# Contents

## Part I  Keynote

1. **Urban Landslides: Challenges for Forensic Engineering Geologists and Engineers.**
   
   S.F. Burns  
   
   Page 3

2. **Large-Scale Thematic Geological Mapping of Moscow Area.**
   
   Victor Osipov  
   
   Page 11

3. **Remote Sensing Role in Emergency Mapping for Disaster Response.**
   
   Piero Boccardo and Fabio Giulio Tonolo  
   
   Page 17

4. **Underground Urban Development: An Overview.**
   
   Eduardo F.J. De Mulder, C.C. Derk F. Van Ree and Kenny Wang  
   
   Page 25

## Part II  Aggregates: The Most Widely Used Raw Material

5. **A Study of Fine Aggregate Properties and Their Effect on the Quality of Cementitious Composite Materials.**
   
   Revekka Fournari, Ioannis Ioannou and Dimitris Vatyliotis  
   
   Page 33

   
   Isabel Fernandes, Maria dos Anjos Ribeiro, Helena Martins, Maarten Broekmans, Ian Sims, Philip Nixon and Fernando Noronha  
   
   Page 37

7. **Environmental Impact and Sustainability in Aggregate Production and Use.**
   
   S.W. Danielsen and E. Kuznetsova  
   
   Page 41

8. **Contrast Behavior of Sandstone from Mount Nemrut (Adiyaman-Turkey) After the Accelerated Weathering Tests.**
   
   Tamer Topal and Burcu Ertas Deniz  
   
   Page 45

9. **The ReAVA Project: Assessment of the Potential Alkali-Reactivity of Volcanic Aggregates from Azores Islands.**
   
   Sara Medeiros, João Carlos Nunes, Tetsuya Katayama, Isabel Fernandes, António Santos Silva, Vidália Miranda and Dora Soares  
   
   Page 51
| 10 | Potential Reactivity to Alkalis of Portuguese Volcanic Aggregates for Concrete | Violeta Ramos, Isabel Fernandes, Fernando Noronha, Tetsuya Katayama, Dora Soares and António Santos Silva | 55 |
| 11 | Production of Lightweight Aggregates from Phosphate Washing Plant Sludge | Emna Fakhfakh, Imen Khiari, Walid Hajjaji, Mounir Medhioub, Fernando Rocha, Alberto López-Galindo and Fakher Jamoussi | 59 |
| 12 | Some Variations in Petrography of South African Karoo Dolerites and the Effects Thereof on Aggregate Properties | Robert Leyland | 65 |
| 13 | Environmental Issues Connected to the Quarry Lakes and Chance to Reuse Fine Materials Deriving from Aggregate Treatments | Sara Castagna, Giovanna Antonella Dino, Manuela Lasagna and Domenico Antonio De Luca | 71 |
| 14 | The Aggregates from Tunnel Muck and their Use as Secondary Raw Material: The Case Study of Turin Underground | Rossana Bellopede, David Colaiacomo, Paola Marini, Pierpaolo Oreste and Oscar Radis | 75 |
| 15 | Alkali Aggregate Reaction for Concrete Made with Tunnel Muck: Experimental Investigations | Rossana Bellopede, Marco Francini, Paola Marini, Alessandra Migheli, Enrico Moretti and Pierpaolo Oreste | 81 |
| 16 | Mix Design Parameters of Restoration Mortars: The Effect of Aggregate Characteristics | Maria Amenta, Ioannis Karatasios, Anna Kalagri, Pagona Maravelaki-Kalaitzaki and Vassilis Kilikoglou | 85 |
| 17 | Treatment and Exploitation of Waste Coming from Quarry Industries: Reuse as Aggregate | Giovanna Antonella Dino and Massimo Marian | 89 |
| 18 | The Effect of Feldspar, Mica and Clay Minerals on Compressive Strength of Mortar | Atiye Tugrul, Selahattin Hasdemir and Murat Yılmaz | 93 |
| 19 | Petrographic Examination of Mortar Bars of Swedish Aggregates Exposed to RILEM AAR2 | Karin Appelquist, Jan Trägårdh, Magnus Döse and Mattias Göransson | 97 |
| 20 | Risk Assessment of Swedish Concrete as a Construction Material in Relation to Naturally Occurring Radiation from Different Aggregates | Magnus Döse | 101 |
21 Aggregate Quality Mapping of Sustainable Substitutes for River Sand for Concrete Production in Eastern Botswana
Mattias Göransson, Lena Persson, Vincent Lekula and Onkgopotse Ntibinyane

