Contents

Road

Utilising SCM – MIMO Channel Model Based on V-BLAST Channel Coding in V2V Communication .............................................. 3
   Ahmad Baheej Al-Khalil, Scott Turner, and Ali Al-Sherbaz

   Subha P. Eswaran, Jyotsna Bapat, and V. Ariharan

Cross-Layer Design Based Transmit Antenna Selection for Vehicular Ad-hoc Networks ............................................................. 24
   Basma Bouraoui, Marie Zwingelstein-Colin, Mohamed Gharbi, Iyad Dayoub, and Rabah Attia

F-ETX: An Enhancement of ETX Metric for Wireless Mobile Networks ............................................................................. 35
   Sebastien Bindel, Serge Chaumette, and Benoit Hilt

City-Obstacles Impact on OLSR-Based Routing Protocols ................. 47
   Mohamed Belhassen, Amine Dhraief, and Abdelfettah Belghith

TCP Application Recovery Improvement After Handover in Mobile Networks .................................................................................. 60
   Hajer Souri, Amine Dhraief, and Abdelfettah Belghith

Effective Certificate Distribution in ETSI ITS VANETs Using Implicit and Explicit Requests ......................................................... 72
   Sebastian Bittl, Berke Aydinli, and Karsten Roscher

QoE-Driven Video Streaming System over Cloud-Based VANET ........ 84
   Sofiene Jelassi, Amna Bouzid, and Habib Youssef

Augmented Reality Based Traffic Sign Recognition for Improved Driving Safety ................................................................. 94
   Lotfi Abdi, Aref Meddeb, and Faten Ben Abdallah

Evolving Traffic Scenarios to Test Driver Assistance Systems in Simulations ................................................................. 103
   Torsten Steiner
Rail

QoS-Aware Radio Access Technology (RAT) Selection in Hybrid Vehicular Networks .............................................. 117
Zeeshan Hameed Mir, Jamal Toutouh, Fethi Filali, and Enrique Alba

Performance Analysis of ITS-G5 for Dynamic Train Coupling Application ......................................................... 129
Hong Quy Le, Andreas Lehner, and Stephan Sand

Fair Preemption for Joint Delay Constrained and Best Effort Traffic Scheduling in Wireless Networks ........................................... 141
Nicolas Gresset and Hervé Bonneville

Unleashing the Potential of LTE for Next Generation Railway Communications ......................................................... 153
Paula Fraga-Lamas, José Rodríguez-Piñeiro, José A. García-Naya, and Luis Castedo

Broadband Internet Access on Board High Speed Trains, A Technological Survey ........................................... 165
Émilie Masson, Marion Berbineau, and Sébastien Lefebvre

The Adoption of Public Telecom Services for the Evolution of the ERTMS-ETCS Train Control Systems: Challenges and Opportunities... 177
Franco Mazzenga, Romeo Giuliano, Alessandro Neri, Francesco Rispoli, Agostino Ruggeri, Maurizio Salvitti, Emiliano Del Signore, and Valerio Fontana

Air

Towards a Deterministic Mixed Criticality High Availability Seamless Redundancy (HSR) Ring .............................................. 191
Peter Heise, Fabien Geyer, Alexandros Elefsiniotis, and Roman Obermaisser

A Review on Collision Avoidance Systems for Unmanned Aerial Vehicles ....................................................... 203
Imen Mahjri, Amine Dhraief, and Abdelfettah Belghith

Performance of Context-Aware Publish/Subscribe Systems for AANET ....................................................... 215
Mickaël Royer, Alain Pirovano, and Fabien Garcia

Emulation-Based Performance Evaluation of Routing Protocols for Uaanets .................................................... 227
Jean-Aimé Maxa, Gilles Roudiere, and Nicolas Larrieu

Author Index ............................................................................. 241
Communication Technologies for Vehicles
8th International Workshop,
Nets4Cars/Nets4Trains/Nets4Aircraft 2015, Sousse,
Tunisia, May 6-8, 2015. Proceedings
Kassab, M.; Berbineau, M.; Vinel, A.; Jonsson, M.; Garcia,
F.; Soler, J. (Eds.)
2015, XII, 241 p. 45 illus., Softcover
ISBN: 978-3-319-17764-9
