## Contents

1 Introduction ................................................................. 1
   1.1 Introduction ...................................................... 1
   1.2 The Purpose of the Book ........................................ 2
   1.3 Evolution of an Educator: A Brief Personal Narrative .... 4
   1.4 The Methodical Structure of the Book: Difference and Repetition ........................................ 6
   1.5 What “Postformal Education: A Philosophy...” is about 6
   1.6 Personal Reflections and Concluding Remarks ............. 11
   References .................................................................... 11

Part I  An Evolutionary Approach to Education

2 Cultural Evolution: Past, Present and Futures ............. 17
   2.1 Introduction ...................................................... 17
   2.2 Evolution of Consciousness: The Cultural Dimension (Phylogeny) ......................................................... 18
      2.2.1 What is Cultural Evolution? ............................... 18
      2.2.2 What is Evolution of Consciousness? ................. 19
      2.2.3 Challenges of Researching Evolution of Consciousness—Culturally ................................. 20
      2.2.4 Why Darwinian Biological Evolution is Incomplete: A Cultural Diagnostic ................................. 21
   2.3 A Transdisciplinary Perspective on Human Culture ...... 22
   2.4 Selected Theorists of Cultural Evolution ..................... 23
      2.4.1 Comparative Models: Steiner, Gebser and Wilber ... 23
      2.4.2 Gebser’s Structures of Consciousness ................ 25
   2.5 Cultural Evolution from an Integrated Lens ............... 26
      2.5.1 The Dawn of Humans: The Culture of Survival .... 28
      2.5.2 The Age of Magic: The Culture of Art .............. 30
3 Psychological Development: Child and Adolescent

3.1 Introduction

3.2 Evolution of Consciousness: The Psychological Dimension (Ontogeny)

3.2.1 What is Psychological Development?

3.2.2 Challenges of Researching Evolution of Consciousness: Psychologically

3.3 Selected Theories of Child and Adolescent Development

3.3.1 Child Development Theories with a Focus on Piaget

3.3.2 Adolescent Development Theories, including Piaget

3.3.3 Why Piaget’s Theory is Incomplete: A Psychological Diagnostic

3.4 A Transdisciplinary Perspective on Consciousness Development

3.5 Megatrends of the Mind: Breaking through Formal Operations

3.5.1 Enacting new Thinking: Shifts within Disciplines

3.5.2 Enacting new Knowledge Patterns: The Shift beyond Disciplines

3.5.3 Research that Identifies and Theorises new Stages of Consciousness

3.5.4 Approaches that Meta-Cohere new Consciousness

3.6 Piaget’s Legacy for Adult Cognitive Development

3.6.1 A Preliminary Comparison of Gebser and Piaget

3.6.2 The Psychological Transition to Postformal Reasoning

3.7 Concluding Remarks

References

4 Evolving Education: Pre-formal and Formal

4.1 Introduction

4.2 Background to Evolution of Education

4.2.1 Culture, Consciousness and Education: Symbiotic Relationships

4.2.2 Three Macro-Phases
4.3 Pre-formal Education: Thousands of Years of Enculturation ............................................... 74
  4.3.1 Archaic Enculturation: The Arts of Gathering, Colouring, Shaping .............................. 74
  4.3.2 Magic Enculturation: The Arts of Painting, Carving, Sculpture and Pottery ..................... 77
  4.3.3 Mythical Enculturation: The Arts of Stories, Myths and Pictographs ............................. 80
4.4 Formal Education 1: 2,000 Years of Elite Formal Schooling ........................................... 83
  4.4.1 The Birth of European Elite Formal Schooling ................................................................. 83
  4.4.2 Fragments of Non-Western Elite Formal Schooling ......................................................... 84
4.5 Formal Education 2: Two Hundred Years of Mass Formal Schooling .................................. 86
  4.5.1 From Idealism to Industrialism ............................................................................................ 87
  4.5.2 Why Mass Formal Education is Incomplete: An Educational Diagnostic .......................... 88
4.6 Drivers of Change in the 21st Century: Global Education ..................................................... 89
  4.6.1 Basic Education as a Human Right ...................................................................................... 89
  4.6.2 Globalisation and Corporatisation of Higher Education ...................................................... 89
  4.6.3 The Information Revolution ............................................................................................... 90
  4.6.4 The Rise of the Global South .............................................................................................. 90
  4.6.5 Megatrends of the Mind and New Knowledge Patterns ..................................................... 91
4.7 From Global Knowledge Economy to Global Knowledge Futures ............................................. 92
  4.7.1 The Global Knowledge Economy ....................................................................................... 92
  4.7.2 Towards Global Knowledge Futures ................................................................................... 93
4.8 Concluding Remarks ................................................................................................................. 95
References ........................................................................................................................................ 95

