## Part I Background

<b>1</b>	<b>Introduction</b> . . . . .	3
1.1	The Nature of the Problem . . . . .	3
1.2	Why this Book . . . . .	5
1.3	Overview of the Book . . . . .	6
1.4	Who Can Benefit from this Book . . . . .	7
<b>2</b>	<b>How Transportation Technology Has Shaped Urban Travel Patterns</b> . . . . .	9
2.1	Introduction . . . . .	9
2.2	Transportation Technology, Urbanization, and Travel . . . . .	10
	2.2.1 Ancient Time . . . . .	11
	2.2.2 The Industrial Revolution (ca. 1825–1900) . . . . .	11
	2.2.3 The Private Motor Vehicle Era (1925–Present) . . . . .	12
2.3	Conclusion . . . . .	16
	References . . . . .	17
<b>3</b>	<b>Historical Perspective of Urban Traffic Congestion</b> . . . . .	19
3.1	Introduction . . . . .	19
3.2	Historical Examples . . . . .	19
3.3	Traffic Congestion in the 21st Century . . . . .	26
	3.3.1 Congestion in Travel Corridors and at Bottlenecks . . . . .	26
3.4	Summary and Outlook . . . . .	27
	References . . . . .	31

**Part II Traffic Congestion Characteristics, Causes, and Consequences**

**4 Overview of the Causes of Congestion . . . . . 35**

4.1 Introduction . . . . . 35

4.2 Summary of Causes . . . . . 35

4.2.1 Concentration of Trips in Space and Time . . . . . 36

4.2.2 Growth in Population, Employment, Car Use and Insufficient Capacity . . . . . 36

4.2.3 Bottlenecks . . . . . 36

References. . . . . 37

**5 Concentration of Travel Demand in Space and Time . . . . . 39**

5.1 Introduction . . . . . 39

5.2 Concentration of Travel Demand in Space . . . . . 39

5.2.1 The Central Business District . . . . . 39

5.2.2 Outlying Mega-Centers . . . . . 40

5.3 Paradox: Reducing per Capita Auto Use Increases Traffic Congestion . . . . . 42

5.3.1 Population Density, Traffic Density, and Traffic Speed . . . . . 43

5.3.2 Population Density and Traffic Congestion. . . . . 43

5.4 Concentration of Travel Demand in Time . . . . . 44

5.4.1 Trip Purpose and Time of Travel . . . . . 45

5.4.2 Trip Purpose of Peak Period Travelers. . . . . 45

5.4.3 Peak Spreading. . . . . 49

References. . . . . 51

**6 Insufficient Capacity, Growth in Population, Employment, and Car Use. . . . . 53**

6.1 Historical Imbalance of Roadway Supply and Travel Demand. . . . . 53

6.2 Causes of VMT Growth. . . . . 58

6.2.1 City Versus Suburban Population Growth . . . . . 58

6.2.2 Per Capita VMT Growth . . . . . 59

6.2.3 Factors Contributing to the Rate of VMT Growth . . . . . 60

6.2.4 Trends in VMT and Contributing Factors. . . . . 65

6.3 The Plateau Effect of Factors Inducing VMT Growth . . . . . 65

6.3.1 Rate of VMT Growth per Capita Is Likely to Decrease in the Future. . . . . 67

6.3.2 Implications . . . . . 68

  - 11.2 Measuring Accessibility . . . . . 135
    - 11.2.1 Examples . . . . . 135
  - 11.3 Congestion Impacts on Modal Accessibility . . . . . 142
    - 11.3.1 Examples . . . . . 142
  - 11.4 Barriers to Modal Accessibility . . . . . 144
    - 11.4.1 Accessibility Barriers to Walking and Bicycle Use . . . . . 144
    - 11.4.2 Accessibility Barriers to the Physically Disabled . . . . 145
    - 11.4.3 Accessibility Barriers to Auto Users . . . . . 145
  - 11.5 Conclusions . . . . . 145
  - References. . . . . 145
  
