## Contents

### Part I  Background

1  The Evaluation, Diagnosis, and Treatment of Inflammatory Bowel Diseases over the Past 100 Years: A Brief Review  
   Frank I. Scott and Gary R. Lichtenstein  
   .................................................................  3

### Part II  Current Noninvasive Imaging Studies

2  Ultrasound  
   Nadia Pallotta and Enrico S. Corazziari  
   ........................................................................  31

3  Fluoroscopic Techniques for the Interrogation of IBD Patients  
   Stephen W. Trenkner and Joel G. Fletcher  
   .................................................................  55

4  CT Enterography in Crohn’s Disease  
   David H. Bruining  
   .................................................................  69

5  Magnetic Resonance Enterography  
   Ragna Vanslembrouck, Dirk Vanbekevoort,  
   Tanya P. Chawla, and Gert Van Assche  
   .................................................................  73

### Part III  Endoscopic Diagnosis/DDX CUC/CD

6  Role of Endoscopy in Diagnosis of Crohn’s Disease and Chronic Ulcerative Colitis  
   Stephen M. Vindigni, Anand Singla, and Scott D. Lee  
   .................................................................  93

7  Capsule Endoscopy in the Evaluation of Inflammatory Bowel Disease  
   Erika S. Boroff and Jonathan A. Leighton  
   .................................................................  105

8  Balloon-Assisted Enteroscopy: Techniques, Diagnostic and Therapeutic Yield and Application in Small Bowel Crohn’s Disease  
   Gary R. May  
   .................................................................  121
