## Contents

**Part I  Keynote**

1. **Urban Landslides: Challenges for Forensic Engineering Geologists and Engineers.**
   S.F. Burns ............................................. 3

2. **Large-Scale Thematic Geological Mapping of Moscow Area.**
   Victor Osipov ........................................ 11

3. **Remote Sensing Role in Emergency Mapping for Disaster Response.**
   Piero Boccardo and Fabio Giulio Tonolo .............. 17

4. **Underground Urban Development: An Overview.**
   Eduardo F.J. De Mulder, C.C. Derk F. Van Ree and Kenny Wang ........................................... 25

**Part II  Aggregates: The Most Widely Used Raw Material**

5. **A Study of Fine Aggregate Properties and Their Effect on the Quality of Cementitious Composite Materials.**
   Revekka Fournari, Ioannis Ioannou and Dimitris Vatyliotis ............................................. 33

   Isabel Fernandes, Maria dos Anjos Ribeiro, Helena Martins, Maarten Broekmans, Ian Sims, Philip Nixon and Fernando Noronha ............................................. 37

7. **Environmental Impact and Sustainability in Aggregate Production and Use.**
   S.W. Danielsen and E. Kuznetsova ............................................. 41

8. **Contrast Behavior of Sandstone from Mount Nemrut (Adiyaman-Turkey) After the Accelerated Weathering Tests.**
   Tamer Topal and Burcu Ertas Deniz ............................................. 45

9. **The ReAVA Project: Assessment of the Potential Alkali-Reactivity of Volcanic Aggregates from Azores Islands.**
   Sara Medeiros, João Carlos Nunes, Tetsuya Katayama, Isabel Fernandes, António Santos Silva, Vidália Miranda and Dora Soares ............................................. 51
Potential Reactivity to Alkalis of Portuguese Volcanic Aggregates for Concrete

Violeta Ramos, Isabel Fernandes, Fernando Noronha, Tetsuya Katayama, Dora Soares and António Santos Silva

Production of Lightweight Aggregates from Phosphate Washing Plant Sludge

Emna Fakhfakh, Imen Khiari, Walid Hajjaji, Mounir Medhioub, Fernando Rocha, Alberto López-Galindo and Fakher Jamoussi

Some Variations in Petrography of South African Karoo Dolerites and the Effects Thereof on Aggregate Properties

Robert Leyland

Environmental Issues Connected to the Quarry Lakes and Chance to Reuse Fine Materials Deriving from Aggregate Treatments

Sara Castagna, Giovanna Antonella Dino, Manuela Lasagna and Domenico Antonio De Luca

The Aggregates from Tunnel Muck and their Use as Secondary Raw Material: The Case Study of Turin Underground

Rossana Bellopede, David Colaiacomo, Paola Marini, Pierpaolo Oreste and Oscar Radis

Alkali Aggregate Reaction for Concrete Made with Tunnel Muck: Experimental Investigations

Rossana Bellopede, Marco Francini, Paola Marini, Alessandra Migheli, Enrico Moretti and Pierpaolo Oreste

Mix Design Parameters of Restoration Mortars: The Effect of Aggregate Characteristics

Maria Amenta, Ioannis Karatasios, Anna Kalagri, Pagona Maravelaki-Kalaitzaki and Vassilis Kilikoglou

Treatment and Exploitation of Waste Coming from Quarry Industries: Reuse as Aggregate

Giovanna Antonella Dino and Massimo Marian

The Effect of Feldspar, Mica and Clay Minerals on Compressive Strength of Mortar

Atiye Tugrul, Selahattin Hasdemir and Murat Yılmaz

Petrographic Examination of Mortar Bars of Swedish Aggregates Exposed to RILEM AAR2

Karin Appelquist, Jan Trägårdh, Magnus Döse and Mattias Göransson

Risk Assessment of Swedish Concrete as a Construction Material in Relation to Naturally Occurring Radiation from Different Aggregates

Magnus Döse

     Antonio Caruso, Giuseppe Esposito, Santina Scarpino and Pasquale Versace

159  **Climate Change, Landslide Risk Assessment and Adaptation**
     *Policies: The Urban Area of Ancona Municipality.* .................. 821
     Daniele Spizzichino, Alessio Capriolo and Fiorina Di Gioia