Part II Postformal Psychology and Education: A Dialogue

5 Postformal in Psychology: Beyond Piaget’s Formal Operations .................................................. 101
  5.1 Introduction .............................................................................................................................. 101
  5.2 The Emergence of Adult Development Theories ................................................................. 102
    5.2.1 Adult Developmental Stage Theories .............................................................................. 102
    5.2.2 Ego Development Theories ............................................................................................. 103
    5.2.3 Positive Psychology and Human Potential Theories ......................................................... 105
    5.2.4 Transpersonal Psychology ............................................................................................... 105
5.3 Postformal Reasoning in Adult Developmental Psychology ................................................. 106
  5.3.1 Terminology Issues ................................................. 106
  5.3.2 Key Researchers and their Approaches .................................. 108
  5.3.3 Postformal Reasoning Qualities .................................. 110
  5.3.4 Is Postformal Reasoning about Qualities or Stages? ............................. 110

5.4 Reiterating the Shift from Formal to Postformal Reasoning ........................................... 112

5.5 Postformal Reasoning: Delicate Theorising of Twelve Qualities ........................................ 113
  5.5.1 Complexity: Incorporates Paradox and Contradiction ................................. 113
  5.5.2 Creativity: Incorporates Problem-Finding .................................................. 114
  5.5.3 Dialogical Reasoning: Incorporates Dialectics, Relationality .................... 114
  5.5.4 Ecological Reasoning: Incorporates Context, Process, Organicism .............. 115
  5.5.5 Futures Reasoning: Incorporating Foresight, Future Mindedness .................... 116
  5.5.6 Higher Purpose: Incorporating Spirituality, Values Awareness ....................... 116
  5.5.7 Imagination: Incorporating Imaginal Thinking, Mythopoesis ....................... 117
  5.5.8 Integration: Incorporating Holism, Unitary Thinking .................................. 117
  5.5.9 Intuitive Wisdom: Incorporating Wisdom, Intuition ................................... 118
  5.5.10 Language Reflexivity: Incorporating Construct-Awareness, Voice, Language .... 119
  5.5.11 Pluralism: Incorporating Non-Absolutism, Relativism ............................... 119
  5.5.12 Reflexivity: Incorporating Self-Reflection, Self-Referential Thought .............. 120

5.6 Postformal Psychology: In Light of Evolutionary Themes .................................................. 121
  5.6.1 Theme 1: Conscious, Compassionate, Spiritual Development ....................... 121
  5.6.2 Theme 2: Mobile, Life-Enhancing Thinking .............................................. 122
  5.6.3 Theme 3: Complexification of Thinking and Culture .................................... 123
  5.6.4 Theme 4: Linguistic and Paradigmatic Boundary-Crossing ............................ 124

5.7 Concluding Remarks ........................................................................................................ 124

References .......................................................................................................................... 124
6 Postformal in Education: Beyond the Formal Factory Model .......................................................... 133
6.1 Introduction .......................................................... 133
6.2 The Emergence of Evolutionary Pedagogies ....................... 134
6.2.1 First Wave: Pioneers from the Early 20th Century .............. 134
6.2.2 Second Wave: “Alternative” Education Emerges from the 1960s ............................................. 136
6.2.3 Third Wave: The 21st Century is Postformal ......................... 137
6.3 Postformal Thought Emerging in Educational Theory ............ 138
6.3.1 Post-formality of Joe Kincheloe and Shirley Steinberg .............. 138
6.3.2 Evolutionary Ideas among other Educational Theorists .......... 142
6.3.3 Tensions and Coherences between the New Approaches ........ 143
6.4 The Shift from Formal Education to Postformal Pedagogies ........ 144
6.5 Postformal Pedagogies: Theorising Twelve Approaches .......... 145
6.6 Postformal Education: In Light of Evolutionary Themes ......... 147
6.6.1 Educating for Conscious, Compassionate, Spiritual Development ............................................. 147
6.6.2 Educating for Mobile, Life-Enhancing Thinking ............... 148
6.6.3 Educating for Complexification of Thinking and Culture .................. 149
6.6.4 Educating for Linguistic and Paradigmatic Boundary-Crossing ............................................. 150
6.7 Concluding Remarks .................................................. 150
References ...................................................................... 151

