# Contents

## Part I Physical Properties of Sediments

1. Weak Layers: Their Definition and Classification
   from a Geotechnical Perspective ........................................... 3
   Jacques Locat, Serge Leroueil, Ariane Locat, and Homa Lee

2. Field Measurements to Investigate Submerged Slope Failures .... 13
   Alexander van Duinen, Adam Bezuijen, Geeralt van den Ham, and Victor Hopman

3. Elemental Distribution and Microfabric Characterization
   Across a Buried Slump Scar: New Insights
   on the Long-Term Development and Reactivation
   of Scar Surfaces from a Microscopic Perspective ....................... 23
   Helen Eri Amsler, Eric Reusser, Kitty Milliken, and Michael Strasser

4. Evidence for Mass Transport Deposits at the IODP
   JFAST-Site in the Japan Trench ........................................... 33
   Hiske G. Fink, Michael Strasser, Miriam Römer, Martin Kölling, Ken Ikehara, Toshiya Kanamatsu,
   Dominik Dinten, Arata Kioka, Toshiya Fujiwara, Kiichiro Kawamura, Shuichi Kodaira, Gerold Wefer,
   and R/V Sonne SO219A Cruise Participants

5. Preliminary Investigations of Rheological Properties
   of Busan Clays and Possible Implications for Debris
   Flow Modelling .............................................................. 45
   Sueng Won Jeong, Sang-Nam Yoon, Sung-Sik Park,
   Gil Young Kim, Seong-Pil Kim, Jang-Jun Bahk,
   Nyeon-Keon Kang, Sang Hoon Lee, and Sung-Gyo Chung
6 Utilizing Cone Penetration Tests for Landslide Evaluation .......... 55
M.E. Jorat, S. Kreiter, T. Mörz, V. Moon, and W. de Lange

7 Geomechanical Characterization of Submarine Volcano-Flank Sediments, Martinique, Lesser Antilles Arc ............ 73
Sara Lafuerza, Anne Le Friant, Michael Manga,
Georges Boudon, Benoit Villemant, Nicole Stroncik,
Barry Voight, Matt Hornbach, Osamu Ishizuka,
and The Expedition 340 Scientific Party

Part II Gas Hydrates and Role of Interstitial Fluids in Submarine Slope Failure

8 Interrelationship Between Sediment Fabric, Pore Volume Variations as Indicator for Pore Pressure Changes, and Sediment Shear Strength ............................................. 85
Lutz Torbahn and Katrin Huhn

9 Slope Instability of Glaciated Continental Margins: Constraints from Permeability-Compressibility Tests and Hydrogeological Modeling Off Storfjorden, NW Barents Sea ................................................................. 95
J. Llopart, R. Urgeles, A. Camerlenghi, R.G. Lucchi,
B. De Mol, M. Rebesco, and M.T. Pedrosa

10 Baiyun Slide and Its Relation to Fluid Migration in the Northern Slope of Southern China Sea ....................... 105
Wei Li, Shiguo Wu, Xiujuan Wang, Fang Zhao, Dawei Wang,
Lijun Mi, and Qingping Li

Sébastien Migeon, Silvia Ceramicola, Daniel Praeg,
Emmanuelle Ducassou, Alexandre Dano,
João Marcelo Ketzer, Flore Mary, and Jean Mascle

12 Fluid Seepage in Relation to Seabed Deformation on the Central Nile Deep-Sea Fan, Part 1: Evidence from Sidescan Sonar Data ................................................................. 129
Alexandre Dano, Daniel Praeg, Sébastien Migeon,
Jean-Marie Augustin, Silvia Ceramicola,
João Marcelo Ketzer, Adolpho Herbert Augustin,
Emmanuelle Ducassou, and Jean Mascle

37 Seismic Characteristics and Distribution of Large Scale Mass Transport Deposits in the Qiongdongnan Basin, South China Sea ................................................................. 413 Dawei Wang, Shiguo Wu, Fuliang Lü, and George Spence

38 Modification of the Shape of Pacific Islands by Submarine Landslides: Banaba, Nauru, and Niue .................................................. 423 Jens C. Krüger and Susanne M.L. Pohler