160  **Engineering Geological Analyses for Hazard Assessment**
     *of the Urbanized, Relict Lemeglio Coastal Landslide* (Eastern Ligu
     ria, Italy) ................................................................. 827
     Andrea Cevasco and Pantaleone De Vita

161  **Landslides in Urban Areas of Luxembourg, Caused**
     *by Weak Rheatian Clay* .................................................. 831
     Stefan Van Baars, Miguel Bautista and Rolf Becker

162  **The Urban Flooding Early Warning System of the Greater Turin**
     *(North-Western Italy) Based on Weather-Radar Observations* ....... 837
     Roberto Cremonini, Davide Tiranti and Secondo Barbero

163  **Population Exposed to Landslide and Flood Risk in Italy** ........ 843
     Alessandro Trigila, Carla Iadanza, Michele Munafò and Ines Marinosci

164  **A Cost Effective Methodology for the Rapid Evaluation**
     *of the Flood Susceptibility Along Anthropized Rivers* ............. 849
     Stefano Morelli, Alessandro Battistini, Samuele Segoni, Goffredo Manzo,
     Leonardo Ermini and Filippo Catani

165  **The Role of Geophysics in Urban Landslides Studies: Two Case**
     *Histories in Rome* ....................................................... 853
     Valeria Eulilli, Fernando Ferri and Luca Maria Puzzilli

166  **The Role of Fieldwork in Courses Developed to Avoid Accidents**
     *and Disasters in São Paulo City, Brazil* ............................... 857
     Erica Akemi Goto and Jefferson Lima de Picanço
167 The 1773 Cava de’ Tirreni Flash Flood (Southern Italy), an Opportunity to Further Enhance the Use of Documentary Sources as Hazard and Risk Assessment .............................................................. 861
Eliana Esposito, Sabina Porfido, Crescenzo Violante, Giuseppe Tranfaglia, Flavia Molisso, Salvo Mazzola, Marco Sacchi, Gaetana Santoro and Efisio Spiga

168 Reactivation of Old Inclinometers to Monitor a Slow Landslide in Roma Urban Area: Reliability of Old and New Measurements ........ 865
Amanti Marco, Paolo Maria Guarino and Luca Maria Puzzigli

169 Landslide Risk Assessment in the Reconstructed Bridge Area (Rostov-on-Don, Russia) ................................................................. 869
Batrak Gleb and Galitskaya Irina

170 Landslide Problem and Its Investigations in Miskolc (Hungary) .... 873
Mariann Vámos, Péter Görög and Balázs Vásárhelyi

Part XIV Mapping Urban Subsurface for Geohazard Assessment and Risk Management

171 A 3D Geological Model for Christchurch City (New Zealand): A Contribution to the Post-earthquake Re-build .......................... 881
John G. Begg, Katie E. Jones, Mark S. Rattenbury, David J.A. Barrell, Razel Ramilo and Dick Beetham

172 Collapse Susceptibility Mapping Using SRTM Data Obtained from Topodata Project ................................................................. 885
José Augusto Lollo, Jaime M. Cabrera Vivanco and Juliano Suman Curti

173 Geological Modeling in the Urban Subsurface Using the Microtremor Array Survey ................................................................. 893
Takao Sasaki, Hisaya Sawano, Hiroshi Shimizu, Abdol Halim, Tatsuro Matsuoka, Yukihiro Mizuochi, Hisao Hayashi and Atsushi Tanase

174 A Model of Como (N Italy) Urban Subsurface: A Multidisciplinary Tool for Hydraulic, Hydrogeologic and Subsidence Risk Management .... 899
M.F. Ferrario, L. Bonadeo, F. Brunamonte, F. Livio and A.M. Michetti

175 Zoning of Bereznyaki Urban Area (Perm Krai, Russia) According to the Geohazard Degree ................................................................. 903
Osipov Victor, Mamaev Yuri, Yastrebov Alexei and Eremina Olga

176 Identification of Ground Engineering Hazards in London Through the Use of Predictive 4D Geomodelling Tools .......................... 907
Richard C. Ghail, Skipper Jacqueline and Philippa J. Mason

177 Assessment of Karst-Suffosion Hazard Along the Routes of Designed Metro Lines in Moscow ................................................................. 913
Aleksandr Anikeev, Nadezda Anisimova, Irina Kozhevnikova and Irina Kozlyakova
178 The Map of Radon Hazard of Moscow ......................... 919
Petr Miklyaev, Tatiana Petrova and A.V. Klimshin