22 Influence of Geological Characteristics on Mechanical Properties of Crushed Stone Aggregates Produced from Meta-Volcanic Rocks in Finland
Torppa Akseli and Seppo Leinonen

23 Los Angeles and Micro-Deval Values of Volcanic Rocks and Their Use as Aggregates, Examples from Hungary
Ákos Török

24 Polished Stone Value of Volcanic Rocks Used as Aggregates: A Case Study from the Bohemian Massif, Czech Republic
Kateřina Krutilová and Richard Přikryl

Part III Analysis and Control of Ground Deformations by Remote Monitoring

25 Land Subsidence Due to Deep Groundwater Withdrawal in Northern Yangtze River Delta Area
Guang-ya Wang, Dan Zhang, Jin-shun Feng, Ming-zhu Chen and Wei-hua Shan

26 Observing Dam’s Movements with Spaceborne SAR Interferometry
Milan Lazecký, Daniele Perissin, Wang Zhiying, Lei Ling and Qin Yuxiao

27 Deformation Monitoring Using Ground-Based SAR Data
Michele Crosetto, Oriol Monserrat, Guido Luzi, Maria Cuevas and Núria Devanthéry

28 Map and Monitoring Slow Ground Deformation in NW Italy Using PSI Techniques
Davide Notti, Claudia Meisina, Francesco Zucca, Alessio Colombo and Luca Paro

29 Integrated Use of Advanced InSAR and GPS Data for Subsidence Monitoring
G. Bitelli, F. Bonsignore, S. Del Conte, F. Novali, I. Pellegrino and L. Vittuari

30 Observation of Expansive Clay Movement with DInSAR
M. Kurka and K.H. Gutjahr

31 Analysis of a Subsidence Process by Integrating Geological and Hydrogeological Modelling with Satellite InSAR Data
Francesca Bozzano, Carlo Esposito, Stefania Franchi, Paolo Mazzanti, Daniele Perissin, Alfredo Rocca and Emanuele Romano

42 Granites from South West England: A Global Heritage Stone Resource .................................................. 219
Marker Brian

43 The Karst Region of Slovenia: A Potential Global Heritage Stone Province ........................................... 223
Sabina Kramar, Breda Miritić, Ana Mladenović, Mojca Bedjanič, Boštjan Rožič and Andrej Šmuc

44 The Natural Stone in the Historic Buildings of the City of Granada (Southern Spain). Features as a Possible Candidate for the Designation of “Global Heritage Stone Province” ......................... 229
Rafael Navarro, Josefina Sánchez-Valverde and José Manuel Baltuille

45 Petrographic, Physical–Mechanical and Radiological Characterisation of the Rosa Beta Granite (Corsica-Sardinia Batholith) ................................................................. 233
S. Cuccuru and A. Puccini

46 Changes in Marble Quality After Sodium Sulphate Crystallization and Long-Lasting Freeze-Thaw Testing .......................................................... 237
Tatiana Durmeková, Peter Ružička, Miroslav Hain and Mária Čaplovičová

47 Assessment of Potential Natural Stone Deposits .......................................................... 243
Hannu Luodes, Heikki Sutinen, Paavo Härmä, Heikki Pirinen and Olavi Selonen