Part VI Interaction Between Ocean Circulation and MTDs

39 Submarine Landslides and Contourite Drifts Along the Pianosa Ridge (Corsica Trough, Mediterranean Sea) ............... 435 A. Cattaneo, G. Jouet, S. Charrier, E. Théreau, and V. Riboulot

40 Mass Transport Complexes from Contourite and Shelf-Edge Deposits Along the South-Western Adriatic Margin (Italy) ................................................................. 447 Giacomo Dalla Valle, Elisabetta Campiani, Federica Foglini, Fabiano Gamberi, and Fabio Trincardi

Part VII Landslide Generated Tsunamis

44 Modeling Submarine Landslide-Generated Waves in Lake Ohrid, Macedonia/Albania ..................................................... 497 Katja Lindhorst, Sebastian Krastel, Cord Papenberg, and Mohammed Heidarzadeh
45 Modeling Potential Tsunami Generation by the BIG’95 Landslide ................................................... 507
Finn Løvholt, Carl B. Harbitz, Maarten Vanneste, Fabio V. De Blasio, Roger Urgeles, Olaia Iglesias, Miquel Canals, Galderic Lastras, Geir Pedersen, and Sylfest Glimsdal

46 Modeling of Potential Landslide Tsunami Hazards Off Western Thailand (Andaman Sea) ........................................ 517
Julia Schwab, Sebastian Krastel, Mohammad Heidarzadeh, and Sascha Brune

47 Morphology of Australia’s Eastern Continental Slope and Related Tsunami Hazard ............................................. 529
Samantha Clarke, Thomas Hubble, David Airey, Phyllis Yu, Ron Boyd, John Keene, Neville Exon, James Gardner, Steven Ward, and Shipboard Party SS12/2008

48 The Tsunami Generation Potential of Shovel and Bulli Slides in the Continental Margin SE Australia ......................... 539
Asrarur Rahman Talukder and David Völker

Part VIII Long-Term Record of Submarine Landslides and MTD Paleoseismology

49 Along-Strike Migration of Intermittent Submarine Slope Failures at Subduction Margins: Geological Evidence from the Chikura Group, Central Japan ........................................ 551
Yuzuru Yamamoto and Shunsuke Kawakami

50 Quaternary Mass-Transport Deposits on the North-Eastern Alboran Seamounts (SW Mediterranean Sea) ................................................................. 561

51 Searching for the Record of Historical Earthquakes, Floods and Anthropogenic Activities in the Var Sedimentary Ridge (NW Mediterranean) ........................................ 571

52 Integrated Stratigraphic and Morphological Investigation of the Twin Slide Complex Offshore Southern Sicily ................. 583
J. Kuhlmann, A. Asioli, M. Strasser, F. Trincardi, and K. Huhn
53 Mass Transport Deposits Periodicity Related to Glacial Cycles and Marine-Lacustrine Transitions on a Ponded Basin of the Sea of Marmara (Turkey) Over the Last 500 ka ........ 595

54 Instability of Oceanic Volcanic Edifices: Examples of Sector Collapse, Debris Avalanches, and Debris Flows from Gran Canaria (Canary Islands) ........................................ 605
Hans-Ulrich Schmincke and Mari Sumita

55 Slope Failures and Timing of Turbidity Flows North of Puerto Rico ................................................................. 617
Jason D. Chaytor and Uri S. ten Brink

56 Age Estimation of Submarine Landslides in the La Aguja Submarine Canyon, Northwestern Colombia ......................... 629
Carlos A. Vargas and Javier Idarraga-García

57 Deep-Sea Turbidite Evidence on the Recurrence of Large Earthquakes Off Shakotan Peninsula, Northeastern Japan Sea ...... 639
Ken Ikehara, Takuya Itaki, Taqumi TuZino, and Koichi Hoyanagi

58 Characteristics of Magnetic Fabrics in Mass Transport Deposits in the Nankai Trough Trench Slope, Japan ..................... 649
Yujin Kitamura, Michael Strasser, Beth Novak, Toshiya Kanamatsu, Kiichiro Kawamura, and Xixi Zhao

Part IX Outcrops of Ancient Submarine Landslides

Rüdiger Henrich, Karl-Heinz Baumann, and Torsten Bickert

Rüdiger Henrich, Karl-Heinz Baumann, and Torsten Bickert

Erratum ................................................................. E1
Submarine Mass Movements and Their Consequences
6th International Symposium
