### WAS4FI 2014

4th International Workshop on Adaptive Services for the Future Internet

(WAS4FI 2014): Preface ................................................................. 3

*Javier Cubo, Juan Boubeta-Puig, Howard Foster, Winfried Lamersdorf,*

*and Nadia Gámez*

Matching of Incomplete Service Specifications Exemplified by Privacy

Policy Matching ................................................................. 6

*Marie Christin Platenius, Svetlana Arifulina, Ronald Petrlic,*

*and Wilhelm Schäfer*

Implementing Elastic Capacity in a Service-Oriented PaaS ............ 18

*Alberto Zuccato and Tullio Vardanega*

Towards Compensable SLAs ............................................... 31

*Carlos Müller, Antonio Manuel Gutierrez, Manuel Resinas,*

*Pablo Fernandez, and Antonio Ruiz-Cortés*

Service Network Modeling: A Generic Approach ....................... 39

*Aneta Kabzeva, Joachim Götze, and Paul Müller*

Context-Aware Decentralization Approach for Adaptive BPEL Process in Cloud ......................................................... 51

*Molka Rekik, Khouloud Boukadi, and Hanene Ben-Abdallah*

Assisting Business Process Outsourcing to the Cloud .................. 63

*Mouna Rekik, Khouloud Boukadi, and Hanene Ben-Abdallah*

### CLIoT 2014

Preface of CLIoT ................................................................. 73

*Maria Fazio, Nik Bessis, and Massimo Villari*

Decentralized Planning for Self-Adaptation in Multi-cloud Environment .... 76

*Azlan Ismail and Valeria Cardellini*

A Graph-Based Cloud Architecture for Big Stream Real-Time Applications in the Internet of Things ..................................... 91

*Laura Belli, Simone Cirani, Gianluigi Ferrari, Lorenzo Melegari,*

*and Marco Picone*
An Approach to Evaluate Applications Running on Web-Based Remote Virtual Machines in Cloud Computing

Davide Mulfari, Antonio Celesti, Maria Fazio, and Massimo Villari

CSB 2014

Cloud Service Brokerage - 2014: Towards the Multi-cloud Ecosystem

Anthony J.H. Simons, Alessandro Rossini, Iraklis Paraskakis, and Jens Jensen

Towards a Model-Based Execution-Ware for Deploying Multi-cloud Applications

Daniel Baur, Stefan Wesner, and Jörg Domaschka

A Development Framework Enabling the Design of Service-Based Cloud Applications

Fotis Gonidis, Iraklis Paraskakis, and Anthony J.H. Simons

Cloud Computing Reduces Uncertainties in Quality-of-Service Matching!

Matthias Becker, Marie Christin Platenius, and Steffen Becker

Contract Design for Composed Services in a Cloud Computing Environment

Sonja Brangewitz, Claus-Jochen Haake, and Jochen Manegold

X-Machine Based Testing for Cloud Services

Raluca Lefticaru and Anthony J.H. Simons

Model-Based Testing for Composite Web Services in Cloud Brokerage Scenarios

Mariam Kiran and Anthony J.H. Simons

Towards a Generic Language for Scalability Rules

Jörg Domaschka, Kyriakos Kritikos, and Alessandro Rossini

Linked USDL Business Policy Specifications as WS-Agreement Templates

Ioannis Arampatzis, Simeon Veloudis, and Iraklis Paraskakis

Derivation of Broker Policies from Cloud Hosting Platform Service Descriptions

Andreas Friesen, Simeon Veloudis, and Iraklis Paraskakis

SeaCloudS 2014

Workshop on Seamless Adaptive Multi-cloud Management of Service-Based Applications (SeaCloudS): Preface

Antonio Brogi and Ernesto Pimentel
Orthogonal Variability Modeling to Support Multi-cloud Application Configuration ............................................................. 249
  Pooyan Jamshidi and Claus Pahl

A Marketplace Broker for Platform-as-a-Service Portability ......................... 262
  Bholanathsingh Surajbali and Adrián Juan-Verdejo

Towards a Classification of Multiple-Cloud Computing Concepts and Terms ................................................................. 271
  Hassan Saad Alqahtani and Ghita Kouadri-Mostefaoui

Towards a Flexible Deployment of Multi-cloud Applications Based on TOSCA and CAMP ....................................................... 278
  Jose Carrasco, Javier Cubo, and Ernesto Pimentel

Author Index ................................................................. 287
Advances in Service-Oriented and Cloud Computing
Workshops of ESOCC 2014, Manchester, UK, September 2-4, 2014, Revised Selected Papers
Ortiz, G.; Tran, C. (Eds.)
2015, XI, 287 p. 81 illus., Softcover
