## Part I What Is Science?

<b>1</b>	<b>The Evolution of Science</b> . . . . .	3
1.1	Greece: The Dawn of Science . . . . .	3
1.2	The Medieval Worldview . . . . .	10
1.3	The Scientific Revolution . . . . .	12
1.4	Theory of Science and Philosophy of Science . . . . .	16
1.5	Summary . . . . .	16
	Further Reading . . . . .	17
<b>2</b>	<b>Knowledge</b> . . . . .	19
2.1	Introduction . . . . .	19
2.2	Knowing That, Knowing How and Acquaintance . . . . .	19
2.3	The Definition of Propositional Knowledge . . . . .	21
2.3.1	P Is True . . . . .	22
2.3.2	Good Reasons for P . . . . .	27
2.3.3	What Does It Mean to Believe That P? . . . . .	28
2.4	Can One Know Without Knowing that One Knows? . . . . .	30
2.5	Reliabilism . . . . .	30
2.6	Data, Information, Knowledge . . . . .	31
2.7	The Philosopher's Versus the Sociologist's Concept of Knowledge . . . . .	34
2.8	The Expression 'It Is True for Me that. . . .' . . . . .	35
2.9	Knowledge of Religious Beliefs . . . . .	38
2.10	Summary . . . . .	38
	Further Reading . . . . .	40
<b>3</b>	<b>Hypotheses and Hypothesis Testing</b> . . . . .	41
3.1	Introduction . . . . .	41
3.2	Unity of Science? . . . . .	42
3.3	Hypothetical-Deductive Method . . . . .	43

- 3.4 Hypothesis Testing in the Social Sciences . . . . . 48
- 3.5 Hypothesis Testing in History: The Wallenberg Affair . . . . . 49
- 3.6 Statistical Testing of Hypotheses . . . . . 53
  - 3.6.1 Bayesianism . . . . . 53
  - 3.6.2 Statistical Inference -Neyman-Pearson’s Method . . . . . 54
- 3.7 Unacceptable Auxiliary Assumptions: Ad Hoc-Hypotheses . . . . . 56
- 3.8 Summary . . . . . 59
- Further Reading . . . . . 61
- 4 On Scientific Data . . . . . 63**
  - 4.1 Measurement and Scales . . . . . 63
  - 4.2 Statistical Relations . . . . . 65
  - 4.3 Data, Observation, Observational Statement . . . . . 69
  - 4.4 On the Theory-Dependence of Observational Statements . . . . . 72
  - 4.5 Observations and History: On Source Criticism . . . . . 77
  - 4.6 Summary . . . . . 79
  - Further Reading . . . . . 80
- 5 Qualitative Data and Methods . . . . . 81**
  - 5.1 Introduction . . . . . 81
  - 5.2 Intentionality and Meaning . . . . . 82
  - 5.3 Hermeneutics . . . . . 86
  - 5.4 Grounded Theory . . . . . 88
  - 5.5 The Intentionality of Observations . . . . . 90
  - 5.6 Are Quantitative Methods Better than Qualitative? . . . . . 93
  - 5.7 Objectivity and the Use of Qualitative Methods . . . . . 94
  - 5.8 Searle on Brute and Social Facts . . . . . 95
  - 5.9 Social Constructions . . . . . 99
  - 5.10 Criteria for Correct Interpretations . . . . . 100
  - 5.11 Summary . . . . . 102
  - Further Reading . . . . . 102
- 6 Theories About the Development of Science . . . . . 103**
  - 6.1 Introduction . . . . . 103
  - 6.2 Logical Positivism . . . . . 103
  - 6.3 Falsificationism . . . . . 106
  - 6.4 Normal Science, Scientific Revolutions  
and Paradigm Shifts . . . . . 109
  - 6.5 Lakatos’ Theory of Research Programmes . . . . . 112
  - 6.6 Methodological Anarchism: Anything Goes . . . . . 115
  - 6.7 Summary of the Debate . . . . . 116
  - 6.8 The Rationality of Science: A Model . . . . . 118
  - Further Reading . . . . . 121

