

Contents

| | | |
|----------|---|----|
| 1 | Introduction | 1 |
| 2 | Theoretical Considerations | 5 |
| 2.1 | Nitrogen Cycle | 9 |
| 2.2 | Nitrogen Oxides | 10 |
| 2.3 | Ammonia | 12 |
| 2.4 | Hydrogen Sulfide | 15 |
| 2.5 | Methane | 16 |
| 2.6 | Carbon Dioxide | 16 |
| 2.7 | Carbon Monoxide | 17 |
| 2.8 | Odors | 17 |
| 2.9 | Dust and Aerosols | 18 |
| 3 | Emissions Abatement Techniques | 23 |
| 3.1 | Livestock Buildings and Manure Management | 25 |
| 3.2 | Additives | 28 |
| 3.3 | Covering Manure Storages | 31 |
| 3.4 | Aerobic and Anaerobic Treatment | 31 |
| 3.5 | Dietary Manipulation | 32 |
| 3.6 | Dust Emissions Abatement Techniques | 33 |
| 3.6.1 | Spraying Oil and Water | 34 |
| 3.6.2 | Oxidizing Agents | 34 |
| 3.6.3 | Ionization Systems | 35 |
| 3.6.4 | Aerodynamic Dedusters | 36 |
| 3.6.5 | Bioscrubbers | 36 |
| 3.6.6 | Windbreak Trees and Walls | 38 |
| 3.7 | Biofiltration for Odor Control | 39 |
| 3.7.1 | Biofilter Design | 40 |
| 3.7.2 | Media of Biofilter | 44 |
| 3.7.3 | Recent Advancements | 47 |

| | |
|--|----|
| 4 Perspective | 49 |
| 5 Summary and Conclusions | 51 |

Abatement Techniques for Reducing Emissions from
Livestock Buildings

Samer, M.

2016, XI, 62 p. 24 illus., 8 illus. in color., Softcover

ISBN: 978-3-319-28837-6
