Contents

Part I The Use of Adult Stem Cell Therapy for Selected Diseases

1 Hematopoietic Stem Cell Transplantation in Pediatric Diseases........ 3
Sule Unal and Duygu Uckan-Cetinkaya

2 Stem Cell Therapy in Diabetes Mellitus .............................................. 19
Mohamed A. Ghoneim and Ayman F. Refaie

3 Stem Cell Therapies in Neurological Disorders .............................. 31
Fatima Abbas Jamali and Said Salah Dahbour

4 Stem Cells in Diseases of Aging .......................................................... 61
Ming Li and Susumu Ikehara

5 Therapeutic Prospects of Stem Cells in Benign Urological Conditions ................................................................. 77
Amjad Alwaal and Tom F. Lue

6 Clinical Applications of Stem Cells in Women’s Reproductive Health ................................................................. 95
Noha Mousa, Sherif Abdelkarim Shazly, and Ahmed Abobakr Nassr

Part II Novel Applications of Special Types of Stem Cells

7 Adipose-Derived Stem Cell-Based Therapies in Regenerative Medicine ................................................................. 117
Ahmed El-Badawy, Sara M. Ahmed, and Nagwa El-Badri

8 Advances in Umbilical Cord Blood Therapy:
Hematopoietic Stem Cell Transplantation and Beyond ...................... 139
Theresa Chow, Sue Mueller, and Ian M. Rogers
### Part III  Applications of Stem Cells in Tissue Engineering
