1 Demand Forecasting for Inventory Control	1
1.1 Introduction.....	1
1.1.1 Demand Forecasting.....	1
1.1.2 At the Beginning.....	2
1.1.3 Calculators.....	2
1.1.4 Data Processing.....	3
1.1.5 Forecasting Pioneers.....	3
1.1.6 Computer Era.....	4
1.1.7 Qualification.....	4
1.2 Chapter Summaries.....	5
2 Demand History	11
2.1 Introduction.....	11
2.2 Customer Demand History for a Part.....	12
2.3 Demand-to-Date.....	12
2.4 Service Part Regular and Emergency Demands.....	13
2.5 New and Replenish Stock Demands for Retail Items at DC.....	13
2.6 Weekly Demands.....	14
2.7 445 Fiscal Months at Plants.....	14
2.8 Regular Demands and Other Requirements at DCs.....	15
2.9 Regular and Promotion Demands at DCs and Stores.....	16
2.10 Advance Demands.....	16
2.11 Demand Patterns.....	16
2.12 Return Demands.....	17
2.13 Outlier Demands.....	18
2.14 Coefficient of Variation.....	18
2.15 Demand Distribution.....	18
2.16 Cumulative Round Algorithm.....	19
2.17 Cumulative Forecasts.....	19
2.18 Inventory Profile.....	19
Summary.....	21

- 3 Horizontal Forecasts** 23
 - 3.1 Introduction 23
 - 3.2 Horizontal Forecasts 23
 - 3.3 Raw Forecasts 24
 - 3.4 Cumulative Rounding Algorithm 24
 - 3.5 Estimate the Level 25
 - 3.6 Raw Forecasts 25
 - 3.7 Integer Forecasts 25
 - 3.8 Standard Deviation and Cov 26
 - 3.9 Horizontal Moving Average Forecasts 27
 - 3.10 Standard Deviation and Cov 27
 - 3.11 Horizontal Discount Forecasts 29
 - 3.12 Standard Deviation and Cov 30
 - 3.13 Horizontal Smoothing Forecasts 32
 - 3.14 Standard Deviation 33
 - 3.15 2-Stage Forecasts 34
 - 3.16 Raw Lines to Integer Forecasts 35
 - 3.17 Integer Lines to Integer Forecasts 38
 - Summary 39

- 4 Trend Forecasts** 41
 - 4.1 Introduction 41
 - 4.2 Trend Regression Forecast 41
 - 4.3 Trend Discount Forecasts 45
 - 4.4 Trend Smoothing Forecasts 49
 - 4.5 Dampening 53
 - 4.6 Linear Trend Forecast Model 53
 - 4.7 Geometric Forecast Model 54
 - 4.8 Maximum Forecast Model 55
 - 4.9 Other Dampening Applications 57
 - Summary 57

- 5 Seasonal Forecasts** 59
 - 5.1 Introduction 59
 - 5.2 Seasonal Multiplicative Model 59
 - 5.3 Revised Forecasts 65
 - 5.4 Initialize with 12-Months of Demand History 66
 - 5.5 Seasonal Additive Model 67
 - 5.6 Initialize With 12-Months of Demand History 68
 - 5.7 Revision Forecasts 68
 - Summary 69

- 6 Promotion Forecasts** 71
 - 6.1 Introduction 71
 - 6.2 Promotion Horizontal Model 71
 - 6.3 Initialize Stage 72

- 6.4 Standard Deviation and Cov 75
- 6.5 Forecasts..... 75
- 6.6 Revision Stage..... 76
- 6.7 Unbiased Estimates 76
- 6.8 Promotion Trend Model 78
- 6.9 Initialize Stage..... 79
- 6.10 Standard Deviation and Cov 81
- 6.11 Revision Stage..... 84
- 6.12 Unbiased Estimates 84
- Summary 87

