Author biographies	7
<b>1 Introduction: historical and current perspectives on osteoarthritis</b>	<b>11</b>
<i>Jean-Yves Reginster</i>	
History of osteoarthritis in the literature	11
The changing epidemiology of osteoarthritis	15
The evolution of osteoarthritis management	17
References	18
<b>2 Epidemiology of osteoarthritis</b>	<b>21</b>
<i>Cyrus Cooper, M. Kassim Javaid and Nigel Arden</i>	
Definition of osteoarthritis	21
Classification of osteoarthritis	22
Prevalence and incidence of osteoarthritis	24
Aetiology and risk factors	27
Disease course and determinants of osteoarthritis progression	30
References	33
<b>3 Pathophysiology of osteoarthritis</b>	<b>37</b>
<i>Francois Rannou</i>	
Anatomy of normal joints	37
Pathophysiology	38
Risk factors for osteoarthritis	47
Molecular mechanisms of osteoarthritis development	49
Osteoarthritis pain	51
References	52

<b>4 Clinical features and diagnosis of osteoarthritis</b>	<b>55</b>
<i>Francisco J. Blanco</i>	
Clinical criteria for osteoarthritis	55
Symptoms of osteoarthritis	56
Diagnosis of osteoarthritis	58
Staging of osteoarthritis	64
Osteoarthritis in other joints	65
References	66
<b>5 Assessing joint damage in osteoarthritis</b>	<b>69</b>
<i>Daichi Hayashi, Frank W. Roemer and Ali Guermazi</i>	
Introduction	69
Conventional radiography	70
Magnetic resonance imaging	72
Ultrasound	75
Computed tomography and computed tomography arthrography	76
Nuclear medicine	78
Summary of imaging findings in various osteoarthritis-affected joints	79
Future directions	82
References	82
<b>6 Treatment of osteoarthritis</b>	<b>83</b>
<i>David Hunter</i>	
Nonpharmacological treatments	84
Pharmacological treatments	88
Surgical treatments	95
References	97

Atlas of Osteoarthritis

Arden, N.; Blanco, F.; Cooper, C.; Guermazi, A.; Hayashi, D.; Hunter, D.; Javaid, M.K.; Rannou, F.; Roemer, F.W.; Reginster, J.-Y.

2014, X, 90 p. 72 illus., 40 illus. in color., Softcover

ISBN: 978-1-910315-15-6
