# Contents

1 Transition Towards Sustainability: The Need of Radical Innovations ........................................ 1
   1.1 The Sustainability Challenge .................................................. 1
   1.2 Evolution of Approaches to Sustainability ............................. 3
   1.3 Functional Economy: A Promising Model .................. 6
   1.4 The Product-Service System Concept and its Sustainability Potential ............................... 7
   1.5 Research Scope and Questions ........................................... 8
   1.6 Research Methodology ..................................................... 10
   References ................................................................. 13

2 Product-Service System Innovation: A Promising Approach to Sustainability .................................................. 17
   2.1 Product-Service System Innovation and its Sustainability Potential ..................................... 17
   2.2 PSS Definition and Classification .......................................... 19
      2.2.1 PSS Definition and Main Characteristics .......................................... 19
      2.2.2 PSS Classification ....................................................... 22
   2.3 PSS Potential Benefits .......................................................... 24
   2.4 PSS Drivers ......................................................................... 28
   2.5 PSS Barriers ......................................................................... 29
      2.5.1 Barriers for Companies (and in General for PSS Promoters) ...................... 30
      2.5.2 Barriers for Customers .................................................... 31
      2.5.3 Context-Related Barriers .................................................. 33
      2.5.4 A Matter of Institutions ................................................. 34
   2.6 Sustainable PSS Design ......................................................... 34
   References ................................................................. 36

3 Introducing and Scaling Up Sustainable Product-Service Systems: Insights from Transition Studies .................................................. 41
   3.1 Clarifying the Concept of System Innovation ........................................... 41
      3.1.1 Defining System Innovations ............................................ 41
      3.1.2 System Innovations and Sustainable PSS Innovations .......... 43
## 3.2 System Innovation Dynamics: The Multi-level Perspective Model
- 3.2.1 Socio-technical Regimes, Niches and Landscape  . 44
- 3.2.2 Dynamics in Socio-technical Transitions  . 46

## 3.3 Socio-technical Experiments and Their Contribution in Triggering Transitions
- 3.3.1 Defining Socio-technical Experiments . 48
- 3.3.2 Mechanisms Through Which Socio-technical Experiments Can Contribute to Transitions . 50
- 3.3.3 Socio-technical Experiments as Labs, Windows and Agents of Change . 52
- 3.3.4 Dynamics in Socio-technical Experiments (and Niches Formation) . 52

## 3.4 Introducing and Scaling Up Sustainable PSSs: Companies’ Experiences and a Conceptual Framework
- 3.4.1 Insights from Transition Studies and Their Relevance in Relation to Sustainable PSS Innovations . 58
- 3.4.2 A Conceptual Framework . 60
- 3.4.3 Insights from Companies’ Experience . 62
- 3.4.4 Conceptual Framework Refinement . 74

## 3.5 Concluding Remarks . 76

## References . 77

## 4 Towards a New Way of Designing and Managing the Societal Embedding of Sustainable Product-Service System

### 4.1 Design and Radical Change for Sustainability . 81

### 4.2 An Experimental Design Experience: The Cape Town Sustainable Mobility Project . 84
- 4.2.1 Project Background . 84
- 4.2.2 Incubation . 85
- 4.2.3 Socio-technical Experimentation . 87
- 4.2.4 Main Intermediate Project Results and Next Steps . 92

### 4.3 A New Role for Strategic Design for Sustainability: Designing Transition Paths and Socio-technical Experiments . 93
- 4.3.1 A New Strategic Design Attitude . 94
- 4.3.2 A New Set of Strategic Design Capabilities . 100
- 4.3.3 A New Knowledge Base . 101

### 4.4 Design Process . 101
- 4.4.1 Phases . 102
- 4.4.2 Activity Clusters . 105
- 4.4.3 Design Process Overview . 108
- 4.4.4 Supporting Tools . 111

### 4.5 Designing Transition Paths for the Societal Embedding of Sustainable PSSs . 113

## References . 114