48 P-T-XCO2 Pseudosection Modelling of Talc-Magnesite Soapstone ...................................................... 247
Seppo Leinonen

49 Adnet ‘Marble’, Untersberg ‘Marble’ and Leitha Limestone—Best Examples Expressing Austria’s Physical Cultural Heritage ...................................................... 253
Beatrix Moshammer, Christian Uhlir, Andreas Rohatsch and Michael Unterwurzacher

50 The Wiborg Granite Batholith—The Main Production Area for Granite in Finland ........................................... 259
Paavo Härmä, Olavi Selonen and Hannu Luodes

51 Methods for Evaluating the Natural Stone Weathering Condition in Selected Historical Buildings Within the Project “Efficient Use of Natural Stone in the Leningrad Region and South–East Finland” 263
Nike Luodes, Hannu Luodes, Heikki Pirinen, Paavo Härmä, Heikki Sutinen, Aleksei Shkurin and Claudio De Regibus

52 Granites of the Verbano-Cusio-Ossola District (Piedmont, Northern Italy): Possible Candidates for the Designation of “Global Heritage Stone Province” and a Proposal of a Geotouristic Route 267
Alessandro Cavallo and Giovanna Antonella Dino
53 Building Stone Evaluation Applied to Weathered Granites—The Example of Amarelo Real Granite (Northern Portugal) .......................................................... 273
   LMO Sousa and JMM Lourenço

54 Production of Granitic Press Rollers in Finland ............................................. 279
   Arto Peltola, Olavi Selonen and Paavo Härma

55 The Uses of Natural Stone in the Building of Canberra, Australia’s National Capital City .......................................................... 283
   Wolf Mayer

56 Fire on the Rocks: Heat as an Agent in Ancient Egyptian Hard Stone Quarrying .......................................................... 291
   Tom Heldal and Per Storemyr

57 Environmental Background in Apricena Quarries (Apulia, Southern Italy) .......................................................... 297
   Alessandro Reina and Maristella Loi

58 Size Effect in Flexural Strength Test on Dimension Stones ........................................... 303
   Rossana Bellopede, Paola Marini and Lorenzo Collaro

59 CE-Marking of Natural Stone—Practical Application and Solutions in Sweden .......................................................... 309
   Linus Brander and Björn Schouenborg

60 Hierarchical Approaches Toward Safeguarding Heritage Building Stone Resources in England and Wales .......................................................... 313
   Ian A. Thomas and Barry J. Cooper

61 The Relation Between the Petrographic, Physico-Mechanical Properties and the Use of Some Deposit Paving in Algeria .......................................................... 319
   Chentout Malika, B. Alloul and D.J. Belhai

Part V Communicating Engineering Geology with Urban Planners

62 Geohazard Studies for Urban Planning in the Santiago Metropolitan Region, Chile: Some Lessons for Future Interactions Between Engineering Geoscientists and Urban Planners in Developing Countries .......................................................... 327
   Sergio A. Sepúlveda, Sofía Rebolledo, Ximena Bórquez, Joel Prieto and Juan A. Muñoz

63 A Decision Support System Suggestion for the Optimum Railway Route Selection .......................................................... 331
   C. Gokceoglu, H.A. Nefeslioglu and N. Tanyildiz

64 Communication of Geological Information in Planning of Urban Areas .......................................................... 335

</table>
Integrated Study of Landslides in the Southern Apennines (Val d’Agri: Basilicata Region) Using a Multidisciplinary Approach... Summa Vito, Colaiacovo Rosy, Giannossi Maria Luigia and Margiotta Salvatore

Master Plan of Hazard Assessment in Ijen Volcano Complex ........ Ade Triyunita, Shaskia Herida Putri and Dicky Muslim

Sinkholes Susceptibility Assessment in Urban Environment Using Heuristic, Statistical and Artificial Neural Network (ANN) Models in Evaporite Karst System: A Case Study from Lesina Marina (Southern Italy) ......................... Annachiara D’Angella, Filomena Canora and Giuseppe Spilotro

