Contents

Part I  Global Water System: Current State and Future Perspectives

1  Balancing the Needs of All Services Provided by Global Water Resources .................................. 3
   Elizabeth Curmi, Keith Richards, Richard Fenner, Grant M. Kopec and Bojana Bajželj

2  Performance Indicators in the Water Resources Management Sector ..................................... 15
   Balázs M. Fekete and Eugene Z. Stakhiv

3  Virtual Water and Trade: A Critical Economic Review ......................................................... 27
   Erik Gawel

4  Data, Models and Uncertainties in the Global Water Cycle .................................................. 45

5  Integrated Assessments of Water Scarcity: Knowns, Unknowns and Ways Forward .................. 59
   Tabea K. Lissner, Caroline A. Sullivan, Dominik E. Reusser and Jürgen P. Kropp

   A. K. Schürkmann, A. Biewald and S. Rolinski

Part II  Dimensions of Change in River Basins and Regions

7  The Role of Institutions and Water Variability in Food Security in Uzbekistan: The Case of Rice Markets in the Khorezm Region ............................................. 91
   Yadira Mori-Clement, Anik Bhaduri and Nodir Djanibekov

17 Sustaining Freshwater Biodiversity in the Anthropocene ........ 247
Jaime Garcia-Moreno, Ian J. Harrison, D. Dudgeon,
V. Clausnitzer, W. Darwall, T. Farrell, C. Savy,
K. Tockner and N. Tubbs

18 Water Governance and Management Systems and the Role
of Ecosystem Services: Case Study Insights—Groundwater
Management in the Sandveld Region, South Africa ............ 271
Kathrin Knüppe and Claudia Pahl-Wostl

19 Tackling the ‘How’ Question: Enabling and Enacting Practical
Action for Managing the Wicked Problem of Nonpoint
Source Pollution in Catchments .................................. 289
James J. Patterson, Jennifer Bellamy and Carl Smith

20 Experiences with a Transdisciplinary Research Approach
for Integrating Ecosystem Services into Water
Management in Northwest China .......................... 303
Tuck Fatt Siew, Petra Döll and Hamid Yimit

Part IV Governing Water in the Anthropocene

21 Multilevel Governance of Irrigation Systems and Adaptation
to Climate Change in Kenya ................................. 323
Jampel Dell’Angelo, Paul F. McCord, Elizabeth Baldwin,
Michael E. Cox, Drew Gower, Kelly Caylor and Tom P. Evans

22 Transboundary Water Management in Federal Political
Systems: A Story of Three Semi-arid Rivers .............. 343
Dustin Garrick, Lucia De Stefano, Jamie Pittock and Daniel Connell

23 Legal Plurality in Mekong Hydropower: Its Emergence
and Policy Implications ......................................... 355
Diana Suhardiman and Mark Giordano

24 International River Basin Organizations Lost
in Translation? Transboundary River Basin Governance
Between Science and Policy .................................. 369
Susanne Schmeier

25 The Human Right to Water and Sanitation: Reflections
on Making the System Effective .......................... 385
Pedi Obani and Joyceeta Gupta
26 Patterns of Water Law ........................................ 401
   Joseph W. Dellapenna

27 The Notion of the Global Water Crisis and Urban Water Realities ........................................ 415
   Antje Bruns and Fanny Frick

28 The Need for a Value-Reflexive Governance of Water in the Anthropocene ........................................ 427
   Simon Meisch
The Global Water System in the Anthropocene
Challenges for Science and Governance
Bhaduri, A.; Bogardi, J.; Leentvaar, J.; Marx, S. (Eds.)
2014, XVI, 437 p. 70 illus., 26 illus. in color., Hardcover
