Contents

Part I  Ion Channel Regulation of Vascular Tone and Blood Flow. Changes with Hypertension: Endothelial Cells

1  Endothelial Cell Ion Channel Expression and Function in Arterioles and Resistance Arteries ................................................................. 3
   William F. Jackson

2  Contribution and Regulation of Calcium Channels in Endothelial Cells ............................................................................................. 37
   Kwong Tai Cheng, Avia Rosenhouse-Dantsker, and Asrar B. Malik

3  Mitochondrial Depolarization in Endothelial and Other Vascular Cells and Their Role in the Regulation of Cerebral Vascular Tone .................................................................................. 63
   David W. Busija, Ibolya Rutkai, and Prasad V. Katakam

4  Ion Channels in Control of Blood Flow: Electrical Conduction Along Endothelium of Resistance Arteries ............................. 79
   Erik J. Behringer and Steven S. Segal

5  Ca2+/Calmodulin-Gated Small- and Intermediate-Conductance K\textsubscript{ca} Channels in Cardiovascular Regulation: Targets for Novel Pharmacological Treatments ........................................... 101
   Ralf Köhler and Aida Olivan-Viguera

Part II  Ion Channel Regulation of Vascular tone and Blood Flow. Changes with Hypertension: Smooth Muscle Cell

6  Regional Variation in Arterial Myogenic Responsiveness: Links to Potassium Channel Diversity/Function ............................... 131
   Michael A. Hill, Yan Yang, Zahra Nourian, Barry D. Kyle, Kwangseok Hong, and Andrew P. Braun
7 Ion Channel Trafficking and Control of Arterial Contractility .......... 153
M. Dennis Leo and Jonathan H. Jaggar

8 Abnormalities of Vascular Ion Channels During Hypertension .......... 169
Anup K. Srivastava, Lee Ann MacMillan-Crow, Sung W. Rhee, and Nancy J. Rusch

9 Kv7 Potassium Channels as Therapeutic Targets in Cerebral Vasospasm ........................................................................ 191
Bharath K. Mani, Lyubov I. Brueggemann, Sarkis Morales-Vidal, Christopher M. Loftus, and Kenneth L. Byron

10 Lysosomal Transient Receptor Potential Mucolipin (TRPML) Channels in Vascular Regulation and Diseases ......................... 215
Fan Zhang and Pin-Lan Li

Part III  Ion Channels in the Regulation of Cell Proliferation,
Remodeling, Hypertrophy and Angiogenesis

11 Calcium Mobilization via Intracellular Ion Channels,
Store Organization and Mitochondria in Smooth Muscle .......... 233
John G. McCarron, Susan Chalmers, Calum Wilson, and Mairi E. Sandison

12 Role of Mechanosensitive TRP Channels in Abnormal Vasculature of Tumors ........................................................................ 255
Holly C. Cappelli, Roslin J. Thoppil, Ravi K. Adapala, J. Gary Meszaros, Sailaja Paruchuri, and Charles K. Thodeti

13 TRPC and Orai Channels in Store-Operated Calcium Entry and Vascular Remodelling .......................................................... 275
David J. Beech, Jing Li, Lynn McKeown, and Hollie L. Appleby

14 Smooth Muscle Cell Ion Channels in Pulmonary Arterial Hypertension: Pathogenic Role in Pulmonary Vasoconstriction and Vascular Remodeling .................................................. 295
Ramon J. Ayon, Haiyang Tang, Ruby A. Fernandez, Ayako Makino, and Jason X.-J. Yuan

Part IV  Ion Channel Regulation by Lipids and Channel Modifications in Metabolic Disease

15 Physiological Roles and Cholesterol Sensitivity of Endothelial Inwardly-Rectifying K+ Channels: Specific Cholesterol-Protein Interactions Through Non Annular Binding Sites ........................................................................ 327
Irena Levitan, Sang Joon Ahn, Ibra Fancher, and Avia Rosenhouse-Dantsker

Vascular Ion Channels in Physiology and Disease
Levitan, PhD, I.; Dopico, MD, PhD, A.M. (Eds.)
2016, XVII, 431 p. 103 illus., 75 illus. in color.,
Hardcover
ISBN: 978-3-319-29633-3
