# Contents

## Part I Production and Perception Models

**Synchronization and Self-Organization as Basis of Musical Performance, Sound Production, and Perception** .......................... 3  
Rolf Bader

**A Free Energy Formulation of Music Performance and Perception Helmholtz Revisited**  ...................................... 43  
Karl J. Friston and Dominic A. Friston

**Change and Continuity in Sound Analysis: A Review of Concepts in Regard to Musical Acoustics, Music Perception, and Transcription**  ....................................... 71  
Albrecht Schneider

**Quantal Elements in Musical Experience**  ..................................... 113  
Rolf Inge Godøy

## Part II Neurocognition and Evolution

**Strong Emotions in Music: Are they an Evolutionary Adaptation?** . . . 131  
Eckart Altenmüller, Reinhard Kopiez and Oliver Grewe

**Music and Action**  ................................................................. 157  
Stefan Koelsch and Clemens Maidhof

**Music for the Brain Across Life**.  ........................................... 181  
Teppo Särkämö, Mari Tervaniemi and Minna Huotilainen

**The Perception of Melodies: Some Thoughts on Listening Style, Relational Thinking, and Musical Structure**  .................... 195  
Christiane Neuhaus
Part III Applications

Virtual Room Acoustics ......................................................... 219
Michael Vorländer, Sönke Pelzer and Frank Wefers

The Wave Field Synthesis Lab at the HAW Hamburg .............. 243
Wolfgang Fohl

The $\mu$cosm Project: An Introspective Platform to Study Intelligent Agents in the Context of Music Ensemble Improvisation ........ 257
Jonas Braasch

Acoustical Measurements on Experimental Violins in the Hanneforth Collection ..................................................... 271
Robert Mores

Fourier-Time-Transformation (FTT), Analysis of Sound and Auditory Perception ......................................................... 299
Albrecht Schneider and Robert Mores

Performance Controller for Physical Modelling FPGA Sound Synthesis of Musical Instruments ........................................... 331
Florian Pfeifle and Rolf Bader

Multisymplectic Pseudo-Spectral Finite Difference Methods for Physical Models of Musical Instruments ....................... 351
Florian Pfeifle

Human–Computer Interaction and Music ................................... 367
Alejandro Rosa-Pujazón, Isabel Barbancho, Lorenzo J. Tardón and Ana M. Barbancho
Sound - Perception - Performance
Bader, R. (Ed.)
2013, XV, 389 p., Hardcover
ISBN: 978-3-319-00106-7