Geomorphological Complexity in Landslide Susceptibility Modelling .... Giuseppe Spilotro and Roberta Pellicani

Analysis of Interaction Between Waves and Cliff Along the Adriatic Coast of Polignano (Apulia, Italy) ..................... Giuseppe Spilotro, Roberta Pellicani, Daniela Miccoli and Filomena Canora

Hazard of Karstic Sinkhole Formation in an Area South of Pretoria, South Africa ............................................ Anna Catharina Oosthuizen

Part VII Engineering Geology in Rural Infrastructure Planning

Subsidence of Buried Soils in Cyclic Loess Sequences of the Northern Eurasia .............................................. V.T. Trofimov, S.D. Balykova, T.V. Andreeva and A.V. Ershova

An Overview of Engineering Geology and Sustainable Rural Infrastructure Development ........................................ Jasper Cook, Gareth Hearn, Phil Paige-Green and Dominic Hagues

Changes in the Natural Drainage Channel System Due to Anthropogenic Land Uses: Itaqueri Region, State of São Paulo, Brazil ................................................................. Cláudia Marisse dos Santos Rotta and Lázaro Valentin Zuquette

Part VIII Engineering Problems in Karst

Determination of Priorities and Importance of Some Geotechnical Factors in Grouting of Karst in Large Dam Sites with Decision Tree Model (CART). The Case Study of Salman Farsi Dam, Fars Province, Southern Iran ................ Mehrdad Rahnemaei, Kouros Yazdjerdi and Farzan Faraz
88 Earthen Dike Leakage at the Dead Sea ................................. 461
Damien Closson and Najib Abou Karaki

89 Mapping of Salt Consolidation and Permeability Using MASW Method in the Dead Sea Sinkhole Problem ................................. 465
Michael Ezersky and Anatoly Legchenko

90 Subsurface Dams as a Solution for Supplementary Recharge and Groundwater Storage in Karst Aquifers in Arid Areas .......... 471
Zoran Stevanovic

91 Analysis of Condition of Underground Cavities, Odessa (Ukraine) .... 475
Olena Dragomyretska, Oleksandr Dragomyretsksyy and Mikhail Skipa

92 Facing Engineering Problems in the Fragile Karst Environment .... 479
Mario Parise, Damien Closson, Francisco Gutiérrez and Zoran Stevanovic

93 Geological and Geophysical Techniques for the Identification of Subterranean Cavities ........................................ 483
Pietro Pepe, Vincenzo Martimucci and Mario Parise

94 Engineering Geological Characterization of the Antalya Karstic Rocks ...................................................... 489
Sopaci Evrim and Akgün Haluk

95 Tectonics versus Karst Relationships in the Salento Peninsula (Apulia, Southern Italy): Implications for a Comprehensive Land-Use Planning ........................................ 493
Vincenzo Festa, Antonio Fiore, Maria Nilla Miccoli,
Mario Parise and Luigi Spalluto

96 Problems with Caves During Tunneling in Dinaric Karst (Croatia) .... 497
Mladen Garašić and Davor Garašić

97 Sinkholes and Land Use Regulation in South Africa .................. 503
G.J. Heath and S. Constantinou

98 Geophysical Investigation to Delineate Hazardous Cavities in Al-Hassa Karstic Region, Kingdom of Saudi Arabia ................ 507
Tareq Abdallatif, Abdel-Samad A.B. Khafagy and Ashraf Khozym

99 Environmental Aspects of Proposed Engineering Solution for Inter-basin Transfer in East Herzegovina ............................ 515
Marina Cokorilo, Zoran Stevanovic and Vesna Ristic Vakanjac

100 General Engineering-Geological Principles of Karst Risk Assessment ... 521
Victor Khomenko, Alexander Potapov and Vladimir Tolmachev

