Contents

Part I Queueing Theory

Perturbation Analysis of M/M/1 Queue .............................................. 3
Karim Abbas and Djamil Aïssani

Series Expansions in Queues with Server Vacation ....................... 17
Fazia Rahmoune and Djamil Aïssani

Part II Rapid Modelling in Manufacturing and Logistics

Optimal Management of Equipments of the BMT Containers Terminal
(Bejaia’s Harbor) ............................................................................. 33
Djamil Aïssani, Mouloud Cherfaoui, Smaïl Adjabi, S. Hocine and N. Zareb

Production Inventory Models for a Multi-product Batch Production
System .......................................................... 47
Ananth Krishnamurthy and Divya Seethapathy

Dependency Between Performance of Production Processes and
Variability – an Analysis Based on Empirical Data .......................... 61
Martin Poiger, Gerald Reiner and Werner Jammernegg

Improving Business Processes with Rapid Modeling: the Case of Digger 77
Reinhold Schodl, Nathan Kunz, Gerald Reiner and Gil Gomes dos Santos

Part III Rapid Modelling in Services

Quick Response Service: The Case of a Non-Profit Humanitarian
Service Organization .............................................................. 91
Arda Alp, Gerald Reiner and Jeffrey S. Petty
Applying Operations Management Principles on Optimisation of Scientific Computing Clusters ................................................................. 105
Ari-Pekka Hameri and Tapio Niemi

Increasing Customer Satisfaction in Queuing Systems with Rapid Modelling .......................................................... 119
Noémi Kalló and Tamás Koltai

Rapid Modelling of Patient Flow in a Health Care Setting: Integrating Simulation with Lean ...................................................... 131
Claire Worthington, Stewart Robinson, Nicola Burgess and Zoe Radnor

Part IV Rapid Modelling and Financial Performance Measurement

Evaluation of the Dynamic Impacts of Lead Time Reduction on Finance Based on Open Queueing Networks ............................... 145
Dominik Gläßer, Boualem Rabta, Gerald Reiner and Arda Alp

The Financial Impact of a Rapid Modeling Issue: the Case of Lot Sizing ............................................................... 163
Lien G. Perdu and Nico J. Vandaele

Part V Product and Process Development

A Flexibility Based Rapid Response Model in Ready to Wear Sector, in Turkey ................................................................. 177
Müjde Erol Genevois and Deniz Yensarfati

Modular Product Architecture: The Role of Information Exchange for Customization ............................................................. 195
AHM Shamsuzzoha and Petri T. Helo

Part VI Supply Chain Management

The Impact of Technological Change and OIPs on Lead Time Reduction ............................................................. 215
Krisztina Demeter and Zsolt Matyusz

Global Supply Chain Management and Delivery Performance: a Contingent Perspective ......................................................... 231
Ruggero Golini and Matteo Kalchschmidt

In-Transit Distribution Strategy: Hope for European Factories? ................................................................. 249
Per Hilletofth, Frida Claesson and Olli-Pekka Hilmola

Effect of component interdependency on inventory allocation ............................................................. 263
Yohanes Kristianto Nugroho, AHM Shamsuzzoha and Petri T. Helo
