Part I Basics of Human Experience

1 A Real Experience	3
1.1 Introduction	3
1.2 Cases of Big Changes.....	3
1.3 Technology Cannot Explain Everything	4
1.3.1 A Weather Forecasting Stone	5
1.3.2 So Close, yet so Far Away: Technology Innovation Theory....	5
1.4 A Short History of HCI	6
1.5 What is User Experience (UX)?.....	10
1.5.1 Important Areas of UX Applications.....	12
1.5.2 UX and Experience Design.....	12
1.5.3 Knowing the Human in Human Experience	13
1.5.4 Strategic Thinking for Human Experience.....	14
1.5.5 A Holistic yet Specific Thinking for Human Experience.....	15
1.6 Three Principles of Experience	16
1.7 What is Real Experience?	18
1.7.1 Three Conditions for Real Experience.....	19
1.7.2 Design for Experience.....	21
1.8 Summary	21
1.9 Discussion Topics.....	21
References	22
2 The Three Threads of Experience	23
2.1 Introduction.....	23
2.2 Experience is Like an Intertwined Lump of Thread	23
2.3 Threads of Experience: An Essential Compromise.....	24
2.4 The Sensual Thread of Experience.....	25
2.4.1 Weaving the Sensual Thread with a Sense of Presence	26
2.4.2 High Presence vs. Low Presence	27
2.4.3 Why is Presence Important for Sensual Experience?.....	28

- 2.5 The Judgmental Thread of Experience..... 29
 - 2.5.1 Value Judgment: is my Experience Useful?..... 29
 - 2.5.2 Locus of Causality Controls the Judgmental Thread of Experience 30
 - 2.5.3 Internal Locus of Causality vs. External Locus of Causality 31
 - 2.5.4 Why is Locus of Causality Important in Judgmental Experience? 31
- 2.6 Compositional Thread of Experience..... 32
 - 2.6.1 Temporal Relationships: Relationships among the Past, Present and Future 33
 - 2.6.2 Social Relationships: Relationships Between Me and Others 33
 - 2.6.3 Structural Relationships: Relationships Between Me and Products/Services..... 34
 - 2.6.4 Harmony as the Ideal State of the Compositional Thread 34
 - 2.6.5 Relational Cohesiveness: How Tight are We? 35
 - 2.6.6 Strong Cohesiveness vs. Weak Cohesiveness 36
 - 2.6.7 Why is Cohesiveness Important in the Compositional Thread of Experience? 36
- 2.7 Unweaving Experience into the Three Threads of Experience 37
- 2.8 Summary 38
- 2.9 Discussion Topics..... 38
- References 39

Part II A Strategic Framework for Experience Design

- 3 The Balance of Experience..... 43**
 - 3.1 Introduction..... 43
 - 3.2 Tuning with the World’s Frequency 43
 - 3.3 What Does Confucius Say About Experience? 44
 - 3.3.1 The Balance of Experience as a Three-Dimensional Model 46
 - 3.3.2 The Mean and Harmony in the Three Dimensional Model of Experience 48
 - 3.4 SET: The External Environment of Human Experience 49
 - 3.4.1 The Characteristics of the Socio-Cultural Environment 51
 - 3.4.2 The Socio-Cultural Environment and the Threads of Experience 52
 - 3.4.3 The Characteristics of the Economic Environment..... 54
 - 3.4.4 The Economic Environment and the Threads of Experience 54

- 3.4.5 The Characteristics of the Technological Environment 55
- 3.4.6 The Technological Environment and the Threads
of Experience 56
- 3.5 The Balance of Experience and a Successful
Product or Service 57
 - 3.5.1 Dominant Design and the Synchronization of Expe-
rience and Environment 59
 - 3.5.2 The Dominance of Dominant Design 60
 - 3.5.3 An Exception to Every Rule..... 61
- 3.6 The Experiential Point of Balance 62
- 3.7 Summary 63
- 3.8 Discussion Topics..... 63
- References 64

- 4 Creative Conflicts and Dynamic Balancing..... 65**
 - 4.1 Introduction 65
 - 4.2 There is No Eternal Winner..... 65
 - 4.3 Changes of Dominant Design 67
 - 4.3.1 Sense of Presence Varies with Time..... 68
 - 4.3.2 Locus of Causality Changes with Time 69
 - 4.3.3 Relational Cohesiveness also Changes with Time..... 70
 - 4.4 Conflicts and Contradictions that Power Innovation 72
 - 4.4.1 Paradigm Shifts Start with Conflict 74
 - 4.4.2 Changes in the Environment Cause
Cognitive Dissonance..... 74
 - 4.4.3 Conflict is a Golden Opportunity for
New Experiences..... 76
 - 4.5 Two Kinds of Very Different Innovations..... 77
 - 4.6 The Dynamic Balance of Experience..... 78
 - 4.6.1 Sustaining Innovation from the Perspective of Sen-
sual Experience 78
 - 4.6.2 Sustaining Innovation from the Perspective
of Judgmental Experience 79
 - 4.6.3 Sustaining Innovation from the Perspective
of Compositional Experience..... 80
 - 4.6.4 Disruptive Innovation from the Perspective
of Sensual Experience 81
 - 4.6.5 Disruptive Innovation from the Perspective
of Judgmental Experience 82
 - 4.6.6 Disruptive Innovation from the Perspective of
Compositional Experience 84
 - 4.7 Using ‘Design for Experience’ for Innovation..... 85
 - 4.8 Summary 87
 - 4.9 Discussion Topics..... 87
 - References 88