179 Engineering Geological Zoning of Moscow by the Conditions for Subsurface Construction ................................. 923
Irina Kozlyakova, Oleg Mironov and Olga Eremina

180 3-Dimensional Geological Mapping. Applications to Urban Geological Environment ............................. 927
Oleg Mironov

181 The Numerical Map of Known Mine Shafts in Wallonia: A Useful Tool for Land Planning and Risk Management .... 933
Ali Kheffi, Daniel Pacyna and Philippe Delforge

182 Structural-Geodynamic Mapping with Using the Geostatistical Analysis of the Platform Areas on the Example of Moscow ............................. 937
Makeev Vladimir, Karfidova Ekaterina and Dorozhko Anastasia

Part XV Off-Fault Coseismic Surface Effects and Their Impact in Urban Areas

183 Geochemical and Geomorphological Analyses on Liquefaction Occurred During the 2012 Emilia Seismic Sequence ............... 945
Alessandra Sciarra, Barbara Cantucci, Nasser Abu Zeid, Carmela Vaccaro and Fedora Quattrocchi

184 Geological and Geophysical Approaches for the Definition of the Areas Prone to Liquefaction and for the Identification and Characterization of Paleoliquefaction Phenomena, the Case of the 2012 Emilia Epicentral Area, Italy ................. 951

185 Simulation of Off-Fault Surface Effects from Historical Earthquakes: The Case of the City of Thessaloniki (Northern Greece) .................. 957
Anastasia Kiratzi, Zafeiria Roumelioti, Alexandros Chatzipetros and George Papanasssou

Part XVI Remote Sensing Applications for the Detection, Monitoring, Modeling, and Damage Assessment of Critical Structures and Complex

186 Integrations of Multiple Observations to Estimate Hydraulic Parameters in Choushui River Fluvial Plain of Central Taiwan ........ 967
Chih-Heng Lu, Chuen-Fa Ni, Chung-Pai Chang, Jiun-Yee Yen and Wei-Chia Hung
187 Characterization of Longwall Mining Induced Subsidence by Means of Automated Analysis of InSAR Time-Series ............................................................. 973
Jean Pascal Iannacone, Alessandro Corsini, Matteo Berti, Jessica Morgan and Giacomo Falorni

188 Geological Application of UAV Photogrammetry and Terrestrial Laser Scanning in Marble Quarrying (Apuan Alps, Italy) ................................. 979
Riccardo Salvinì, Silvia Ricucci, Domenico Gullì, Riccardo Giovannini, Claudio Vanneschi and Mirko Francioni

189 Ground Settlement Assessment in Urban Areas Through SBAS-DInSAR Measurements: The Case Study of Roma (Italy) ............................... 985
Manuela Bonano, Fabiana Calò, Michele Manunta, Maria Marsella, Silvia Scifoni, Alberico Sonnessa and Vincenzina Tagliafierro

190 Satellite Techniques: New Perspectives for the Monitoring of Dams ........ 989
Marco Corsetti, Michele Manunta, Maria Marsella, Silvia Scifoni, Alberico Sonnessa and Chandrakanta Ojha

191 Monitoring Land Subsidence in the Tokyo Region with SAR Interferometric Stacking Techniques ................................................................. 995
Paolo Pasquali, Alessio Cantone, Paolo Riccardi, Marco De Filippi, Fumitaka Ogushi, Masayuki Tamura and Stefano Gagliano

Part XVII Surface Fault-Rupture Hazard in Urban Areas

192 Characterisation of Surface Fault Rupture for Civil Engineering Design ................................................................. 1003
Clark Fenton and Juliet Kernohan

193 The Contribution of Airborne LiDAR Data to the Assessment of Surface Faulting Hazard for Lifelines Crossing Active Faults: An Example from the Central Apennines, Italy ........................................... 1009
Riccardo Civico, Daniela Pantosti, Stefano Pucci and Paolo Marco De Martini

194 Microzonation of the Liwa City on the Great Sumatera Active Fault and Giant Ranau Volcanic Complex in South Sumatera, Indonesia ........ 1015
Asdani Soehaimi, Dicky Muslim, Ir Kamawan and Robby Setia Negara

