## Contents

1. Quaternary Alluvial Stratigraphy and Palaeoclimatic Reconstruction in the Damodar River Basin of West Bengal .......................... 1
   Sandipan Ghosh and Aznarul Islam

2. Lateritic Badland of Sinhati, Bankura, West Bengal: A Geomorphic Investigation .................................................. 19
   Ankan Aown and Nabendu Sekhar Kar

3. Analysis of Channel Asymmetry: A Different Perspective .......... 33
   Balai Chandra Das and Aznarul Islam

4. Present Geomorphic Categorization of Alluvial Channel Reaches Using Channel Dimensions and Geomatics in the Damodar River of West Bengal, India. ............................................. 43
   Sandipan Ghosh

5. An Enquiry into Fitting Natural Channel Shape to Geometric Shape: A Study on River Jalangi, India .................................................. 65
   Balai Chandra Das and Aznarul Islam

6. Effect of Longitudinal Disconnection on In-stream Bar Dynamics: A Study at Selected Road–Stream Crossings of Ajay River ............ 81
   Suvendu Roy and Abhay Sankar Sahu

7. Causes of Flood Hazard in Murshidabad District of West Bengal: Victims’ Perceptions ................................................................. 99
   Swati Mollah

   Arijit Majumder and Lakshmi Sivaramakrishnan
