Contents

1 Time of Growth ........................................ 1
   1.1 Orient and Greece .................................. 1
       1.1.1 Geometry Called Mother of Mathematics .......... 2
       1.1.2 The Construction of “Euclidean Space” .......... 5
       1.1.3 From Forms to Numbers .......................... 9
       1.1.4 Astronomy Called Mother of Physics ............ 15
   1.2 The Dispersion of Classical Science ............. 23
       1.2.1 Islam Between Classical Hellenism and Middle Ages 28

2 Birth and Floruit of Science in the Occident .......... 35
   2.1 Zero Year ........................................... 35
   2.2 Sowing the Seeds of Science Renaissance .......... 44
       2.2.1 The Criteria of Truth in Science ............... 46
       2.2.2 The Copernican Revolution ...................... 48
       2.2.3 The Role of Logic ................................ 58
       2.2.4 The Role of Algebra and Infinitesimal Analysis .. 61
   2.3 Harvesting the Crop ................................ 65
       2.3.1 Physics and Infinitesimal Calculus ............. 67
       2.3.2 The Concepts of Force- and Potential-Fields .... 69
       2.3.3 The Motion of Continuum ....................... 74
       2.3.4 The Theory of Electromagnetism ................ 75
       2.3.5 Energy: Attribute or Substance? ................ 78
   2.4 Separating the Wheat from the Chaff ............... 86
       2.4.1 Life and Death of Determinism .................. 86
       2.4.2 The Quanta in Physics .......................... 91
       2.4.3 The Theory of Relativity and the Fall of Euclidean Space .................................. 98

3 Scientific Research as a Global Enterprise .............. 107
   3.1 New Horizons and Old Questions .................... 109
   3.2 The Matter of Matter ................................ 110
   3.3 The Sub-Nuclear Universe ........................... 113
