## Contents

### Introduction

From Habits to Standards: Towards Systematic Design of Emotion Models and Affective Architectures .................................................. 3

_Eva Hudlicka_

### Generic Models and Frameworks

Creating a World for Socio-Cultural Agents ........................................ 27

_Nick Degens, Gert Jan Hofstede, John Mc Breen, Adrie Beulens, Samuel Mascarenhas, Nuno Ferreira, Ana Paiva, and Frank Dignum_

FAtiMA Modular: Towards an Agent Architecture with a Generic Appraisal Framework .................................................. 44

_João Dias, Samuel Mascarenhas, and Ana Paiva_

Programming Agents with Emotions ..................................................... 57

_Mehdi Dastani, Christiaan Floor, and John-Jules Ch. Meyer_

Utilizing Emotions in Autonomous Robots: An Enactive Approach ......... 76

_Robert Lowe and Kiril Kiryazov_

### Evaluations of Specific Models

The Effect of Dominance Manipulation on the Perception and Believability of an Emotional Expression ........................................... 101

_Wim F.J. van der Ham, Joost Broekens, and Peter H.M.P. Roelofsma_

Modelling Two Emotion Regulation Strategies as Key Features of Therapeutic Empathy .................................................. 115

_Juan Martínez-Miranda, Adrián Bresó, and Juan Miguel García-Gómez_

Social Support Strategies for Embodied Conversational Agents .......... 134

_Janneke M. van der Zwaan, Virginia Dignum, and Catholijn M. Jonker_

Affective Processes as Network Hubs ................................................... 148

_David Gibson_

### Author Index

............................................ 167
Emotion Modeling
Towards Pragmatic Computational Models of Affective Processes
Bosse, T.; Broekens, J.; Dias, J.; van der Zwaan, J.M. (Eds.)
2014, VII, 167 p. 34 illus., Softcover
ISBN: 978-3-319-12972-3