195 Surface Faulting Hazard in Italy: Towards a First Assessment Based on the ITHACA Database ............................................................. 1021
Luca Guerrieri, Anna Maria Blumetti, Valerio Comerci, Pio Di Manna, Alessandro Maria Michetti, Eutizio Vittori and Leonello Serva

196 Ground Fracturation in Urban Area: Monitoring of Land Subsidence Controlled by Buried Faults with InSAR Techniques (Ciudad Guzmán: Mexico) ............................................................ 1027
Carlo Alberto Brunori, Christian Bignami, Francesco Zucca, Gianluca Groppelli, Gianluca Norini, Norma Davila Hernández and Salvatore Stramondo
197 Active Normal Faulting and Large-Scale Mass Wasting in Urban Areas: The San Gregorio Village Case Study (L’Aquila, Central Italy). Methodological Insight for Seismic Microzonation Studies .......................... 1033
Stefano Gori, Emanuela Falcucci, Giuseppe Di Giulio, Marco Moro, Michele Saroli, Maurizio Vassallo, Andrea Ciampaglia, Paolo Di Marcantonio and Domenico Trotta

198 The Origin of Scarps in Urban Areas Affected by Active and Capable Normal Faulting: Only Faults? Examples from the 2009 L’Aquila Earthquake Region (Central Italy) ................................................................. 1037
Emanuela Falcucci and Stefano Gori

199 Repeated Major Episodes of Tectonic Deformation, Lateral Spread and Liquefaction in Christchurch During the Canterbury Earthquake Sequence of 2010–2011 ................................................................. 1043
Sjoerd Van Ballegooy, Kelvin Berryman, Bruce Deam and Mike Jacka

Part XVIII The Seismic Microzonation: Input Data, Methodology, and Impact on Planning

200 Geo-engineering Aspects of the Van Earthquakes (Turkey) of October and November 2011 and Associated Geotechnical Damages ................................................................. 1053
Resat Ulusay, Halil Kumsar and Ömer Aydan

201 The Characteristics of 2011 Simav Earthquake (Turkey) with an Emphasis on Geotechnical Damage ................................................................. 1059
Halil Kumsar, Erhan Ar and Ömer Aydan

202 Ground Zoning Map of the Piedmont Region (NW Italy): Methodology and Preliminary Results ................................................................. 1065
Gianluigi Perrone, Armando Riccardo Gaeta, Davide Tiranti, Paola Cadoppi and Gianfranco Fioraso

203 A New Empirical Method to Predict Liquefaction-Induced Lateral Spread ................................................................. 1071
Nilsun Hasançebi, Reşat Ulusay and K. Önder Çetin

204 Evaluation of the Ground Motion Amplification at Poggio Picenze (Italy) ................................................................. 1077
Nicola Tarque, Carlo G. Lai, Francesca Bozzoni, Enrico Miccadei, Tommaso Piacentini, Guido Camata and E. Spacone

205 A Methodology for Advanced Seismic Microzoning Using 2D Analyses: The Case Study of Barberino di Mugello, Florence, Italy ................................................................. 1081
Claudia Madiai, Johann Facciorusso, Elisa Gargini, Giovanni Vannucchi and Massimo Baglione

206 Seismic Microzonation in a Small Municipality: The Canazei Case Study (Trentino, N Italy) ................................................................. 1085
Floriana Pergalani, Massimo Compagnoni, Giuseppe Di Capua, Daniela Famiani, Andrea Franceschini and Alfio Viganò
207  The Seismic Site Characterization of Palazzo Centi in L’Aquila City
Centre: The Case Study of a Historical Building Damaged
by the April 6th 2009 Earthquake  ......................................................... 1091
Sara Amoroso, Giuseppe Di Giulio, Salomon Hailemikael,
Giuliano Milana, Paola Monaco, Marco Tallini, Gianfranco Totani,
Maurizio Vassallo and Fabio Villani

208  Local Seismic Response in the Southern Part of the Historic
Centre of L’Aquila  ................................................................. 1097
Sara Amoroso, Ferdinando Totani, Gianfranco Totani and Paola Monaco

209  The Experience of Seismic Microzonation in Lazio Region (Italy)
Mountain Municipalities  ............................................................... 1101
Antonio Colombi, Salomon Hailemikael, Guido Martini, Salvatore Martino,
Antonella Paciello, Alessandro Peloso, Lorella Salvatori,
Gabriele Scarascia Mugnozza and Vladimiro Verrubbi

