## Contents

### Lexical Semantics

A New Categorization Framework for Chinese Adverbs.......................... 3
   *Hongzhi Xu, Dingxu Shi, and Chu-Ren Huang*

Being Assiduous: Do We Have BITTERNESS or PAIN?: The Synaesthetic and Conceptual Metaphors of BITTERNESS and PAIN in Chinese
   *Jiajuan Xiong and Chu-Ren Huang*

Semantic Profile as a Source of Polysemy: Insight from the Spatial-Configuration Verb *fàng* in Mandarin .......................... 24
   *Mei-chun Liu and Jui-ching Chang*

A Contrastive Analysis of *hen* and *ting* in Chinese .......................... 33
   *Qiongpeng Luo and Yuan Wang*

Qualia Structure in Creative Metaphor.................................................. 42
   *Yi Ting Tsai*

The Implicit Negation and Counter-Expectation of *bai* in Mandarin Chinese .... 47
   *Jinghan Zeng and Yulin Yuan*

A Study of Chinese Sensation Verbs Used in Linguistic Synaesthesia ........... 62
   *Jia-Fei Hong and Chu-Ren Huang*

The Mirative Use of “怎的”(*Zěnme*) in Mandarin Chinese and Its Semantic Consequence .......................... 74
   *Bin Liu*

A Comparison of Chinese and English Hot Words of the Year..................... 83
   *Weiqi Song*

On Detection of Synonyms Between Simplified Chinese of Mainland China and Traditional Chinese of Taiwan: A Semantic Similarity Method ............. 91
   *Boli Wang and Xiaodong Shi*

Analysis on Semantic Prosody of ‘miànzi’ and ‘liǎn’:
A Corpus-Based Study ................................................................. 101
   *Yeechin Gan*

Study of the Place Names from the Perspective of Category Theory ............. 112
   *Xinye Yang*
A Cognitive Semantic Study of Idioms from The Book of Songs............. 120
Dong Zhang and Jiehong Bai

Sum, Domain Restriction and Quantification-A Semantic Study of Quanbu
in Mandarin ......................................................... 130
Lei Zhang

On ta: The Focus Marker of Numeral Expressions ......................... 141
Ying Zhang

The Semantic Features of “changchang”, “jingchang”, “wangwang”
and “tongchang”—A Corpus-Based Perspective ............................. 148
Yuncui Zhang and Pengyuan Liu

A Semantic Study of Modal Words in Mandarin Chinese.................... 160
Jianshe Zhou, Narentuya, and Jinsheng Shi

Conceptual Integration and Construction Coercion ——on the Neologism
“Tangqiang”.............................................................................. 173
Minli Zhou

A Linguistic Analysis of Implicit Emotions ..................................... 185
Sophia Yat Mei Lee

Lexical Resources

Emotional Classification of Chinese Idioms Based on Chinese Idiom
Knowledge Base .................................................................. 197
Lei Wang, Shiwen Yu, Zhimin Wang, Weiguang Qu, and Houfeng Wang

Emotion Corpus Construction on Microblog Text ............................ 204
Lei Huang, Shoushan Li, and Guodong Zhou

The Research on the Knowledge Base Construction of Pragmatic
Information on Confusable Words in TCSL ................................ 213
Juan Li, Lijiao Yang, and Yongjie Lu

Proofreading and Revision of the Semantic Classes in the Contemporary
Chinese Semantic Dictionary .................................................. 222
Lingling Mu, Hao Li, Hongying Zan, Xiaobo Feng, Yinlong Bi,
and Mengshuang Li

The Word Sense Annotation Based on Corpus of Teaching Chinese
as a Second Language ............................................................. 234
Jing Wang, Mingfu Liao, Renfen Hu, and Shuanghong Wang

Mining Chinese Polarity Shifters ................................................. 244
Ge Xu and Churen Huang
Lexicology

