

# Contents

<b>1</b>	<b>Introduction</b> . . . . .	1
1.1	Background . . . . .	1
1.2	Linear Regression for Causal Inference . . . . .	4
1.3	Instrumental Variable Estimates and LATE . . . . .	6
1.4	Treatment Definition in a Spatial Context: Open Issues . . . . .	7
	References . . . . .	8
<b>2</b>	<b>Regression Discontinuity Design: When Series Interrupt</b> . . . . .	9
2.1	Introduction . . . . .	9
2.2	The Basic Framework . . . . .	10
2.2.1	Example: The Effect of the Point-Record Driving License on Car Accidents . . . . .	11
2.2.2	Example: The Impact of European Cohesion Policy on Regional Growth . . . . .	13
2.3	Regression Discontinuity with Heterogeneous Effects . . . . .	15
2.3.1	Example: EU Cohesion Policy, Economic Structure and Regional Growth . . . . .	16
2.4	Sensitivity Analysis . . . . .	18
	References . . . . .	20
<b>3</b>	<b>Propensity Score Matching: When Units Meet</b> . . . . .	21
3.1	The Standard Propensity Score Matching Technique . . . . .	21
3.1.1	Example: The Effect of Urban Growth Controls on Housing Prices . . . . .	22
3.2	Propensity Score Matching with Heterogeneity: An Example . . . . .	24
3.3	Oaxaca-Blinder Regressions and the Highways Example . . . . .	26
	References . . . . .	27

- 4 Difference-in-Differences: When Time and Space Matter . . . . . 29**
  - 4.1 Difference-in-Differences and Unobservables. . . . . 29
    - 4.1.1 Example: The Impact of URBAN II  
on Local Development. . . . . 32
  - References . . . . . 33
  
- 5 A Synthetic Control Approach to Evaluate Local Policies . . . . . 35**
  - 5.1 Introduction . . . . . 35
  - 5.2 Details of the Method. . . . . 35
    - 5.2.1 Example: The Impact of URBAN II in London. . . . . 39
  - References . . . . . 42
  
- 6 Methods for Ex Ante Evaluation. . . . . 43**
  - 6.1 Introduction . . . . . 43
  - 6.2 Ex Ante Evaluation and the European Cohesion Policy . . . . . 44
  - 6.3 The Concept of Transportability . . . . . 45
  - 6.4 Transportability and Ex Ante Evaluation. . . . . 48
    - 6.4.1 Meta-analysis . . . . . 48
    - 6.4.2 Quasi-experimental Methods. . . . . 49
    - 6.4.3 Structural Models . . . . . 51
  - 6.5 Final Remarks . . . . . 51
  - References . . . . . 52