- 12 The Impacts of Congestion on Roadway Traffic Productivity . . . . 147**
  - 12.1 Introduction . . . . . 147
  - 12.2 Fundamentals of Traffic Flow . . . . . 147
    - 12.2.1 Basic Relationships . . . . . 147
  - 12.3 Freeway and Expressway Productivity . . . . . 148
    - 12.3.1 Introduction . . . . . 148
    - 12.3.2 Skycomp Analysis . . . . . 151
  - 12.4 Arterial Street Productivity . . . . . 154
    - 12.4.1 Analysis . . . . . 154
    - 12.4.2 Implications . . . . . 156
  - 12.5 Conclusions . . . . . 156
  - References. . . . . 156

**13 The Costs and Other Consequences of Traffic Congestion. . . . . 159**

13.1 Introduction . . . . . 159

    13.1.1 Congestion Impacts on Travelers. . . . . 159

    13.1.2 Congestion Impacts on Business Costs . . . . . 160

13.2 Calculating the Costs of Traffic Congestion . . . . . 161

    13.2.1 Components of Congestion Costs . . . . . 162

13.3 Implication. . . . . 180

References. . . . . 180

**Part III Congestion Relief Strategies**

**14 Overview of Congestion Relief Strategies . . . . . 185**

14.1 Introduction . . . . . 185

14.2 Framing Strategies for Managing Nonrecurring  
Congestion. . . . . 186

14.3 Framing the Strategies for Managing Recurring  
Traffic Congestion . . . . . 186

    14.3.1 Overview . . . . . 187

14.4 Strategies That Address the Causes of Congestion. . . . . 189

    14.4.1 Cause: Recurring Peaking of Travel Demand . . . . . 189

    14.4.2 Cause: Concentration of Activities . . . . . 191

    14.4.3 Cause: Area-wide Demand Growth Exceeding  
Capacity Growth. . . . . 192

    14.4.4 Cause: Bottlenecks (Operational, Physical,  
Incident-Induced, Weather, Special Events,  
Work Zones) . . . . . 193

14.5 Summary . . . . . 194

References. . . . . 195

**15 Managing Nonrecurring Congestion . . . . . 197**

15.1 Introduction . . . . . 197

15.2 Incidents . . . . . 198

    15.2.1 Supply Strategies . . . . . 201

    15.2.2 Demand Reduction Strategies . . . . . 201

15.3 Special Events . . . . . 201

    15.3.1 Supply Strategies . . . . . 202

    15.3.2 Demand Reduction Strategies . . . . . 202

15.4 Inclement Weather . . . . . 202

    15.4.1 Supply Strategies . . . . . 202

    15.4.2 Demand Strategies . . . . . 203

15.5 Work Zones . . . . . 203

    15.5.1 Supply Strategies . . . . . 203

- 15.5.2 Demand Strategies . . . . . 203
- 15.6 Information Technology (IT) . . . . . 204
  - 15.6.1 Active Traffic and Demand Management (ATDM) . . . . . 204
- 15.7 Examples of Best Practice . . . . . 204
  - 15.7.1 Institutional Best Practices . . . . . 204
  - 15.7.2 Regional Cooperation in Managing Nonrecurring Events . . . . . 205
  - 15.7.3 Road User Benefits . . . . . 210
- 15.8 Summary Assessment of Experiences in Managing/Mitigating Nonrecurring Congestion . . . . . 210
- References. . . . . 211

