Contents – Part II

Health Care Technologies and Services for the Elderly

The Role of Health Status in Older Adults’ Perceptions of the Usefulness of eHealth Technology.............................................. 3
  Ryan Best, Dustin J. Souders, Neil Charness, Tracy L. Mitzner, and Wendy A. Rogers

The Use of Smartwatches for Health Monitoring in Home-Based Dementia Care .......................................................... 15
  Costas Boletsis, Simon McCallum, and Brynjar Fowels Landmark

Lack of Development and Usability Descriptions in Evaluation Reports on Online Health Information Tools for Older Patients ........ 27
  Sifra Bolle, Julia C.M. van Weert, Ellen M.A. Smets, and Eugène F. Loos

Older Users’ Rejection of Mobile Health Apps a Case for a Stand-Alone Device? ............................................................. 38
  André Calero Valdez and Martina Ziefe

Delivering Telemonitoring Care to Digitally Disadvantaged Older Adults: Human-Computer Interaction (HCI) Design Recommendations .......................... 50
  Hongtu Chen and Sue E. Levkoff

Accessibility in Serious Games for Adults Aging with Disability ................................................................. 61
  Keiko Gomez-Gurley, Anne Collins McLaughlin, Maribeth Gandy Coleman, and Jason C. Allaire

  Diana Hodgins and Ian McCarthy

Opportunities for Technology: Translating an Efficacious Intervention to Improve Medication Adherence Among Older Adults .......... 82
  Kathie Insel, Jeannie K. Lee, Gilles O. Einstein, and Daniel G. Morrow

Taiwanese Middle-Aged and Elderly Patients’ Acceptance and Resistance Toward the Health Cloud ........................................ 89
  Wen-Tsung Ku and Pi-Jung Hsieh
Multi-disciplinary Design and In-Home Evaluation of Kinect-Based Exercise Coaching System for Elderly ................................................................. 101
Gregorij Kurillo, Ferda Ofli, Jennifer Marcoe, Paul Gorman, Holly Jimison, Misha Pavel, and Ruzena Bajcsy

Considerations in Evaluating Technologies in Memory Care Units ............ 114
Amanda Lazar, Hilaire J. Thompson, and George Demiris

Influence of Mobile ICT on the Adherence of Elderly People with Chronic Diseases ................................................................. 123
Alexander Mertens, Peter Rasche, Sabine Theis, Matthias Wille, Christopher Schlick, and Stefan Becker

Principles for Developing Digital Health Interventions for Prostate Cancer: A Community-Based Design Approach with African American Men .......... 134
Otis L. Owens

Evaluation of Complex Distributed Multimodal Applications: Evaluating a TeleRehabilitation System When It Really Matters ................. 146
Carlos Pereira, Nuno Almeida, Ana Isabel Martins, Samuel Silva, Ana Filipa Rosa, Miguel Oliveira e Silva, and António Teixeira

Innovative Technology-Based Healthcare and Support Services for Older Adults: How and Why Industrial Initiatives Convert to the Living Lab Approach ................................................................. 158
Maribel Pino, Caroline Moget, Samuel Benveniste, Robert Picard, and Anne-Sophie Rigaud

Developing Radical-Digital Interventions to Tackle Loneliness Amongst the Elderly ................................................................. 170
Dhruv Sharma, Lynne Blair, and Stephen Clune

Effects of Using Care Professionals in the Development of Social Technology for Elderly ................................................................. 181
Marie Sjölinder and Isabella Scandurra

More Light! Improving Well-Being for Persons Suffering from Dementia . . 193
Charlotte A. Sust, Peter Dehoff, Christina Hallwirth-Spöck, Dieter Lang, and Dieter Lorenz

The Design of Pain Management and Creative Service for Older Adults with Chronic Disease ................................................................. 201
Wang-Chin Tsai, Chia-Ling Chang, and Hsuan Lin

The Design of Mobile Technology to Support Diabetes Self-management in Older Adults ................................................................. 211
Laura A. Whitlock, Anne Collins McLaughlin, Maurita Harris, and Jessica Bradshaw
Design and Fabricate Neckwear to Improve the Elderly Patients’ Medical Compliance ................................................................. 222
   Xiaolong Wu, Young Mi Choi, and Maysam Ghovanloo

**Home and Work Support**

Psychosocial Approach of Skills Obsolescence in Older Workers: Contribution of Methodological Triangulation .......................... 237
   Florence Cros, Marc-Eric Bobillier Chaumon, and Bruno Cuvillier