101 Assessing Karst Hazards for a Nuclear Power Plant Site,
Southern Appalachian Mountains, U.S.A. ............................. 525
102 Current Status and Strategic Planning of Sinkhole Collapses in China .......................... 529
Mingtang Lei, Yongli Gao and Xiaozhen Jiang

103 Validation of Rated Sinkhole Span for Building in Covered Karst Areas .................... 535
Stanislav Makhnatov and Mikhail Utkin

104 Potential Karst Collapse Assessment Along a Bridge Foundation of High-Speed Rail, Anshan, China ........................................ 539
Xiaozhen Jiang, Mingtang Lei and Yongli Gao

105 Uncertainties in the Application of Rock Mass Classification and Geomechanical Models for Engineering Design in Carbonate Rocks ................................. 545
Gioacchino Francesco Andriani, Mario Parise and Giuseppe Diprizio

106 Karst Remediation in the Variant to the National Road 9 Between Cascais and Abuxarda, Portugal .................................................. 549
Bernardo P.B. Monteiro, João Azevedo, Isabel Caspurro and Paulo Durão

107 Sinkhole Field Above Karst Caves: Detection and Analysis Through Integrated Techniques ......................................................... 553
Stefano Margiotta, Sergio Negri, Mario Parise and Tatiana A.M. Quarta

108 Evaluating the Potentialities of Hydro-stratigraphic, Geomorphological and Geophysical Analyses to Detect Underground Cavities ........................................ 559
Stefano Margiotta, Sergio Negri, Mario Parise and Tatiana A.M. Quarta

109 With the Rich Experience Gained in the Construction of Motorways We are Planning the Course of the 5th European Railway Corridor Crossing the Classical Karst (Slovenia) ........................................... 563
Martin Knez, Mitja Prelovšek and Tadej Slabe

110 Experience of Quantitative Assessment of Karst Risk in Russia .................................. 567
Vladimir Yolkin

111 Study on Groundwater System Effect of Tunnel Drainage Control in Karst Valley .......... 571
Xiaoguang Jin, Yayong Li, Hongwei Liu and Yuan Jin

112 Safeguarding of Assets Roads and Protection of Land in the Valley of Acquaresi. Deepening and Widening of the Studies the Area Subject to Risk Sinkhole. Proposal for Monitoring. (Italy: Sardinia) .... 577
Mureddu Alessio and Corda Angelo Salvatore

113 Challenges of Renewable Energy Source Utilisation at Section of Future Highway E-763 Belgrade-Southern Adriatic Across Karst Plateau of Pešter Plateau (Western Serbia) ........................................ 581
Milenic Dejan, Stevanovic Zoran, Dragisic Veselin, Vranjes Ana and Savic Nevena
114 Some Considerations on 3-D and 2-D Numerical Models for the Assessment of the Stability of Underground Caves
Lollino Piernicola, Parise Mario and Vattano Marco

585

115 Speleological and Hydrogeological Factors of Urbanization and Development of Road Network on Mountain Zlatibor (Western Serbia)
Milenic Dejan, Djuro Milankovic, Nenad Doroslovac, Bojan Doncev and Marina Jovanovic

589

116 Engineering Problems in Karst: Three Case History
Vigna Bartolomeo and Marchionatti Federico

595

117 Karst Risk Assessment for Underground Engineering: Comparison of the KarstALEA Method with a Random Karst Distribution Approach
Marco Filipponi

141 Landslide Risk Reduction—Complementary Routes to Learning
Jerome V. De Graff, Malcolm G. Anderson and Elizabeth Holcombe

142 Recovery Measures of the Erosion Features: Some Examples in Brazil
Cláudia Marisse dos Santos Rotta and Lázaro Valentin Zuquette