210  Soil Liquefaction During the Emilia, 2012 Seismic Sequence:
Investigation and Analysis  .............................................................. 1107
Roberto W. Romeo, Sara Amoroso, Johann Facciorusso, Luca Lenti,
Claudia Madiai, Salvatore Martino, Paola Monaco,
Dario Rinaldis and Ferdinando Totani

211  Soil Liquefaction Analyses in a Test-Area Affected
by the 2012 Emilia-Romagna Earthquake (Italy)  ......................... 1111
Johann Facciorusso, Claudia Madiai and Giovanni Vannucchi

212  Seismic Microzonation of the Cassino Plain  ................................. 1115
Matteo Albano, Michele Lancia, Michele Saroli, Giuseppe Modoni,
Gabriele Scarascia Mugnozza and Paolo Croce

213  The ShakeMap and the Emilia-Lombardia 2012 Earthquake  .......... 1119
Alberto Marcellini, Alberto Tento and Rosastella Daminelli

214  A GIS-Based Tool for Reliability Assessment of Seismic
Microzonation Studies According to Italian Instructions and Criteria  .. 1123
Bruno Quadrio, Maurizio Ambrosanio and Maria Ioannilli

215  The High Damaging Mw 5.1 Lorca 2011 Earthquake: Possible Role
of Local Seismic Amplification  ......................................................... 1127
Luca Lenti, Salvatore Martino, Juan Luis-Soler, Carlos López-Casado,
Pedro Jáuregui, José Giner, Joaquin Garcia-Mondéjar and José Delgado

216  Parametric Numerical Study of Observed Amplification Effects
on the Colle di Roio Limestone Ridge (Central Italy)  .................... 1133
Salomon Hailemikael, Luca Lenti, Salvatore Martino,
Antonella Paciello and Gabriele Scarascia Mugnozza

Pierre Duffaut and Monique Labbé

234 Is There a Role for Subsurface Lease in Urban Development to Gain Community Support? ............................................. 1223
C.C.D.F. Van Ree, M. Halstead and A.E. Warning

Part XX Urban and Land Planning Versus Risks Resilient Management

235 Spatial Planning Measures for the Enhancement of Urban Resilience Against Flooding Risk ............................................. 1233
Enrique J. Calderón and Javier Diez

236 Direct and Indirect Impact of Landslide on Environment .................... 1237
Toni Nikolic

237 Risk Analysis for Swelling Clays to Buildings is South Madrid, Spain .... 1243
Carlos Delgado Alonso-Martirena, Félix Escolano Sánchez and Javier Angel Ramirez Masferrer

238 Various Approaches to Risk Assessment in Urban Development .......... 1247
Galitskaya Irina and Batrak Gleb
239 The Importance of a Proper Risk Management Plan for a Safe Use of the Underground Space in Densely Urbanised Areas. Two Case Histories .......................................................... 1251
Giuseppe M. Gaspari, Domenico Parisi and Giuseppe Astore

Part XXI Construction Materials

240 Usability of Pyroclastic Rocks as Construction Materials; Example from Nigeria ........................................ 1259
O.P. Aghamelu and C.O. Okogbue

241 Study of the Water Effects on the Tensile Strength and Cracking Processes of Molded Gypsum ......................... 1263
Louis Ngai Yuen Wong and Ming Chuan Jong

242 Slope’s Design for Quarry’s Remediation Using Ground Materials of Piraeus Subway Excavation .......... 1269
M. Chatziangelou, B. Christaras, K. Botsou and Em. Malliaroudakis

243 Use of Dune Sand as an Alternative for River Sand for Construction Industry in Sri Lanka ....................... 1277
U. de S. Jayawardena and H.M.L. Indratilaka

244 Asbestiform Amphiboles in a Marble Quarry: A Case Study from the Province of Córdoba (Argentina) .......... 1281
Francisco Locati, Leticia Lescano, Juan Murra, Silvina Marfil, Pedro Maiza and Edgardo Baldo

245 An Experimental Study for Evaluating the Disintegration Behavior of Clay-Bearing Rocks under Field Conditions .......................................................... 1285
Tej P. Gautam and Abdul Shakoor

