## Contents

### Artificial Intelligence Techniques in Bio Medicine

Efficacy of the *Fuzzy Polynucleotide Space* in Phylogenetic Tree Construction ................................................................. 3
  *Awanti Sambarey and Ashok Deshpande*

An Overview of Semantically-Based TCM Telemedicine Systems ................. 17
  *Jackei H.K. Wong and Wilfred W.K. Lin*

Teenagers’ Stress Detection Based on Time-Sensitive Micro-blog Comment/Response Actions .................................................. 26
  *Liang Zhao, Jia Jia, and Ling Feng*

### Artificial Intelligence for Knowledge Management

A Novel Approach for Resolving Knowledge Inconsistency on Ontology Syntactic Level ................................................................. 39
  *Trung Van Nguyen, Jason J. Jung, and Hanh Huu Hoang*

Dynamic Data Mart for Business Intelligence .............................................. 50
  *E. Chang, W. Rahayu, M. Diallo, and M. Machizaud*

ANOVA Based Approach for Efficient Customer Recognition:
Dealing with Common Names ................................................................... 64
  *Morteza Saberi and Zahra Saberi*

Wholesale Power to Hydrogen: Adaptive Trading Approaches in a Smart
Grid Ecosystem ...................................................................................... 75
  *Serkan Özdemir and Rainer Unland*

### Computational Intelligence and Algorithms

Computational Intelligence Approach to Capturing the Implied Volatility........ 85
  *Fahed Mostafa, Tharam Dillon, and Elizabeth Chang*

CCF-Based Awareness in Agent Model ABGP ........................................... 98
  *Zhongzhi Shi, Jinqing Yue, Gang Ma, and Xi Yang*

Evaluation of Recent Computational Approaches in Short-Term Traffic
Forecasting .......................................................................................... 108
  *Haofan Yang, Tharam S. Dillon, and Yi-Ping Phoebe Chen*
### Intelligent Decision Support Systems

A Framework for Interestingness Measures for Association Rules with Discrete and Continuous Attributes Based on Statistical Validity

*Izwan NizalMohd Shaharanee and Jastini Mohd Jamil*

Rule-Based Multi-criteria Framework for SaaS Application Architecture Selection

*Falak Nawaz, Ahmad Mohsin, Syda Fatima, and Naeem Khalid Janjua*

Interleaving Collaborative Planning and Execution Along with Deliberation in Logistics and Supply Chain

*Naeem Khalid Janjua, Omar Khadeer Hussain, and Elizabeth Chang*
