Part I Fundamental Theory

Validating Markov Switching VAR Through Spectral Representations. .......................................... 3
Monica Billio and Maddalena Cavicchioli

Rapid Optimal Lag Order Detection and Parameter Estimation of Standard Long Memory Time Series. ............... 17
G.S. Dissanayake

Spatial Econometric Analysis: Potential Contribution to the Economic Analysis of Smallholder Development ............ 29
Renato Villano, Euan Fleming and Jonathan Moss

Consistent Re-Calibration in Yield Curve Modeling: An Example .......... 57
Mario V. Wütrich

Autoregressive Conditional Duration Model with an Extended Weibull Error Distribution ............................ 83
Rasika P. Yatigammana, S.T. Boris Choy and Jennifer S.K. Chan

Across-the-Board Spending Cuts Are Very Inefficient: A Proof .......... 109
Vladik Kreinovich, Olga Kosheleva, Hung T. Nguyen
and Songsak Sriboonchitta

Invariance Explains Multiplicative and Exponential Skedastic Functions .................................................. 119
Vladik Kreinovich, Olga Kosheleva, Hung T. Nguyen
and Songsak Sriboonchitta

Why Some Families of Probability Distributions Are Practically Efficient: A Symmetry-Based Explanation .......... 133
Vladik Kreinovich, Olga Kosheleva, Hung T. Nguyen
and Songsak Sriboonchitta
The Multivariate Extended Skew Normal Distribution and Its Quadratic Forms .................................................... 153
Weizhong Tian, Cong Wang, Mixia Wu and Tonghui Wang

Multiple Copula Regression Function and Directional Dependence Under Multivariate Non-exchangeable Copulas .................. 171
Zheng Wei, Tonghui Wang and Daeyoung Kim

On Consistency of Estimators Based on Random Set Vector Observations ..................................................... 185
Zheng Wei, Tonghui Wang and Baokun Li

Brief Introduction to Causal Compositional Models ................. 199
Radim Jiroušek

A New Proposal to Predict Corporate Bankruptcy in Italy During the 2008 Economic Crisis .......................................... 213
Francesca di Donato and Luciano Nieddu

Part II  Applications

The Inflation Hedging Ability of Domestic Gold in Malaysia .......... 227
Hooi Hooi Lean and Geok Peng Yeap

To Determine the Key Factors for Citizen in Selecting a Clinic/Division in Thailand .............................................. 243
Lee Tzong-Ru (Jiun-Shen), Kanchana Chokethaworn and Huang Man-Yu

ARIMA Versus Artificial Neural Network for Thailand’s Cassava Starch Export Forecasting ................................. 255
Warut Pannakkong, Van-Nam Huynh and Songsak Sriboonchitta

Copula Based Volatility Models and Extreme Value Theory for Portfolio Simulation with an Application to Asian Stock Markets ................................................................. 279
Apiwat Ayusuk and Songsak Sriboonchitta

Modeling Dependence of Health Behaviors Using Copula-Based Bivariate Ordered Probit ............................................ 295
Kanchit Suknark, Jirakom Sirisrisakulchai and Songsak Sriboonchitta

Reinvestigating the Effect of Alcohol Consumption on Hypertension Disease ..................................................... 307
Kanchit Suknark, Jirakom Sirisrisakulchai and Songsak Sriboonchitta
Optimizing Stock Returns Portfolio Using the Dependence Structure Between Capital Asset Pricing Models: A Vine Copula-Based Approach ........................................ 319
Kittawit Autchariyapanitkul, Sutthiporn Plamsuwannakit, Somsak Chanaim and Songsak Sriboonchitta

Analysis of Transmission and Co-Movement of Rice Export Prices Between Thailand and Vietnam ........................................ 333
Duangthip Sirikanchanarak, Jianxu Liu, Songsak Sriboonchitta and Jiachun Xie

Modeling Co-Movement and Risk Management of Gold and Silver Spot Prices ....................................................... 347
Chen Yang, Songsak Sriboonchitta, Jirakom Sirisrisakulchai and Jianxu Liu

Efficient Frontier of Global Healthcare Portfolios Using High Dimensions of Copula Models ........................................ 363
Nantiworn Thianpaen, Somsak Chanaim, Jirakom Sirisrisakulchai and Songsak Sriboonchitta

Analyzing MSCI Global Healthcare Return and Volatility with Structural Change Based on Residual CUSUM GARCH Approach ........................................... 373
Nantiworn Thianpaen and Songsak Sriboonchitta

Indicator Circuits with Incremental Clustering and Its Applications on Classification of Firm’s Performance and Detection of High-Yield Stocks in the Medium-Term ........................................ 385
Natchanan Kiatrungwilaikun, Komsan Suriya and Narissara Eiamkanitchat

Nonlinear Estimations of Tourist Arrivals to Thailand: Forecasting Tourist Arrivals by Using SETAR Models and STAR Models ........................................ 401
Nyo Min, Songsak Sriboonchitta and Vicente Ramos

Dependence Between Volatility of Stock Price Index Returns and Volatility of Exchange Rate Returns Under QE Programs: Case Studies of Thailand and Singapore ........................................ 415
Ornanong Puarattanaarunkorn, Teera Kiatmanaroch and Songsak Sriboonchitta

Seemingly Unrelated Regression Based Copula: An Application on Thai Rice Market ........................................ 437
