

# Contents

<b>Dedication</b> .....	vii
<b>Prologue</b> .....	ix
<b>1 Introduction</b> .....	1
<b>2 From air into space: formation of infrastructures</b> .....	5
2-1 Aeronautics, the runway for departure to space .....	10
2-2 Policy making and development.....	27
<b>3 Education, research and public awareness for capacity building</b> .....	45
3-1 Academic education and research, the foundation for mastering space .....	51
3-2 Public awareness.....	69
3-3 Status of human resources in space and aerospace careers .....	76
<b>4 International cooperation: a progressive approach</b> .....	77
4-1 Welcoming the Space Age, the past that heralded a promising future .....	78
4-2 Iran’s contribution to space law .....	82
4-3 Mahdasht Receiving Station and the Iranian Remote Sensing Center .....	87
4-4 Iran’s space communications .....	101
4-5 International cooperation in satellite manufacturing and joint satellite projects .....	104
4-6 Activation and reviving international activities and contribution to COPUOS .....	109
<b>5 Legislation, managerial and administrative turmoil</b> .....	117
5-1 Approval and establishment of the Iranian Space Agency .....	120
5-2 Change of the State and orientation.....	123

vi Contents

5-3	New statute and martial feudalization at ISA.....	125
5-4	Annexation and persistence of ambiguity.....	131
<b>6</b>	<b>Research hamstrung by the bureaucracy .....</b>	<b>135</b>
6-1	Space Research Institute (SRI).....	138
6-2	Aerospace Research Institute (ARI).....	140
6-3	Engineering Research Institute (ERI).....	145
6-4	A queer and ill-shaped configuration for research.....	146
6-5	Disfavored genuine research .....	148
<b>7</b>	<b>Disfavored applications and services.....</b>	<b>157</b>
7-1	Space services and remote sensing.....	157
7-2	Design and development of satellite networks.....	161
7-3	Operating and maintenance of ground stations .....	162
7-4	Auxiliary offices .....	170
7-5	Administrational status of remote sensing.....	170
<b>8</b>	<b>Development of domestic space apparatus and launchers.....</b>	<b>173</b>
8-1	Domestic satellites.....	174
8-2	Bio-capsule for life in space .....	190
8-3	Space launch vehicles.....	191
8-4	Ground segment and development of sites and facilities .....	197
<b>9</b>	<b>Space plans: ambitions, short-sightedness and paranoia.....</b>	<b>201</b>
9-1	Space tourism, an Iranian in space ahead of Iran .....	202
9-2	Life in space and space journeys .....	204
<b>10</b>	<b>Breaching the principles and ethical crisis .....</b>	<b>209</b>
10-1	Comedown and decline .....	209
10-2	Misuses and deceit.....	216
10-3	Insolence and disgrace.....	221
10-4	Season of imposture.....	226
<b>11</b>	<b>Concluding discussion and future outline.....</b>	<b>227</b>
	<b>Appendix: Statutes of the Iranian Space Agency .....</b>	<b>237</b>
	<b>Abbreviations .....</b>	<b>247</b>
	<b>Collected references .....</b>	<b>255</b>
	<b>About the author .....</b>	<b>271</b>
	<b>People index.....</b>	<b>285</b>
	<b>Subject index .....</b>	<b>289</b>
