10 Evaluating Complex Educational Systems with Quadratic Assignment Problem and Exponential Random Graph Model Methods ........................................... 177 Russ Marion and Craig Schreiber

11 “Looking at” Educational Interventions: Surplus Value of a Complex Dynamic Systems Approach to Study the Effectiveness of a Science and Technology Educational Intervention ........................................ 203 Sabine van Vondel, Henderien Steenbeek, Marijn van Dijk, and Paul van Geert

12 Analyzing Teacher–Student Interactions with State Space Grids ........................................ 233 Helena J.M. Pennings and Tim Mainhard

13 Nonlinear Dynamical Interaction Patterns in Collaborative Groups: Discourse Analysis with Orbital Decomposition ........................................ 273 Dimitrios Stamovlasis

14 Investigating the Long Memory Process in Daily High School Attendance Data ........................................ 299 Matthijs Koopmans

15 Educational Systems and the Intergenerational Transmission of Inequality: A Complex Dynamical Systems Perspective ........................................ 323 Porfirio Guevara and Emilio Porta

16 The Symbolic Dynamics of Visual Attention During Learning: Exploring the Application of Orbital Decomposition ........................................ 345 Joanna K. Garner and Daniel M. Russell

17 A Catastrophe Model for Motivation and Emotions: Highlighting the Synergistic Role of Performance-Approach and Performance-Avoidance Goal Orientations ............... 379 Georgios Sideridis and Dimitrios Stamovlasis

Glossary ........................................ 395

Index ........................................ 405
Complex Dynamical Systems in Education
Concepts, Methods and Applications
Koopmans, M.; Stamovlasis, D. (Eds.)
2016, XV, 412 p. 55 illus., 28 illus. in color., Hardcover
ISBN: 978-3-319-27575-8
