Contents

Part I  Signal Processing

Method of Analysing Non-stationary Electrical Signals ............... 3
Georgia Cablea, Pierre Granjon and Christophe Bérenguer

Electrical Modeling for Faults Detection Based on Motor
Current Signal Analysis and Angular Approach .......................... 15
Aroua Fourati, Nabih Feki, Adeline Bourdon, Didier Rémond,
Fakher Chaari and Mohamed Haddar

Electrical Induction Motor Higher Harmonics Analysis
Based on Instantaneous Angular Speed Measurement .................. 27
Marco Spagnol, Luigi Bregant and Alessandro Boscarol

Evaluation and Improvement of Accuracy in the Instantaneous
Angular Speed (IAS) and Torsional Vibration Measurement
Using Zebra Tapes ................................................................. 43
Antonio Palermo, Karl Janssens and Laurent Britte

Vibration Analysis of Copper Ore Crushers Used in Mineral
Processing Plant—Problem of Bearings Damage Detection
in Presence of Heavy Impulsive Noise ........................................ 57
Radoslaw Zimroz, Jakub Obuchowski and Agnieszka Wylomańska

Analysis and Signal Processing of a Gearbox Vibration Signal
with a Defective Rolling Element Bearing ................................. 71
Nader Sawalhi and Suri Ganeriwala

Monitoring Based on Time-Frequency Tracking of Estimated
Harmonic Series and Modulation Sidebands ............................... 87
Timothée Gerber, Nadine Martin and Corinne Mailhes
Blind Extraction of Instantaneous Frequency for Order Tracking in Rotating Machines Under Non-stationary Operating Conditions ................................................................. 99
O. Cardona-Morales, E.F. Sierra-Alonso and G. Castellanos-Dominguez

New Criteria for Adaptive Blind Deconvolution of Vibration Signals from Planetary Gearbox ......................................................... 111
Jakub Obuchowski, Agnieszka Wyłomanska and Radoslaw Zimroz

Automatic and Full-Band Demodulation for Fault Detection—Validation on a Wind Turbine Test Rig ................................. 127
Marcin Firla, Zhong-Yang Li, Nadine Martin and Tomasz Barszcz

Robust Information Indices for Diagnosing Mechanical Drives Under Non-stationary Operating Conditions ......................... 139
Boštjan Dolenc, Pavle Boškoski and Dani Juričić

Empirical Mode Decomposition Combined with Empirical Wavelets for Extracting Bearing Frequencies in a Noisy Environment and Early Detection of Defects .......................... 151
Mourad Kedadouche, Marc Thomas and Antoine Tahan

Knife Diagnostics with Empirical Mode Decomposition ...................... 167
Michele Cotogno, Marco Cocconcelli and Riccardo Rubini

Detection of Gear Faults in Variable Rotating Speed Using EEMD Decomposition and Instantaneous Frequency ......................... 177
Hafida Mahgoun, Ahmed Felkaoui, Semchedine Fedala and Fakher Chaari

Multidimensional Signal Analysis for Technical Condition, Operation and Performance Understanding of Heavy Duty Mining Machines ......................................................... 197
Pawel K. Stefaniak, Radoslaw Zimroz, Pawel Sliwinski, Marek Andrzejewski and Agnieszka Wyłomanska

Part II Data Mining

Analyzing State Dynamics of Wind Turbines Through SCADA Data Mining ................................................................. 213
Francesco Castellani, Davide Astolfi and Ludovico Terzi
