Contents

1 History of and Current Systems in Robotic Surgery ..................... 1
   Heidi Ryan and Shawn Tsuda

2 Training and Credentialing in Robotic Surgery  ......................... 13
   Tomasz Rogula, Pablo A. Acquafresca, and Martin Bazan

3 Basic Setup, Principles, and Troubleshooting in Robotic Surgery .......................................................... 27
   Chan W. Park and Dana D. Portenier

4 Essentials and Future Directions of Robotic Esophageal Surgery ............................................................ 45
   Umer I. Chaudhry and W. Scott Melvin

5 Essentials and Future Directions of Robotic Gastric Surgery .......................................................... 55
   Pornthep Prathanvanich and Bipan Chand

6 Essentials and Future Directions of Robotic Bariatric Surgery ............................................................ 73
   Shinil K. Shah, Peter A. Walker, Brad E. Snyder, and Erik B. Wilson

7 Essentials and Future Directions of Robotic Colon Surgery .......................................................... 81
   Emre Gorgun

8 Essentials and Future Directions of Robotic Rectal Surgery .......................................................... 95
   Raul Martin Bosio and Alessio Pigazzi

9 Essentials and Future Directions of Robotic Hepatobiliary Surgery, Including Cholecystectomy ............ 113
   M. Shirin Sabbaghian, Suzanne C. Schiffman, and Allan Tsung

10 Essentials and Future Directions of Robotic Pancreatic Surgery .......................................................... 131
   Melanie Ongchin, Melissa E. Hogg, Herbert J. Zeh III, and Amer H. Zureikat
