportunities for Virtual Mass Customization ..... 339
- 16.3 Analyses and Propositions: Dell, Philips, and Sears as Pioneers of Virtual Mass Customization ..... 340
  - 16.3.1 Dell: Virtual Mass Customization of RL Products ..... 341
  - 16.3.2 Philips: Understanding the Consumer First, Then Integrating Him in the Design Process ..... 342
  - 16.3.3 Sears: Too Much or Not Enough Reality for a Virtual World? ..... 343
  - 16.3.4 Key Insights and Lessons: Huge Potential – Just Not Yet..... 345
- 16.4 Conclusion: Virtual Kills the Internet Star? ..... 347
- References..... 349
  
- 17 Contrasting Opportunities for Mass Customisation in Food Manufacture and Food Processes ..... 353**  
 Jason Matthews, Richard McIntosh and Glen Mullineux
  - 17.1 Introduction ..... 354
  - 17.2 Research Background..... 355
  - 17.3 Contemporary Goals for a Manufacturing Organisation ..... 357
    - 17.3.1 Management of Cross-domain Interaction ..... 357
    - 17.3.2 Management of Customer Relationships ..... 358
  - 17.4 Prominent Techniques of Mass Customisation ..... 358
    - 17.4.1 Manufacturing Flexibility ..... 358
    - 17.4.2 Modularity..... 359
    - 17.4.3 Postponement..... 360
  - 17.5 Case Study Investigations..... 360
    - 17.5.1 Case Study Processes ..... 361
    - 17.5.2 Potential for the Application of Mass Customisation ..... 363
  - 17.6 Food and Drinks Manufacturing Constraints..... 365
    - 17.6.1 Product Related Constraints..... 366
    - 17.6.2 Operation Related Constraints ..... 367
    - 17.6.3 System Related Constraints..... 368
  - 17.7 Discussion and Opportunities ..... 368
    - 17.7.1 Packaging and Labelling..... 370
  - 17.8 Conclusions ..... 372
  - References..... 372
  
- Index ..... 375**
