# Contents

## Part I  Biochemistry, Molecular Biology and Chemistry
**H₂S Synthesizing Enzymes: Biochemistry and Molecular Aspects**  .................................................. 3  
Caleb Weihao Huang and Philip Keith Moore

## Part II  Molecular Mechanisms of Action
**Persulfidation (S-sulfhydration) and H₂S**  ........................................ 29  
Milos R. Filipovic

**Physiological Roles of Hydrogen Sulfide and Polysulfides**  61  
Hideo Kimura

## Part III  Cardiovascular and Urogenital Systems
**H₂S and Blood Vessels: An Overview**  85  
Guangdong Yang and Rui Wang

**Hydrogen Sulfide and Urogenital Tract**  111  
Roberta d’Emmanuele di Villa Bianca, Giuseppe Cirino, and Raffaella Sorrentino

**H₂S Is a Promoter of Angiogenesis: Identification of H₂S “Receptors” and Its Molecular Switches in Vascular Endothelial Cells**  137  
Bei-Bei Tao, Wen-Jie Cai, and Yi-Chun Zhu

**Hydrogen Sulfide and Platelets: A Possible Role in Thrombosis**  153  
Michael Emerson

## Part IV  Inflammation and Inflammatory Disease
**H₂S and Inflammation: An Overview**  165  
Madhav Bhatia
Hydrogen Sulfide and Neuroinflammation .......................... 181
Kotaro Kida and Fumito Ichinose

Part V  $H_2S$ and the Nervous System

Brain, Learning, and Memory: Role of $H_2S$ in Neurodegenerative Diseases .................................................. 193
B.V. Nagpure and Jin-Song Bian

$H_2S$ and Pain: A Novel Aspect for Processing of Somatic, Visceral and Neuropathic Pain Signals .............................. 217
Yuka Terada and Atsufumi Kawabata

Part VI $H_2S$, Angiogenesis and Cancer

Hydrogen Sulfide and Cancer ........................................ 233
Mark R. Hellmich and Csaba Szabo

Role of $H_2S$ Donors in Cancer Biology .......................... 243
Zheng-Wei Lee and Lih-Wen Deng

Part VII $H_2S$ and Ageing

$H_2S$: A New Approach to Lifespan Enhancement and Healthy Ageing .................................................. 269
Bedoor Qabazard and Stephen R. Stürzenbaum

Part VIII $H_2S$, Measurement and Possible Therapeutics?

Fluorescent Probes for $H_2S$ Detection and Quantification .......... 291
Wei Feng and Brian W. Dymock

The Pharmacological Effects of S-Propargyl-Cysteine, a Novel Endogenous $H_2S$-Producing Compound ...................... 325
Ya-Dan Wen and Yi-Zhun Zhu

Phosphinodithioate and Phosphoramidodithioate Hydrogen Sulfide Donors .................................................. 337
Matthew Whiteman, Alexis Perry, Zongmin Zhou, Mariarosaria Bucci, Andreas Papapetropoulos, Giuseppe Cirino, and Mark E. Wood

Medicinal Chemistry: Insights into the Development of Novel $H_2S$ Donors .................................................. 365
Yu Zhao, Armando Pacheco, and Ming Xian

Index .............................................................. 389
Chemistry, Biochemistry and Pharmacology of Hydrogen Sulphide
Moore, P.K.; Whiteman, M. (Eds.)
2015, VI, 395 p. 172 illus., 27 illus. in color., Hardcover
ISBN: 978-3-319-18143-1