**16 Adaptation Strategies for Managing Recurring**

- Congestion—Operational Improvements . . . . . 213**
- 16.1 Introduction . . . . . 213
- 16.2 Scope . . . . . 213
- 16.3 Analysis Overview . . . . . 214
- 16.4 Traffic Signal Timing and Coordination . . . . . 214
  - 16.4.1 Signal Location and Spacing . . . . . 215
  - 16.4.2 Cycle Length . . . . . 215
  - 16.4.3 Cycle Phases . . . . . 216
  - 16.4.4 Coordination . . . . . 216
  - 16.4.5 Operating Strategies . . . . . 217
  - 16.4.6 Equipment . . . . . 217
  - 16.4.7 Costs . . . . . 217
  - 16.4.8 Reported Time Savings . . . . . 218
- 16.5 Curb Parking and Loading Zone Management . . . . . 218
  - 16.5.1 Curb Parking Restrictions. . . . . 219
  - 16.5.2 Installation Guidelines . . . . . 219
  - 16.5.3 Congestion Relief Benefits of Curb Parking Management. . . . . 220
- 16.6 Intersection Turn Controls and Management. . . . . 221
  - 16.6.1 Managing Right Turns. . . . . 221
  - 16.6.2 Managing Left Turns. . . . . 222
  - 16.6.3 Left-Turn Treatment Options . . . . . 222
- 16.7 One Way Streets. . . . . 225
  - 16.7.1 User Benefits . . . . . 225
  - 16.7.2 Advantages of One-Way Operations . . . . . 226
  - 16.7.3 Disadvantages of One-Way Operations . . . . . 226
  - 16.7.4 Applications of One-Way Streets . . . . . 227
  - 16.7.5 Types of One-Way Streets . . . . . 227
  - 16.7.6 Installation Guidelines . . . . . 228

16.7.7	One-Way Toll Collection . . . . .	228
16.8	Changeable Lane Assignments . . . . .	228
16.8.1	Benefits from Applications . . . . .	229
16.8.2	Types and Extent of Applications . . . . .	229
16.8.3	Strength and Weaknesses . . . . .	230
16.8.4	Application Guidelines. . . . .	230
16.9	Ramp Controls . . . . .	231
16.9.1	Applications . . . . .	231
16.9.2	Control Types and Methods . . . . .	231
16.9.3	Benefits . . . . .	232
16.10	Access Management . . . . .	232
16.10.1	Basic Principles . . . . .	233
16.10.2	Access Control Methods . . . . .	234
16.10.3	Access Design Concepts . . . . .	234
16.10.4	Traffic Speed and Safety Impacts of Access Management Practices . . . . .	235
16.10.5	Conclusions . . . . .	235
16.11	Emerging Congestion Management Strategies. . . . .	236
16.11.1	Intelligent Transportation Systems (ITS) . . . . .	236
16.11.2	Integrated Corridor Management (ICM)/Active Traffic Management (ATDM). . . . .	238
16.12	Conclusions . . . . .	239

**Part IV Conclusions**

- 24 Recap and Concluding Observations . . . . . 387**
  - 24.1 Introduction . . . . . 387
  - 24.2 Types of Congestion . . . . . 387
  - 24.3 Causes of Congestion . . . . . 388
  - 24.4 Measuring Traffic Congestion Delay . . . . . 388
  - 24.5 Consequences of Congestion . . . . . 389
    - 24.5.1 Trip Time . . . . . 389
    - 24.5.2 Mobility . . . . . 389
    - 24.5.3 Accessibility . . . . . 389
    - 24.5.4 Traffic Productivity . . . . . 390
    - 24.5.5 Crashes . . . . . 390
    - 24.5.6 Air Quality and Health . . . . . 390
    - 24.5.7 Congestion Costs . . . . . 390
  - 24.6 Congestion Relief Strategies . . . . . 391
    - 24.6.1 General Principles . . . . . 391
    - 24.6.2 Strategies that Relieve Nonrecurring Congestion . . . . . 392
    - 24.6.3 Strategies that Relieve Recurring Congestion . . . . . 392

- 24.6.4 Implementation Issues . . . . . 393
- 24.7 Typical Application Scenarios. . . . . 395
  - 24.7.1 Isolated Intersections . . . . . 395
  - 24.7.2 Suburban Areas . . . . . 395
  - 24.7.3 Suburban Mega Centers . . . . . 396
  - 24.7.4 Central Business Districts (CBD) of Large Cities . . . 396
  - 24.7.5 Metropolitan Transportation Corridors . . . . . 397
- 24.8 Future Outlook . . . . . 398
  - 24.8.1 How Will Travel Demand Change in the Future? . . . 398
  - 24.8.2 How Will the Transportation System Change  
in the Future? . . . . . 399
  - 24.8.3 How Will Regional Governance Change  
in the Future? . . . . . 400
- 24.9 Conclusions . . . . . 401
