# Contents

## Cognitive Aspects of Display and Information Design

The Development of a Method to Assess the Effects of Traffic Situation and Time Pressure on Driver Information Preferences .......................... 3  
*Alexander Eriksson, Ignacio Solis Marcos, Katja Kircher, Daniel Västfjäll, and Neville A. Stanton*

Distraction and Driving Behavior by Presenting Information on an “Emissive Projection Display” Compared to a Head-up Display ........ 13  
*Verena C. Knott, Stefan Demmelmair, and Klaus Bengler*

Modeling Situation Awareness on Alarm Displays in Nuclear Power Plants ................................................................. 24  
*Sheau-Farn Max Liang and Chih-Wei Chen*

A Study of Multi-target Visual Search by Eye Movement Behavior ........ 34  
*Zhongqi Liu, Zhaofang Xu, Qianxiang Zhou, Fang Xie, and Shihua Zhou*

Effects of Auditory and Tactile Warning on Drivers’ Response to Hazard Under Noisy Environment ............................... 45  
*Atsuo Murata and Takashi Kuroda*

Study on Event-Related Potential of Information Alarm in Monitoring Interface ................................................................. 54  
*Jiang Shao, Chengqi Xue, Haiyan Wang, Wencheng Tang, and Yafeng Niu*

Effect of Icon Density and Color Contrast on Users’ Visual Perception in Human Computer Interaction ................................. 66  
*Zhangfan Shen, Chengqi Xue, Jing Li, and Xiaozhou Zhou*

Prevalence Effects in X-Ray Screening Tasks with a Static or Dynamic Visual Display: Is There Any Difference? .............................. 77  
*Lingyu Wang and Xianghong Sun*

Visual Comfort and Fatigue Between Watching Linear Polarized and Circular Polarized LCD TVs as Measured by Eye Tracking ......... 84  
*Yunhong Zhang, Chaoyi Zhao, and Xin Zhang*

## Applied Cognitive Psychology

Visual Behavior Analysis of Human Performance in Precision Tasks .......... 95  
*Nitesh Bhatia, Dibakar Sen, and Anand V. Pathak*
The Effect of Simulated Threat on Task Performance During Emotion Recognition

Tibor Bosse and Koen Schnitfink

107

It’s Dark in There: Using Systems Analysis to Investigate Trust and Engagement in Dark Web Forums.

David Lacey and Paul M. Salmon

117

A CMF Database Framework Design-A Case of Application of User Mental Model.

Jikun Liu, Chenyu Zhao, and Hengfeng Zuo

129

Gamification Design Based Research on Speech Training System for Hearing-Impaired Children

Qiang Liu, Fengjiao Cai, Ying Yang, and Ting Han

140

Billy Muhamad Iqbal, Amalia Suzianti, and Boy Nurtjahyo

152

Seeing Officiating as a Sociotechnical System – The Case for Applying Distributed Situation Awareness to Officials in Sport

Timothy J. Neville and Paul M. Salmon

164

Towards a Continuous Method for Mental Workload Registration

Thea Radüntz and Gabriele Freude

176

Black or White? Influence of Robot Arm Contrast on Distraction in Human-Robot Interaction

Jonas Schmidtler, Asuman Sezgin, Thomas Illa, and Klaus Bengler

188

New Knowledge for Built Environments: Exploring Urban Design from Socio-technical System Perspectives

Nicholas J. Stevens and Paul M. Salmon

200

Safety, Risk and Human Reliability

Bridging the Research-Practice Gap: Validity of a Software Tool Designed to Support Systemic Accident Analysis by Risk Managers

Natassia Goode, Paul M. Salmon, Natalie Z. Taylor, Michael G. Lenné, and Caroline F. Finch

215

“How Do I Save It?” Usability Evaluation of a Systems Theory-Based Incident Reporting Software Prototype by Novice End Users

Eryn Grant, Natassia Goode, Paul M. Salmon, Michael G. Lenné, Bridie Scott-Parker, and Caroline F. Finch

226
Sorry, I’m Late; I’m Not in the Mood: Negative Emotions Lengthen Driving Time ................................................................. 237
   Myounghoon Jeon and Jayde Croschere

Primacy of Immediate Reward Underlying Violation: Basic Study on Safety Management ....................................................... 245
   Atsuo Murata, Yukio Ohta, and Makoto Moriwaka

An Attempt to Predict Driver’s Drowsiness Using Trend Analysis of Behavioral Measures .................................................... 255
   Atsuo Murata, Kohei Fukuda, and Koh Yoshida

An Attempt to Predict Point in Time with High Risk of Crash Using Psychological Rating on Drowsiness and X-Bar Chart of Behavioral Measures .................................................... 265
   Atsuo Murata and Kensuke Naitoh

The Elephant in the Room: Normal Performance and Accident Analysis .... 275
   Paul M. Salmon, Natassia Goode, Erin Stevens, Guy Walker, and Neville A. Stanton

Inverting Traditional Views on Human Task-Processing Behavior by Focusing on Abilities Instead of Disabilities – A Discussion on the Functional Situation Management of Drivers to Solve Demanding Situations .................................................... 286
   Maximilian Schwalm, Gudrun Mechthild Irmgard Voß, and Stefan Ladwig

What the Death Star Can Tell Us About System Safety ................. 297
   Guy Walker, Paul Salmon, and Neville A. Stanton

Aviation and Space Safety

How 3D-Displays in ATC Permit Direct Event Perception ............... 309
   Andreas Baier and Alf Zimmer

How Automation Effect Mental Workload of Novice Operators in Space Rendezvous and Docking .................................................. 317