Degree Modification in Mandarin: A Case Study of Creative Degree Modifier 各種 [Gezhong] ....................................................... 255
Minhsin Chen and Shukai Hsieh

A Study on the Taxonomy of Chinese Noun Compounds. .......................... 262
Lulu Wang and Meng Wang

A Study on the Interactive Relationships Between the Formation of Three-Syllable Abbreviations and the Prosody ............................ 270
Shan Chen and Jianfei Luo

Word Formation in Chinese Dialects: A Case Study of Hailu Hakka ................. 281
Shengyu Teng

A Research into the Multi-category Words of Verb-Noun in Modern Chinese Based on the Quantitative Analysis of the Collocating Classifiers: Di4zhen4(Earthquake), Feng4xian4(Devote), Ji4zai3(Record), Jiu4ji4(Relief), Pei2tong2(Accompany), Shen1qing3(Apply for). ......................... 294
Pengyuan Liu and Jia Ding

A Study on the Lexicalization of Combined Idioms in Mencius .................... 307
Jingxuan Guo and Erhong Yang

A Constructional Approach to Lexical Templates in Chinese Neologisms ......... 320
Xiaomei Hu

The Study on the Noun-Locative Combination from the Perspective of Nouns’ Properties ................................................................. 329
Qiang Li

On the Interaction Between the Structure and the Prosody of Chinese 1 + 3 Idioms ................................................................. 340
Jianfei Luo

On the Licensing of Verbs in a Flip-Flop Construction from the Qualia Structure of Nouns ........................................................... 352
Changsong Wang and Wei Chin

Polarity Sensitivity of Minimal Degree Adverbs in Modern Chinese .......... 361
Zhong Wu and Lihua Li

The Semantic and Pragmatic Analysis of ‘wo zhidao (I know)’ in Fiction Style ................................................................. 369
Zhenguowu, Lijuan Li, and Zhifu Liu
XIV Contents

The Characteristics and the Whole Conversion Analysis of Quantitative Antonymous Compounds .......................... 380
   Jinzhu Zhang and Shan Xiao

鄧 [Dou₂ [Dou₂, Dou₃]] as A Counter-Expectation Discourse-Marker: On the Pragmatic Functions of Dou₂ from the Perspective of Discourse Analysis. .......................................................... 392
   Hua Zhong

Syntactic Behaviors Driven by Lexical Semantics: A Study on geng (更) and hai (還) in Chinese Comparatives ....................... 408
   Chen-chun E

Natural Language Processing and Applications

Chinese Text Analysis Based on Minimal Recursion Semantics .... 421
   Chao Su, Heyan Huang, Shumin Shi, and Ping Jian

Canonicity of Chinese Opposite Pairings: A Corpus-Based Measurement .... 430
   Jing Ding and Chu-Ren Huang

Politicize and Depoliticize: A Study of Semantic Shifts on People’s Daily Fifty Years’ Corpus via Distributed Word Representation Space .... 438
   Wenlong Mou, Ni Sun, Junhao Zhang, Zhixuan Yang, and Junfeng Hu

PoS Tagging for Classical Chinese Text. ................................ 448
   Tin-shing Chiu, Qin Lu, Jian Xu, Dan Xiong, and Fengju Lo

Narrative Idioms for Elementary-Level Chinese as a Second Language Learners. .............................................. 457
   Yaqi An and Shan Wang

Lexicalized Token Subcategory and Complex Context Based Shallow Parsing ........................................ 465
   Shui Liu, Zheng Zhang, and Pengyuan Liu

The Multi-language Knowledge Representation Based on Hierarchical Network of Concepts. .............................. 471
   Zhiying Liu, Renfen Hu, Yaohong Jin, and Wei Li

Using Keyword Features to Automatically Classify Genre of Song Ci Poem. .... 478
   Yong Mu

A Corpus-Based Analysis of Lexical Bundles in English Introductions of Chinese and International Students’ Theses ........... 486
   Guiling Niu
