

Contents

Invited Papers

| | |
|---|---|
| Discovering Commonly Shared Semantic Concepts of Eligibility Criteria for Learning Clinical Trial Design. | 3 |
| <i>Tianyong Hao, Xieling Chen, and Guimin Huang</i> | |

| | |
|--|----|
| Strategies in Designing a Media Computing Course to Provide a Discovery-Enriched Curriculum to Students with Diverse Technical Background. | 14 |
| <i>Howard Leung and Yang Yang</i> | |

Collaborative and Peer Learning

| | |
|---|----|
| Closing the Circle: Use of Students' Responses for Peer-Assessment Rubric Improvement | 27 |
| <i>Yang Song, Zhewei Hu, and Edward F. Gehringer</i> | |

| | |
|--|----|
| The Use of Online Corpora as Reference Resources for Revision Tasks in Writing | 37 |
| <i>Qinqin Luo, Weizhen Huang, and Ying Liao</i> | |

E-learning Platform and Tools

| | |
|--|----|
| Educational Program BigData EduCloud at the Faculty of Informatics and Management. | 49 |
| <i>Dagmar El-Hmoudova and Monika Borkovcova</i> | |

| | |
|---|----|
| Adaptive E-Lecture Video Outline Extraction Based on Slides Analysis. | 59 |
| <i>Xiaoyin Che, Haojin Yang, and Christoph Meinel</i> | |

Design, Model and Framework of e-Learning Systems

| | |
|--|----|
| Topic-Specific Recommendation for Open Education Resources | 71 |
| <i>Jun Wang, Junfu Xiang, and Kanji Uchino</i> | |

| | |
|---|----|
| The Web-Based InterUniversity Study | 82 |
| <i>Petra Poulouva and Ivana Simonova</i> | |

Intelligent Tutoring and Tools

Highlights in the Literature Available in Serious Games
for Intellectual Disabilities 95
*Ana R. Cano, Álvaro J. García-Tejedor,
and Baltasar Fernández-Manjón*

Multilingual Access to Educational Material Through Contributive
Post-editing of MT Pre-translations by Foreign Students 109
Ruslan Kalitvianski, Valérie Belynck, and Christian Boitet

Pedagogical Issues

Teaching Simulation for Management Students in LMS 121
Pavel Prazak

Orchestrating Inquiry-Based Learning Spaces: An Analysis
of Teacher Needs 131
*Maria Jesús Rodríguez-Triana, Adrian Holzer, Andrii Vozniuk,
and Denis Gillet*

Re-thinking Digital Textbooks: Students as Co-authors 143
Terje Väljataga, Sebastian H.D. Fiedler, and Mart Laanpere

Personalized and Adaptive Learning

Tracing Self-Regulated Learning in Responsive Open
Learning Environments 155
*Dominik Renzel, Ralf Klamma, Milos Kravcik,
and Alexander Nussbaumer*

ZhihuRank: A Topic-Sensitive Expert Finding Algorithm in Community
Question Answering Websites. 165
Xuebo Liu, Shuang Ye, Xin Li, Yonghao Luo, and Yanghui Rao

Micro Learning Adaptation in MOOC: A Software as a Service
and a Personalized Learner Model. 174
*Geng Sun, Tingru Cui, William Guo, Ghassan Beydoun, Dongming Xu,
and Jun Shen*

Web 2.0 and Social Learning Environments

A Microservice Approach for Near Real-Time Collaborative 3D Objects
Annotation on the Web 187
Petru Nicolaescu, Georgios Toubekis, and Ralf Klamma

Blogging Activities in Higher Education: Comparing Learning Scenarios in Multiple Course Experiences 197
Elvira Popescu, Zuzana Kubincová, and Martin Homola

Integrating Data Across Workplace Learning Applications with a Social Semantic Infrastructure 208
Adolfo Ruiz-Calleja, Sebastian Dennerlein, Vladimir Tomberg, Tobias Ley, Dieter Theiler, and Elisabeth Lex

Applying Speech-to-Text Recognition with Computer-Aided Translation to Facilitate a Web-Based Cross-Cultural Project. 218
Rustam Shadiev, Yueh-Min Huang, Ting-Ting Wu, and Wu-Yuin Hwang

Short Papers

Investigating Students’ Use of Lecture Videos in Online Courses: A Case Study for Understanding Learning Behaviors via Data Mining. 231
Ying-Ying Kuo, Juan Luo, and Jennifer Brielmaier

STEM Teachers’ Community Building Through a Social Tutoring Platform . . . 238
Yiwei Cao, Eleftheria Tsourlidaki, Rob Edlin-White, Diana Dikke, Nils Faltin, Sofoklis Sotiriou, and Denis Gillet

Optimizing Student and Supervisor Interaction During the SciPro Thesis Process – Concepts and Design. 245
Preben Hansen and Henrik Hansson

Analysis of Tools and Methods for Describing and Sharing Reusable Pedagogical Scenarios 251
Marina Kurvits, Mart Laanpere, and Terje Väljataga

Learning to Assemble Building Blocks with a Leap Motion Controller 258
Juncong Lin, Wei Yang, Xing Gao, and Minghong Liao

A Generic Software Framework for Intelligent Integrated Computer-Assisted Language Learning (iiCALL) Environment 264
Harald Wahl, Rudolf Galler, and Werner Winiwarter

Modelling Factors Influencing Digital Readiness: A Case of Teachers in Ghana’s Basic School System. 271
James Sunney Quaicoe and Kai Pata

Erratum to: Blogging Activities in Higher Education: Comparing Learning Scenarios in Multiple Course Experiences E1
Elvira Popescu, Zuzana Kubincová, and Martin Homola
