## Contents

1. **Soluble Bio-based Substances Obtained from Urban Wastes: Isolation and Characterization**
   A. Bianco Prevot, P. Avetta, S. Berto, P.G. Daniele, S. Tabasso, D. Mainero and E. Montoneri

2. **Photogeneration of Reactive Oxygen Species by SBO and Application in Waste-Water Treatment**
   Luciano Carlos and Daniel O. Mártire

3. **SBO in Water Detoxification: Photo-Fenton Processes at Mild Conditions**
   J. Gomis, M. Mora, R. Vicente, R. Vercher, A.M. Amat and A. Arques

4. **Effect of Humic Substances and Bioorganic Substrates from Urban Wastes in Nanostructured Materials Applications and Synthesis**
   G. Magnacca, E. Laurenti and M.C. Gonzalez

5. **Mathematical Modeling for SBO Applications**
Soluble Bio-based Substances Isolated From Urban Wastes
