

Contents

1	The Fundamental Group and Torsion Group of Beauville Surfaces	1
	Ingrid Bauer, Fabrizio Catanese and Davide Frapporti	
2	Regular Algebraic Surfaces, Ramification Structures and Projective Planes	15
	N. Barker, N. Boston, N. Peyerimhoff and A. Vdovina	
3	A Survey of Beauville p-Groups	35
	Nigel Boston	
4	Strongly Real Beauville Groups	41
	Ben Fairbairn	
5	Beauville Surfaces and Probabilistic Group Theory	63
	Shelly Garion	
6	The Classification of Regular Surfaces Isogenous to a Product of Curves with $\chi(\mathcal{O}_S) = 2$	79
	Christian Gleißner	
7	Characteristically Simple Beauville Groups, II: Low Rank and Sporadic Groups	97
	Gareth A. Jones	
8	Remarks on Lifting Beauville Structures of Quasisimple Groups	121
	Kay Magaard and Christopher Parker	

9 Surfaces Isogenous to a Product of Curves, Braid Groups and Mapping Class Groups. 129
Matteo Penegini

10 On Quasi-Étale Quotients of a Product of Two Curves. 149
Roberto Pignatelli

11 Isotrivially Fibred Surfaces and Their Numerical Invariants. 171
Francesco Polizzi
