

Contents

1 Introduction	1
1.1 Implanted Bio-devices	1
1.2 Present and Future	2
1.2.1 Rodents in Research	4
1.2.2 Modelling Biomedical Systems	5
1.3 Integrated Biomedical Systems.....	6
1.4 Reach of Care Extension.....	6
1.5 Motivation and Background	9
References	10
2 Implantable Monitoring System for Rodents	13
2.1 Bio-monitoring Systems	13
2.2 System Overview and Specifications.....	13
2.2.1 Rodents and Housing	14
2.2.2 Multi-sensor Systems.....	15
2.3 State of the Art	17
2.4 Challenges and Objectives.....	19
References	21
3 Short-Range Remote Powering of Implantable Sensor System	25
3.1 Power Sources for Remotely Powered Systems	25
3.1.1 Use of Kinetic Energy	25
3.1.2 Use of Thermal Energy	28
3.1.3 Use of Light Energy	29
3.1.4 Use of Bio-fuel.....	29
3.1.5 Use of Radio Frequency	29
3.1.6 Use of Ultrasound.....	31
3.2 Wireless Power Transfer	32
3.2.1 Remote Powering Link	32
3.2.2 Link Drivers.....	42
3.3 Implantable Remote Powering Electronics	55
3.3.1 Rectifier	55

3.3.2	Voltage Regulator	59
3.3.3	Reference Voltage Generation	64
3.3.4	Power on Reset	65
3.3.5	Dynamic Power Adaptation and Power Feedback Loop	67
References	73
4	Wireless Communication	77
4.1	Communication Scenarios	77
4.2	A FoM to Compare the Effect of Communications on Remotely Powered Systems	78
4.2.1	Remote Powering	79
4.2.2	Communication	80
4.2.3	Powering During Communication	83
4.2.4	Figure-of-Merit	86
4.3	Downlink Communication	89
4.3.1	ASK Demodulator	89
4.4	Uplink Communication	96
4.4.1	Low-Power OOK Transmitter	96
4.4.2	Custom Designed Receiver	100
References	102
5	Intelligent Remote Powering System	105
5.1	Introduction	105
5.2	Intelligent Mouse Cage for Remotely Powered Implantable Systems	106
5.2.1	Controller Unit	109
5.2.2	Realization and Verification	110
5.3	Servo-Controlled Remote Powering and Monitoring System	113
5.3.1	Realization and Verification	117
5.3.2	Discussion	124
References	126
6	System Integration and Packaging	129
6.1	System Integration	129
6.2	Packaging and Assembly of Micro-system	130
References	134
7	Conclusion	137
7.1	Outlook	140
A	Locator System for Implantable Devices	141
Glossary	145

Remote Powering and Data Communication for
Implanted Biomedical Systems

Gurhan Kilinc, E.; Dehollain, C.; Maloberti, F.

2016, X, 146 p., Hardcover

ISBN: 978-3-319-21178-7