**Part II Philosophical Reflections on Four Core Concepts  
in Science: Causes, Explanations, Laws and Models**

**7 On Causes and Correlations** . . . . . 125

7.1 Causes Are INUS Conditions . . . . . 125

7.2 Cause-Effect and Order in Time . . . . . 129

7.3 Causes and Statistical Correlations . . . . . 129

7.4 Risk Factors and Conditional Probabilities . . . . . 134

7.5 Direct and Indirect Causes . . . . . 136

7.6 Causes as Physical Effects . . . . . 137

7.7 Cause and Effect in History . . . . . 138

7.8 Summary . . . . . 140

Further Reading . . . . . 141

**8 Explanations** . . . . . 143

8.1 Explanation and Prediction . . . . . 143

8.2 What Is Explained? . . . . . 144

8.3 The D-N Model . . . . . 146

8.3.1 Problems with the D-N Model . . . . . 147

8.4 Causal Explanations . . . . . 149

8.5 Explanation as Unification . . . . . 150

8.6 Statistical Explanations . . . . . 151

8.7 Action Explanations . . . . . 154

8.8 Pragmatic Explanations . . . . . 156

8.9 Summary . . . . . 158

Further Reading . . . . . 159

**9 Explanation in the Humanities and Social Sciences** . . . . . 161

9.1 Methodological Collectivism Versus Methodological Individualism . . . . . 161

9.2 Explanations of Historical Events . . . . . 164

9.3 Explanation of Social Phenomena . . . . . 166

9.4 Functional Explanations . . . . . 168

9.5 Summary . . . . . 170

Further Reading . . . . . 171

**10 Scientific Laws** . . . . . 173

10.1 Introduction . . . . . 173

10.2 Empirical Generalizations: Fundamental Laws . . . . . 174

10.3 Deterministic and Statistical Laws . . . . . 175

10.4 The Extension of the Concept of a Natural Law . . . . . 176

10.5 Laws and Accidental Generalisations . . . . . 177

10.6 van Fraassen’s Alternative . . . . . 181

10.7 A Proposal: Some Laws Are Implicit Definitions of Quantities . . . . . 182

10.8 Summary . . . . . 187

Further Reading . . . . . 187

<b>11 Theories, Models and Reality</b> . . . . .	189
11.1 Introduction . . . . .	189
11.2 Structural Similarity as a Mapping of Relations . . . . .	191
11.3 Mathematical Models . . . . .	191
11.4 Wave-Particle Dualism . . . . .	193
11.5 Can One Measure Structural Similarity? . . . . .	195
11.6 Ontology and Structural Similarity . . . . .	195
Further Reading . . . . .	196
<b>Part III Some Auxiliaries</b>	
<b>12 The Mind-Body Problem</b> . . . . .	199
12.1 Introduction . . . . .	199
12.2 Substance Dualism . . . . .	200
12.3 Property Dualism . . . . .	201
12.4 Monism . . . . .	202
12.5 Monistic Theories . . . . .	203
12.6 Three Important Problems for Reductionists . . . . .	205
12.7 Mental Causes . . . . .	210
12.8 Speculations . . . . .	212
12.9 The Science of Man . . . . .	213
Further Reading . . . . .	216
<b>13 Science and Values</b> . . . . .	217
13.1 Values and Their Role in Science . . . . .	217
13.2 Value-Free and Value-Laden . . . . .	219
13.3 Is Science Valuable? . . . . .	220
13.4 Feminist Critique: Hidden Values in Science . . . . .	222
13.5 Research Ethics . . . . .	224
Further Reading . . . . .	226
<b>14 Some Recent Trends in Science</b> . . . . .	227
14.1 The Impact of University Mass Education . . . . .	227
14.2 Publish or Perish: The Value of a Research Paper . . . . .	228
14.3 Research Funding and Planning . . . . .	229
14.4 Big Science . . . . .	230
14.5 The Scientific Attitude and the Search for Meaning . . . . .	231
<b>Appendix: Logical Forms</b> . . . . .	233
Introduction . . . . .	233
Logical Form 1: Sentences . . . . .	234
Variables . . . . .	236
Predicates . . . . .	237
Logical Form 2: Argument . . . . .	238
Some Common Valid Argument Forms . . . . .	238
Some Invalid Argument Forms . . . . .	239

The ‘if...then’ Construction . . . . .	241
Necessary and Sufficient Conditions . . . . .	244
Further Reading . . . . .	244
<b>Definitions of Some Core Concepts . . . . .</b>	<b>245</b>
<b>Literature . . . . .</b>	<b>249</b>
<b>Index . . . . .</b>	<b>255</b>