143 The Use of Risk Information in Spatial Planning in Europe: Examples from Case Study Sites in Italy and Romania with a Focus on Flood and Landslide Hazards
Kathrin Prenger-Beminghoff and Stefan Greiving
144 Scenarios of Land Cover Change and Landslide Susceptibility:  
An Example from the Buzau Subcarpathians, Romania .......................... 743
Ziga Malek, Veronica Zumpano, Dagmar Schröter, Thomas Glade,  
Dan Balteanu and Mihai Micu

145 Material Intrusion as a Key Factor for the Physical Vulnerability  
of the Built Environment to Debris Flows .............................. 747
Bruno Mazzorana, Silvia Simonì, Jan Kobald,  
Omar Formaggioni and Cristiano Lanni

146 Analysis of Hydrological and Landslide Hazards at Castellammare  
Del Golfo (Northern Sicily) .......................... 753
Maria Sabatino, Antonio Bambina and Salvatore Monteleone

147 Geo-hydrological Risk Mitigation Measures and Land-Management  
in a Highly Vulnerable Small Coastal Catchment .......................... 759
Pierluigi Brandolini and Andrea Cevasco

148 Geotechnical Study of Urban Soil and Subsoil of Fez City  
(N. Morocco) and Natural Risk Mapping Using Geographic  
Information System (GIS) ........................................ 763
Sidi Mohamed El Boumouhouli, Abderrahim Lahrach,  
Abdel-Ali Chaouni and Benoît Defontaines

149 Implementation of Landslide Susceptibility in the Perugia  
Municipal Development Plan (PRG) .................................. 769
F. Fiorucci, G. Antonini and M. Rossi

150 Integrating Natural Hazards in Spanish and Italian  
Land Use Planning .......................... 773
Jesús Garrido, Alejandro L. Grindlay, Salvatore Martino,  
Alberto Prestininzi and Gabriele Scarascia Mugnozza

151 Landslide Occurrences During the High-Intensity Rainfall Event  
of March–April 2013 in the Emilia-Romagna Region  
(North Apennines, Italy) ........................................ 777
Marco Pizziolo, Matteo Bernardi, Giovanna Daniele,  
Mauro Generali and Daniela Piacentini

152 Challenges in Assessing and Managing Geo-hydrological Risk  
Related to Natural and Anthropogenic Pressures  
in Alpine Ski Resorts ........................................ 781
Carmen de Jong, Franco Previtali and Gloria Carletti

153 A Flood Can Point Out Improper Land-Use Planning:  
The Case of Alessandria Town (Piedmont, Northern Italy) .............. 787
Fabio Luino

154 Comparison Between Flooded Areas and Flood-Risk Areas.  
Case of Var Department (France) .................................. 793
Esposito Christophe, Jean-Louis Ballais and Chave Sylvain
155  Flash Flood Events and Urban Development in Genoa (Italy): Lost in Translation ............................................................... 797
      F. Faccini, F. Luino, A. Sacchini and L. Turconi

Part XIII  Landslide and Flood Hazard in Urban Areas: Assessment, Monitoring and Mitigation Strategies

156  Observations and Seismic Response Analysis of Urban Landslide Induced by the 2011 off the Pacific Coast of Tohoku Earthquake ......... 805
      Toshitaka Kamai and Issei Doi

157  Search and Assessment of Decompression Zones in Landslide Slopes of the North-West Coast of the Black Sea (Ukraine) ............. 811
      Oleksandr Dragomyreetskyy, Olena Dragomyretska and Mikhail Skipa

158  Geo-hydrological Risk Management on the Amalfi Coast: The Village of Atrani Emergency Plan ........................................ 815
      Antonio Caruso, Giuseppe Esposito, Santina Scarpino and Pasquale Versace

159  Climate Change, Landslide Risk Assessment and Adaptation Policies: The Urban Area of Ancona Municipality .......................... 821
      Daniele Spizzichino, Alessio Capriolo and Fiorina Di Gioia

