## Contents

**Epigenetic Modifications in Neurological Diseases: Natural Products as Epigenetic Modulators a Treatment Strategy** .....................................................  1  
Omkaram Gangisetty and Sengottuvelan Murugan

**Effect of Docosahexaenoic Acid (DHA) on Spinal Cord Injury** ..............  27  
Sreyashi Samaddar

**Dietary Polyphenols as Potential Remedy for Dementia** ....................  41  
Abhishek Desai

**Spices: Potential Therapeutics for Alzheimer’s Disease** .....................  57  
N. Satheeshkumar, R.S.K. Vijayan, A. Lingesh, S. Santhikumar,  
and Ch. Vishnuvardhan

**Application of Bioactive Compounds from Scutellaria in Neurologic Disorders** ........................................................................................................  79  
Farhan Hussain, Sandeep Mittal, Nirmal Joshee, and Prahlad Parajuli

**Alzheimer’s Disease and Medicinal Plants: An Overview** ..................  95  
S. Manoharan, M. Mohamed Essa, A. Vinoth, R. Kowsalya,  
A. Manimaran, and R. Selvasundaram

**Efficacy of Natural Compounds in Neurodegenerative Disorders** ........  107  
Pranay Srivastava and Rajesh Singh Yadav

**Impact of Non-Enzymatic Glycation in Neurodegenerative Diseases: Role of Natural Products in the Prevention of its Menace** ...............  125  
Saheem Ahmad and Mohammed Farhan

**Role of Plant Polyphenols in Alzheimer’s Disease** ............................  153  
Arokiasamy Justin Thenmozhi, Thamilarasan Manivasagam,  
and M. Mohamed Essa
Cannabinoids: Glutamatergic Transmission and Kynurenines.................. 173
Ana Laura Colín-González, Gabriela Aguilera, and Abel Santamaría

Carotenoids and Neurobiological Health.......................................................... 199
J. Guest and R. Grant

Role of Quercetin Benefits in Neurodegeneration.......................... 229
Preetham Elumalai and Sreeja Lakshmi

Role of Omega-3 PUFAs in Neurobiological Health .................. 247
R. Grant and J. Guest

Neuroprotective Activities of Saffron and Crocin.......................... 275
Shinji Soeda, Kosuke Aritake, Yoshihiro Urade, Hiroshi Sato, and Yukihiko Shoyama

The Advances in Neurobiology.......................................................... 293
M. Ishwarya and R.T. Narendhirakannan

Brain Food at High Altitude .......................................................... 307
Vishal Jain

Indian Herbs for the Treatment of Neurodegenerative Disease .......... 323
Padmanabhan Mannangatti and Kamalakkannan Narasimha Naidu

Avocado as a Major Dietary Source of Antioxidants and Its Preventive Role in Neurodegenerative Diseases ................. 337
Kalandar Ameer

Detoxification of Carbonyl Compounds by Carbonyl Reductase in Neurodegeneration .............................................. 355
Mohammad Abdur Rashid, Mahmuda Haque, and Mohammed Akbar

Role of Polyunsaturated Fatty Acids and Their Metabolites on Stem Cell Proliferation and Differentiation ...................... 367
Mohammad Abdur Rashid, Mahmuda Haque, and Mohammed Akbar

Choline and the Brain: An Epigenetic Perspective ...................... 381
Rola Aldana Bekdash

Modulatory Effects of Dietary Amino Acids on Neurodegenerative Diseases ...................................................... 401
Senthilkumar Rajagopal, Supraj Raja Sangam, Shubham Singh, and Venkateswara Rao Jiginapally

Plant-Derived Natural Products for Parkinson’s Disease Therapy .................... 415
T. Sengupta, J. Vinayagam, R. Singh, P. Jaisankar, and K.P. Mohanakumar
The Benefits of Natural Products for Neurodegenerative Diseases
Essa, M.M.; Mohammed, A.; Guillemin, G. (Eds.)
2016, XII, 496 p. 43 illus., 26 illus. in color., Hardcover
ISBN: 978-3-319-28381-4