Part III UX Factors and Design Features for Real Experience

- 5 Design for Senseful Experience**..... 91
 - 5.1 Introduction..... 91
 - 5.2 Virtual Golf Simulator..... 91
 - 5.3 Sense of Presence..... 92
 - 5.3.1 Vividness: A Key Perceptual Lever of Sensual Experience..... 93
 - 5.3.2 Interactivity: A Key Behavioral Lever of Sensual Experience..... 94
 - 5.3.3 Vividness and Interactivity..... 95
 - 5.4 Eight Case Studies on Vividness and Interactivity..... 96
 - 5.4.1 Golfzon Vision..... 97
 - 5.4.2 Su Norebang..... 97
 - 5.4.3 UHD TV..... 97
 - 5.4.4 Klive..... 98
 - 5.4.5 Nintendo Wii..... 98
 - 5.4.6 Internet Radio Application..... 99
 - 5.4.7 eBook..... 99
 - 5.4.8 Background Music..... 99
 - 5.5 UX Factors and Design Features for Vividness..... 100
 - 5.5.1 Narrativity..... 100
 - 5.5.2 Concreteness..... 105
 - 5.5.3 Media Richness..... 107
 - 5.6 UX Factors and Design Features for Interactivity..... 110
 - 5.6.1 Controllability..... 110
 - 5.6.2 Exchange of Meaning..... 113
 - 5.6.3 Synchronicity..... 116
 - 5.7 Summary..... 118
 - 5.8 Discussion Topics..... 119
- References..... 119

- 6 Design for Valuable Experience**..... 123
 - 6.1 Introduction..... 123
 - 6.2 Korean e-Government Service..... 123
 - 6.3 Locus of Causality..... 124
 - 6.3.1 Hedonistic vs Utilitarian: Key Result-Oriented Levers for Judgmental Experience..... 125
 - 6.3.2 Autonomy vs. Automation: Key Process-Oriented Levers for Judgmental Experience..... 126
 - 6.3.3 Result-Oriented and Process-Oriented Levers..... 127
 - 6.4 Eight Case Studies on Result-Oriented and Process-Oriented Levers..... 129
 - 6.4.1 I Love Coffee..... 129
 - 6.4.2 Tamiya RC Car Porsche 934 Turbo RSR..... 130

- 6.4.3 Beatpacking Company—BEAT 130
- 6.4.4 Philips Hue 130
- 6.4.5 Easy Taxi 131
- 6.4.6 AD 418R, 18V Rechargeable Driver Drill 131
- 6.4.7 E-Government Portal, Minwon 24 132
- 6.4.8 LG Robot Vacuum Cleaner—Roboking 132
- 6.5 UX Factor and Design Features for Hedonistic Value 133
 - 6.5.1 Serendipity 133
 - 6.5.2 Playability 134
- 6.6 UX Factor and Design Features for Utilitarian Value 137
 - 6.6.1 Compatibility 137
 - 6.6.2 Consistency 139
- 6.7 UX Factor and Design Features for User Autonomy 142
 - 6.7.1 Customizability 142
 - 6.7.2 Challenge 146
- 6.8 UX Factor and Design Features for System Autonomy 148
 - 6.8.1 Agent-Awareness 148
 - 6.8.2 Adaptivity 151
- 6.9 Summary 153
- 6.10 Discussion Topics 154
- References 154

- 7 Design for Harmonious Experience 157**
 - 7.1 Introduction 157
 - 7.2 Incheon Airport: A Highly-Cohesive International Travel Service 157
 - 7.3 Relational Cohesiveness 158
 - 7.3.1 Density: A Key Lever of Connectivity 159
 - 7.3.2 Centrality: A Key Lever of Distribution 161
 - 7.3.3 Density and Centrality 162
 - 7.4 Eight Case Studies on Density and Centrality 163
 - 7.4.1 Google Glass 164
 - 7.4.2 Incheon Airport 164
 - 7.4.3 Samsung Zipel Kimchi Refrigerator 164
 - 7.4.4 Traditional Korean Market 165
 - 7.4.5 Samsung Galaxy S Series 165
 - 7.4.6 Facebook 165
 - 7.4.7 Smart TV 166
 - 7.4.8 11ST Online Shopping Mall 166
 - 7.5 The Key UX Factor and Design Features for High Density 167
 - 7.5.1 Reciprocity 167
 - 7.5.2 Complexity 170
 - 7.6 The Key UX factor and Design Features for Low Density 175
 - 7.6.1 Similarity 175
 - 7.6.2 Salience 179

7.7 Summary 182

7.8 Discussion Topics..... 183

References 183

Part IV Summary

8 Design for the Next Real Experience..... 189

8.1 Introduction 189

8.2 The Internet: A Life-Changing Experience 189

8.3 Why Does Experience Come First? 191

8.4 Design for the Next Experience, Under a Telescope 192

8.5 Putting the Framework into Action 195

8.5.1 Step 1: What is a Companion Experience? 195

8.5.2 Step 2: What are the Environmental Factors
Affecting Companion Experience? 196

8.5.3 Step 3: Where is the Point of Balance
of Companion Experience? 197

8.5.4 Step 4: Which UX Factors Lead to a Point of Balance? 199

8.5.5 Step 5: Which Design Features are Necessary
for the Key UX Factors? 202

8.6 The Characteristics of Organizations that Create
Great Experiences 203

8.7 Summary 206

8.8 Discussion Topics..... 207

References 207

Epilogue 209