7 A Boundary-Crossing Dialogue of Postformal Futures .......... 157
7.1 Introduction .......................................................... 157
7.2 Why a Series of Dialogues? .......................................... 157
7.3 Cultural Evolution and Psychological Development ............. 158
7.3.1 What do Phylogeny and Ontogeny have in Common? .......... 159
7.3.2 What do Integral Culture and Postformal Psychology have in Common? ...................................... 162
7.4 Postformal Psychology and Postformal Education .............. 167
7.4.1 Postformal Reasoning Qualities and Postformal Pedagogies ...................................................... 167
7.4.2 Paradoxes of Postformal Research ......................... 167
7.5 Postformal Psychology and Education and Evolutionary Themes ...................................................... 173
7.5.1 Postformal Reasoning and Evolutionary Themes ......... 173
7.5.2 Postformal Pedagogies and Evolutionary Themes ................................ 173
7.5.3 Postformal Reasoning, Pedagogies and Evolutionary Themes ....................... 174
7.6 Postformal Psychology, Postformal Education, Themes and Values ...................... 175
7.6.1 Evolutionary Themes, Postformal Reasoning and Core Values ...................... 175
7.6.2 Evolutionary Themes, Postformal Pedagogies and Core Values ...................... 176
7.6.3 Evolutionary Themes, Postformal Reasoning, Pedagogies and Values ................. 177
7.7 Four Core Pedagogical Values .................................................. 178
7.7.1 Pedagogies for Evolving Culture and Consciousness .................................. 178
7.7.2 Applying the Four Core Values to the Steiner National Curriculum .................. 180
7.8 Concluding Remarks .......................................................... 181
References .............................................................. 182

Part III An Evolving Postformal Education Philosophy

8 Pedagogical Love: An Evolutionary Force .................................................. 189
8.1 Introduction ..................................................................................... 189
8.2 Why Love? A Brief Diagnostic ........................................................ 190
8.3 Evolutionary Theme: Conscious, Compassionate, Spiritual Development .............. 190
8.3.1 Postformal Reasoning Qualities Aligned to Love ...................................... 191
8.3.2 Postformal Pedagogies that Warm Education .......................................... 191
8.4 Philosophical Perspectives: Responsible Love, Critical Reverence ...................... 192
8.5 Postformal Pedagogies: Promoting Love in Education ..................................... 195
8.5.1 Spiritual, Transformative and Contemplative Education ............................... 196
8.5.2 Social and Emotional Education ....................................................... 196
8.5.3 Integral and Holistic Education ....................................................... 197
8.6 Practical Examples: Letting Love into your Classroom ..................................... 198
8.6.1 Practice of Responsible Love and Critical Reverence .................................. 199
8.6.2 Care for Yourselves as Teachers ....................................................... 200
8.6.3 Inspire a Love of Learning ............................................................ 200
8.7 Personal Reflections on Pedagogical Love .................................................. 201
8.8 Concluding Remarks .......................................................................... 202
References .............................................................. 203
9 Pedagogical Life: A Sustaining Force

9.1 Introduction ................................................. 207
9.2 Why Life? A Brief Diagnostic ............................... 207
9.3 Evolutionary Theme: Mobile, Life-Enhancing Thinking .... 208
  9.3.1 Postformal Reasoning Qualities Aligned to Life ......... 208
  9.3.2 Postformal Pedagogies that Revitalise Education ...... 209
9.4 Philosophical Perspectives: Imagination as Living Thinking ...................................................... 210
  9.4.1 German Lebensphilosophie and French Poststructuralism .......... 210
  9.4.2 Imagination: A Well-Spring of Vitality .................. 212
9.5 Postformal Pedagogies: Promoting Life in Education .... 213
  9.5.1 Imaginative Education ................................... 213
  9.5.2 Ecological, Environmental and Sustainability Education ....................................................... 215
  9.5.3 Futures Studies and Foresight Education ................ 216
9.6 Practical Examples: Bringing Education back to Life .... 217
  9.6.1 Imagination as a Portal to Pedagogical Life ............ 218
  9.6.2 Practical Approaches that Enliven Curricula ............ 220
9.7 Personal Reflections on Pedagogical Life .................. 221
9.8 Concluding Remarks ......................................... 222
References ......................................................... 222

10 Pedagogical Wisdom: A Creative Force

10.1 Introduction .................................................. 229
10.2 Why Wisdom? A Brief Diagnostic ........................... 229
10.3 Evolutionary Theme: Complexification of Thinking and Culture ...................................................... 230
  10.3.1 Postformal Reasoning Qualities Aligned to Wisdom .... 231
  10.3.2 Postformal Pedagogies that Create Wise Education ....................................................... 231
10.4 Philosophical Perspectives: Wisdom as Waking up to Multiplicity ............................................ 232
10.5 Postformal Pedagogies: Promoting Wisdom in Education .... 234
  10.5.1 Creativity in Education ................................... 235
  10.5.2 Complexity in Education ................................. 235
  10.5.3 Wisdom Education ........................................ 237
10.6 Practical Examples: Weaving a Wisdom Culture ......... 238
  10.6.1 Multi-modal and Interconnected .......................... 239
  10.6.2 Cultivating Broad Creativities .......................... 240
10.7 Personal Reflections on Pedagogical Wisdom ............... 242
10.8 Concluding Remarks .......................................... 243
References ......................................................... 243