- 7 Multi-SKU Forecasts 89**
 - 7.1 Introduction..... 89
 - 7.2 SKU Mean and Standard Deviation 90
 - 7.3 Derivation of Binomial When n is a Random Variable..... 91
 - 7.4 Top-Down Forecasting Method 92
 - 7.5 Total Demand Forecasts 92
 - 7.6 Location Portion of Demand..... 93
 - 7.7 The Level by Location and Total 94
 - 7.8 Standard Deviation by Location and Total..... 95
 - 7.9 Cov by Location and Total..... 97
 - 7.10 Bottom-Up Forecasting Method 97
 - 7.11 Location j Forecasts 98
 - 7.12 Bottom-Up Total Forecast..... 99
 - 7.13 Total Forecast at Month 1..... 101
 - 7.14 Horizontal SKU Forecasts..... 102
 - 7.15 SKU Forecasts at the Distribution Center..... 103
 - 7.16 SKU Forecasts at the Stores..... 105
 - Summary 106

- 8 Forecast Sensitivity 107**
 - 8.1 Introduction..... 107
 - 8.2 Cov by NMH when Horizontal Demands and Forecasts 107
 - 8.3 Cov by NMH when Trend Demands and Forecasts..... 108
 - 8.4 Cov by Parameter and Forecast Model when
Horizontal Demands..... 110
 - 8.5 Cov by Parameter and Forecast Model when Trend Demands..... 111
 - 8.6 Cov by Parameter and Forecast Model when Seasonal Demands 112
 - 8.7 Cov when Horizontal Demands with an Outlier 113
 - 8.8 Cov when Trend Demands with an Outlier..... 115
 - Summary 117

- 9 Filtering Outliers 119**
 - 9.1 Introduction..... 119
 - 9.2 Horizontal Filtering 119
 - 9.2.1 Horizontal Filtering Algorithm (HFA)..... 120

- 9.3 Trend Filtering..... 125
 - 9.3.1 Trend Filtering Algorithm (TFA) 125
- 9.4 Seasonal Filtering..... 129
 - 9.4.1 Seasonal Filtering Algorithm (SFA)..... 129
- 9.5 Filtering Line Demands in Order Entry 132
- 9.6 Derivation of Mean and Standard Deviation
of Line Demands 134
- Summary 136

- 10 Standard Normal and Truncated Normal Distributions..... 137**
 - 10.1 Introduction 137
 - 10.2 Normal Distribution 137
 - 10.3 Standard Normal Distribution..... 138
 - 10.3.1 Probability Density..... 138
 - 10.3.2 Cumulative Distribution Function..... 138
 - 10.4 Partial Measures..... 139
 - 10.4.1 Partial Expectation 139
 - 10.4.2 Partial Standard Deviation 139
 - 10.4.3 Partial When $(x > x_0)$ 140
 - 10.4.4 Table Measures..... 140
 - 10.5 Truncated Normal Distribution 140
 - 10.5.1 Truncated Mean and Variance 142
 - 10.5.2 Some Useful Identities 142
 - 10.5.3 Truncated Cov 143
 - 10.5.4 Three Related Variables: z , t and w 145
 - 10.5.5 Limits on w 146
 - 10.5.6 Hastings Approximations 146
 - 10.5.7 Approximation of $F(z)$ from z 147
 - 10.5.8 Approximation of z from $F(z)$ 147
 - Summary 148

- 11 Safety Stock..... 149**
 - 11.1 Introduction 149
 - 11.2 Control of the Inventory..... 149
 - 11.3 Safety Stock when Normal Distribution 150
 - 11.4 Service Level Method 151
 - 11.5 Percent Fill Method..... 152
 - 11.6 Sensitivity of Safety Stock with Cov 154
 - 11.7 Service Level Safety Stock and Cov 154
 - 11.8 Percent Fill Safety Stock and Cov..... 154
 - 11.9 Safety Stock when Truncated Normal Distribution 156
 - 11.10 Lead Time Demand 157
 - 11.11 Service Level Methods and Truncated Normal 158
 - 11.12 Percent Fill Method and Truncated Normal 160
 - Summary 163

12 Auxiliary Forecasts	165
12.1 Introduction	165
12.2 Month-1 Forecasts and Demand-to-Date	165
12.3 Advance Demand	167
12.4 Initial Forecasts	169
12.5 All Time Forecasts.....	173
Summary	178
Bibliography	179
Index	181