246 Methods to Increase Effectiveness ofInjective Chemical Stabilisation of Loess Soils ........................................ 1289
Abramova Tamara and Larionova Nina

247 Experimental Study on Rock Deterioration by Repetition of Freezing and Thawing, and by Repetition of Dry and Wet in Cold Region .............................. 1293
Yoshihiko Ito, Yuki Kusakabe and Shuji Anan

248 The Pinhole Test for Dispersive Soil Identification ............... 1299
Amrita Maharaj and Philip Paige-Green

249 Dust from Mineral Extraction: Regulation of Emissions in England ......................................................... 1305
Marker Brian

250 Industrial Chance to Recover Residual Sludge from Dimension Stones in Civil and Environmental Applications ......................... 1309
Giovanna Antonella Dino, Paolo Clemente, Manuela Lasagna, Iride Passarella, Franco Ajmone Marsan and Domenico Antonio De Luca
251  The District Tourism Lake of Castel Volturno: An Example of Territorial Requalification of Abandoned Quarries  
Marina Maura Calandrelli and Roberto Calandrelli

252  The Effect of Temperature and Moisture Content on the Behaviour of Pyritic Fill: Development of an In Situ Monitoring System  
Amy J. Taylor, John C. Cripps and Samuel D Clarke

253  Investigations into the Self-Healing of Desiccation Cracks in Compacted Clays  
John C. Cripps and Krishna K. Parmar

254  Study of Moisture and Cement Rates Influence on Hydraulic Conductivity of a Stabilized Sandy Soil by Means of a Factorial Design of Experiments  
F.C. Loch and O.J. Pejon

255  Weathering of Pyritic Clay in the Vicinity of Concrete Undergoing Thaumasite Sulphate Attack  
J.C. Cripps, F. Abubaker, C.J. Lynsdale and A.J. Taylor

256  An Investigation of Noise Effects on Natural Heritage and Historic Building Materials  
Adil Binal

Part XXII  Aquifer Vulnerability and Springs/Wells Protection Zones

257  Wellfields under Heavy Urban Pressure—Monitoring, Simulation, Maintenance  
Algirdas Klimas and Marius Gregorauskas

258  Groundwater Protection for Human Consumption and Its Integration in Regional Planning: Gpz Method  
A. Jiménez-Madrid, C. Martinez and F. Carrasco

259  Vulnerability of Mountain Springs Affect by Climatic Change: A New Method in a Porous Media Aquifer in Regione Automa Valle d’Aosta  
Gianpiero Amanzio, Enrico Suozzi and Marina De Maio

260  Natural Occurrence of Sulphates in Ground and Surface Waters in Aosta Plain (Italy)  
Marina De Maio, Laura Pia Lodi and Enrico Suozzi

261  Hydrochemistry Applied to Water Supply System: A Case Study from a Brazilian Urban Area  
Sandra Gabas Garcia, Giancarlo Lastoria and Cavazanna Guilherme Henrique
262  Effects of Peri-Urban Occupation in the Recharge Area of the Guarani Aquifer in São Carlos, São Paulo, Brazil ............................... 1369
Geisy Candido da Silva, Denise Balestrero Menezes and Marcilene Dantas Ferreira

263  Global Warming in the Alps: Vulnerability and Climatic Dependency of Alpine Springs in Italy, Regione Valle d’Aosta and Switzerland, Canton Valais ................................................................. 1375
Gianpiero Amanzio, Davide Bertolo, Marina de Maio, Laura Pia Lodi, Luca Pitet and Enrico Suozzi

264  The Importance of Monitoring for the Determination of Aquifer Vulnerability and Spring Protection Areas ........................................... 1379
C. Banzato, M. Governa, M. Petricig and B. Vigna

265  Vulnerability Assessment of Mazzoccolo Spring Aquifer (Central Italy), Combined with Geo-Chemical and Isotope Modeling ......................... 1387
Giuseppe Sappa, Sibel Ergul and Flavia Ferranti

Author Index ................................................................. 1393
Engineering Geology for Society and Territory - Volume 5
Urban Geology, Sustainable Planning and Landscape Exploitation
Lollino, G.; Manconi, A.; Guzzetti, F.; Culshaw, M.;
Bobrowsky, P.T.; Luino, F. (Eds.)
2015, XXXV, 1400 p. 748 illus., 616 illus. in color. In 2 volumes, not available separately. Hardcover