HAVAS: The Haptic Audio Visual Sleep Alarm System ................................. 247
   Ali Danesh, Fedwa Laamarti, and Abdulmotaleb El Saddik

CogniWin – A Virtual Assistance System for Older Adults at Work ............... 257
   Sten Hanke, Hugo Meinedo, David Portugal, Marios Belk, João Quintas, Eleni Christodoulou, Miroslav Sili, Miguel Sales Dias, and George Samaras

Developing Mobile Application Design of Virtual Pets for Caring for the Elderly ................................................................. 269
   Hsiu Ching Laura Hsieh

Implementing the SimpleC Companion: Lessons Learned from In-Home Intervention Studies ...................................................... 278
   Chantal Kerssens, Renu Kumar, Anne Edith Adams, Camilla C. Knott, and Wendy A. Rogers

Investigation of Sensitivity of Foot Soles to Vibrational Stimuli: First Results for Developers of Information Interfaces ................. 290
   Stefan Lutherdt, Eva Kaiser, Tim Kirchhofer, Philipp Wegerich, and Hartmut Witte

Robotic Interfaces Design: Avatar and GUI Competing for Older User’s Attention ................................................................. 300
   Angie L. Marin Mejia

An Adaptable AR User Interface to Face the Challenge of Ageing Workers in Manufacturing ......................................................... 311
   Maura Mengoni, Matteo Iualè, Margherita Peruzzini, and Michele Germani

Development of Caricature Robots for Interaction with Older Adults .......... 324
   Jeffrey Sebastian, Chih-Yin Tai, Kim Lindholm, and Yeh-Liang Hsu

Computer Input Devices and the Elderly: A Musculoskeletal Disorder Focus ................................................................. 333
   Alvaro D. Taveira and Sang D. Choi
Development of Automatic Speech Recognition Techniques for Elderly Home Support: Applications and Challenges .......................................................... 341
   Michel Vacher, Frédéric Aman, Solange Rossato, and François Portet

   Verena Wagner and K. Wolfgang Kallus

Smart Environments and AAL

Spatial Modeling Factors in Sensor-Based Ambient Assisted Living Technologies Designed for Ageing Populations .......................................................... 367
   Dua’a Al-Hajjar, Reem Al Ehaidib, Sarah Al Muhanna, May Al Sohibani, and Areej Al-Wabil

Modeling the Interaction and Control of Smart Universal Interface for Persons with Disabilities .......................................................... 377
   Shady Aly, Ghassan Kbar, Mohammed Abdullah, and Ibraheem Al-Sharawy

Signing Off: Predicting Discontinued ICT Usage Among Older Adults in Assisted and Independent Living: A Survival Analysis .......................................................... 389
   Ronald W. Berkowsky, R.V. Rikard, and Shelia R. Cotten

Understanding the Socio-Domestic Activity: A Challenge for the Ambient Technologies Acceptance in the Case of Homecare Assistance .......................................................... 399
   Salima Body-Bekkadja, Marc-Eric Bobillier-Chaumon, Bruno Cuvillier, and Florence Cros

The Wearable Multimodal Monitoring System: A Platform to Study Falls and Near-Falls in the Real-World .......................................................... 412
   Tracy Jill Doty, Bret Kellihan, Tzyy-Ping Jung, John K. Zao, and Irene Litvan

Smart Textiles as Intuitive and Ubiquitous User Interfaces for Smart Homes .......................................................... 423
   Julian Hildebrandt, Philipp Brauner, and Martina Ziefle

Designing an Indoor Navigation System for Elderly People’s Capabilities .......................................................... 435
   Mathias Källström, Sondre Berdal, and Suhas Govind Joshi

Exploring Use Cases of Smart Presence for Retirement Communities .......................................................... 446
   Karina R. Liles, Rachel E. Stuck, Allison A. Kacmar, and Jenay M. Beer

A Meta User Interface for Understandable and Predictable Interaction in AAL .......................................................... 456
   Aida Mostafazadeh, Ali Asghar Nazari Shirehjini, and Sara Daraei
Giving Elderly Access to Smart Environments: Providing Adaptive User Interfaces Based on Web Components, the Universal Remote Console and the Global Public Inclusive Infrastructure. .............................. 465

Lukas Smirek, Alexander Henka, and Gottfried Zimmermann

Communication, Games and Entertainment

Baby Boomers and Gaze Enabled Gaming ........................................... 479

Soussan Djamashi, Siavash Mortazavi, and Mina Shojaeizadeh

Assessing Older Adults’ Usability Challenges Using Kinect-Based Exergames .......................................................... 488