160  Engineering Geological Analyses for Hazard Assessment of the Urbanized, Relict Lemeglio Coastal Landslide (Eastern Liguria, Italy) .................................................................................. 827
      Andrea Cevasco and Pantaleone De Vita

161  Landslides in Urban Areas of Luxembourg, Caused by Weak Rheatian Clay ................................................................. 831
      Stefan Van Baars, Miguel Bautista and Rolf Becker

162  The Urban Flooding Early Warning System of the Greater Turin (North-Western Italy) Based on Weather-Radar Observations ........ 837
      Roberto Cremonini, Davide Tiranti and Secondo Barbero

163  Population Exposed to Landslide and Flood Risk in Italy ............ 843
      Alessandro Trigila, Carla Iadanza, Michele Munafò and Ines Marinosci

164  A Cost Effective Methodology for the Rapid Evaluation of the Flood Susceptibility Along Anthropized Rivers ....................... 849
      Stefano Morelli, Alessandro Battistini, Samuele Segoni, Goffredo Manzo, Leonardo Ermini and Filippo Catani

165  The Role of Geophysics in Urban Landslides Studies: Two Case Histories in Rome ............................................................... 853
      Valeria Eulilli, Fernando Ferri and Luca Maria Puzzilli

166  The Role of Fieldwork in Courses Developed to Avoid Accidents and Disasters in São Paulo City, Brazil ................................. 857
      Erica Akemi Goto and Jefferson Lima de Picanço

Riccardo Salvini, Silvia Riccucci, Domenico Gulli, Riccardo Giovannini,
Claudio Vanneschi and Mirko Francioni

189 Ground Settlement Assessment in Urban Areas Through SBAS-DInSAR Measurements: The Case Study of Roma (Italy) ............. 985
Manuela Bonano, Fabiana Calò, Michele Manunta, Maria Marsella,
Silvia Scifoni, Alberico Sonnessa and Vincenzina Tagliafierro

190 Satellite Techniques: New Perspectives for the Monitoring of Dams ........ 989
Marco Corsetti, Michele Manunta, Maria Marsella, Silvia Scifoni,
Alberico Sonnessa and Chandrakanta Ojha

191 Monitoring Land Subsidence in the Tokyo Region with SAR Interferometric Stacking Techniques ........................................... 995
Paolo Pasquali, Alessio Cantone, Paolo Riccardi, Marco De Filippi,
Fumitaka Ogushi, Masayuki Tamura and Stefano Gagliano

Part XVII Surface Fault-Rupture Hazard in Urban Areas

192 Characterisation of Surface Fault Rupture for Civil Engineering Design ................................................................. 1003
Clark Fenton and Juliet Kernohan

193 The Contribution of Airborne LiDAR Data to the Assessment of Surface Faulting Hazard for Lifelines Crossing Active Faults: An Example from the Central Apennines, Italy ............... 1009
Riccardo Civico, Daniela Pantosti, Stefano Pucci
and Paolo Marco De Martini

194 Microzonation of the Liwa City on the Great Sumatera Active Fault and Giant Ranau Volcanic Complex in South Sumatera, Indonesia .............................................. 1015
Asdani Soehaimi, Dicky Muslim, Ir Kamawan and Robby Setia Negara

195 Surface Faulting Hazard in Italy: Towards a First Assessment Based on the ITHACA Database ............................................. 1021
Luca Guerrieri, Anna Maria Blumetti, Valerio Comerci,
Pio Di Manna, Alessandro Maria Michetti, Eutizio Vittori and Leonello Serva

196 Ground Fracturation in Urban Area: Monitoring of Land Subsidence Controlled by Buried Faults with InSAR Techniques (Ciudad Guzmán: Mexico) ........................................ 1027
Carlo Alberto Brunori, Christian Bignami, Francesco Zucca,
Gianluca Groppelli, Gianluca Norini, Norma Davila Hernández
and Salvatore Stramondo