Christina N. Harrington, Jordan Q. Hartley, Tracy L. Mitzner, and Wendy A. Rogers

Play for the Elderly - Effect Studies of Playful Technology ............... 500

Henrik Hautop Lund

TwitterIDO: What if My Shopping Bag Could Tell My Friends I’m Out Shopping ............................................................... 512

Elena Nazzi and Tomas Sokoler

Designing Cross-Age Interaction Toys for Older Adults and Children .... 524

Wang-Chin Tsai, Chi-Hsien Hsu, and Kung-Chih Lo

A Slow Game Design for Elderly with Their Family and Friends ........ 533

Yi-Sin Wu and Teng-Wen Chang

Author Index ..................................................................................... 541
Contents – Part I

HCI Design and Evaluation Methods for the Elderly

The Benefits of Involving Older People in the Design Process .......................... 3
  Britt Östlund

Emotions Identification to Measure User Experience Using Brain Biometric Signals ......................................................................................................................... 15
  Ivan Carrillo, Victoria Meza-Kubo, Alberto L. Morán, Gilberto Galindo, and Eloisa García-Canseco

Adopting Scenario-Based Design to Increase the Acceptance of Technology Innovations for Older People ................................................................. 26
  Diego Compagna and Florian Kohlbacher

Constructing Third Age eHealth Consumers by Using Personas from a Cultural Age Perspective ................................................................. 35
  Maria Ekström and Eugène Loos

Capturing Older People’s Cognitive Capability Data for Design ....................... 44
  Shan Huang and Hua Dong

Designing Tangible Interactions for Aged Users Though Interactive Technology Prototyping ................................................................. 53
  Wei Liu and Yanrui Qu

Developing a Framework for Effective Communication with Older People ........ 61
  Ying Jiang, Hua Dong, and Shu Yuan

Music in the Retiring Life: A Review of Evaluation Methods and Potential Factors ........................................................................................................ 73
  Mao Mao, Alan F. Blackwell, and David A. Good

Collecting Old People’s Data for More Accessible Design: A Pilot Study ......... 84
  Weining Ning and Hua Dong

Time Reduction Design Method for Cognitive Assist Technology .................... 94
  Junji Ohyama, Nana Itoh, Kenji Kurakata, and Ken Sagawa

A Robot of My Own: Participatory Design of Socially Assistive Robots for Independently Living Older Adults Diagnosed with Depression ............ 104
  Selma Šabanović, Wan-Ling Chang, Casey C. Bennett, Jennifer A. Piatt, and David Hakken
Contents – Part I

Universal Design as an Approach to Technology Intervention for Seniors . . . 115
  Jon A. Sanford

A Living Lab Method for Innovations to Increase Quality of Life
for Elderly - A Pilot Case . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 123
  Isabella Scandurra, Madeleine Blusi, and Rolf Dalin

Talking Faces in Lab and Field Trials: A View on Evaluation Settings
and User Involvement Results of Avatar Based User Interaction Techniques
in Three Ambient Assisted Living Projects . . . . . . . . . . . . . . . . . . . . . . . . 134
  Miroslav Sili, Jan Bobeth, Emanuel Sandner, Sten Hanke,
  Stephanie Schwarz, and Christopher Mayer

Gamification and Accessibility . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 145
  Andreas Stiegler and Gottfried Zimmermann

ICT Use and Acceptance

Evaluating All-Inclusive ICT with Developers, End Users
and Stakeholders . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 157
  Eleni Chalkia, Evangelos Bekiaris, and R. Ignacio Madrid

Access and Use of ICTs Among the Italian Young Elderly: A Field Study . . 166
  Fausto Colombo and Simone Carlo

Patterns of ICT Use among “Senior Technology Experts”:
The Role of Demographic Variables, Subjective Beliefs and Attitudes . . . 177
  Michael Doh, Laura I. Schmidt, Florian Herbolsheimer, Mario Jokisch,
  and Hans-Werner Wahl

Why Age Is Not that Important? An Ageing Perspective on Computer
Anxiety . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 189
  Mireia Fernández-Ardèvol and Loredana Ivan

Values and Ethics in Making Emerging Technologies Work
for Older People . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 201
  Caroline Holland

Accessing InterACTion: Ageing with Technologies and the Place
of Access . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 210
  Constance Lafontaine and Kim Sawchuk

Review of Empirical Research in Recent Decade About the Use of IT
for Older Adults . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . 221
  Yi-Chang Li
